Potential Indicators of Terrorist Activities Related to Wholesale Distributors- Beauty/Drug

What Should I Consider Suspicious?

Suspicious People Who:

- Have burn marks on customer's hands, arms, or face
- Are Missing hand / fingers, bright colored stains on clothing, strange odors
- Significantly alters appearance from visit to visit (shaving beard, changing hair color, style of dress, etc)
- Only chemicals and no other beauty supplies purchased
- Customer does not work at or own a salon
- Preoccupation with the concentration levels of Hydrogen Peroxide or Acetone
- Asks about boiling or making liquid more concentrated
- Comments involving radical theology, vague or cryptic warnings, anti-U.S. sentiments
- Travels illogical distance to store, uses lookout or is picked-up
- Nervous/suspicious behavior, evasive or vague about intended use of products

Purchase Activities Include:

- Requests for large quantities of Hydrogen Peroxide or Acetone
- Numerous smaller purchases of Hydrogen Peroxide or Acetone (consumer-grade HP is 3-6%)
- Requests for higher concentrations or information on how to do that themselves
- Quantity desired inconsistent with use; illogical explanation for supplies
- Purchase of storage containers (glass jars or plastic buckets), mixing utensils, and/or rubber gloves, in conjunction with Hydrogen Peroxide/Acetone

It is important to remember that just because someone's speech, actions, beliefs, appearance, or way of life is different; it does not mean that he or she is suspicious.
