# District Assessment Model

## District Assessment

(Overall assessment based on **Governance, Development, Security**)

\* An area outside the key terrain, activity tracked but not formally assessed: Afghan efforts with international assistance are likely to be successful in these areas; or areas where insufficient data available for complete assessment.

# Doctrinal District Assessment Concept

**Overall Assessment of the District**

**Interagency Reports**

**Commander's Assessment Brief**

**Commander Comments**

**Overall Rating**

**Staff Discussion w/Unit Input**

**Routine Data Reports (CIDNE)**

**CCIR /Assessment Reports**

**Objective Data (Quantitative)**

**Subjective Data (Commander & Unit knowledge of Environment)**

# District Overall Definitions

<p><b>Active Support for Gov't</b></p> 	<ul style="list-style-type: none"> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that a super-majority (&gt;70%) of the population accepts legitimacy of GIROA or of traditional local governance structures not actively in opposition to GIROA.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that open, active support for GIROA is routine.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that a large majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.</li> </ul>
<p><b>Sympathy for Gov't</b></p> 	<ul style="list-style-type: none"> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that the majority of population (&gt;50%) accepts legitimacy of GIROA or of traditional local governance structures not actively in opposition to GIROA.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that most support for GIROA is passive but INS enjoy little support or tolerance.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.</li> </ul>
<p><b>Neutral/ On the Fence</b></p> 	<ul style="list-style-type: none"> <li>• Environmental Conditions in district with respect to Governance, Development and Security are such that the population is divided with respect to legitimacy of GIROA. &lt; 50% accept legitimacy of GIROA, or majority is neutral or uncommitted.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or INS is evident.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that less than half of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.</li> </ul>
<p><b>Sympathy for Insurgency</b></p> 	<ul style="list-style-type: none"> <li>• Environmental Conditions in district with respect to Governance, Development and Security are such that the majority of the population (&gt;50%) rejects legitimacy of GIROA, or aligns with anti-government elements.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that most support for insurgency remains passive.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are dissatisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.</li> </ul>
<p><b>Active Support for Insurgency</b></p> 	<ul style="list-style-type: none"> <li>• Environmental Conditions in district with respect to Governance, Development and Security are such that a super-majority of the population (&gt;60%) rejects legitimacy of GIROA, or aligns with anti-government elements.</li> <li>• Environmental conditions in district with respect to Governance, Development, and Security are such that open, active support for anti-government elements is routine.</li> <li>• Environmental conditions in district with respect to Governance, Development and Security are such that a large majority of individuals are dissatisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.</li> </ul>
<p><b>Not Assessed</b></p> 	<ul style="list-style-type: none"> <li>• An area outside the key terrain, activity tracked but not formally assessed: Afghan efforts with international assistance are likely to be successful in these areas</li> <li>• Areas where insufficient data available for complete assessment.</li> </ul>

# District Governance Definitions

	<p><b>Full authority</b></p> <ul style="list-style-type: none"> <li>• An established and officially recognized government (govt.) system exists with key positions filled.</li> <li>• Govt. provides essential services and protects the population without need for significant international community (IC) aid or security.</li> <li>• Most of the population is aware of the role of govt., perceiving it as legitimate and participating in the political process.</li> <li>• Population accepts govt. authority; disagreements with the govt. or its decisions are freely voiced in a non-violent manner without retribution.</li> <li>• An official legal system exists and is functioning, the tribal justice system is often used for resolving social and family matters.</li> <li>• Government corruption has minimal impact on individuals' lives.</li> </ul>
	<p><b>Emerging</b></p> <ul style="list-style-type: none"> <li>• An established and officially recognized government system exists with an acceptable number of vacancies in key positions.</li> <li>• Govt. provides essential services and protects the population but elements of incompetence or corruption limit effectiveness; some IC aid needed.</li> <li>• Population is generally supportive of the government and participates in key political processes.</li> <li>• The population accepts govt. authority; disagreements with the govt. or its decisions are voiced, rarely escalate into violent confrontations.</li> <li>• An official legal system may exist, but the tribal system is the primary judicial means at the local level.</li> <li>• Government corruption has some effect on individuals but is not sufficient to compromise legitimacy.</li> </ul>
	<p><b>Unproductive</b></p> <ul style="list-style-type: none"> <li>• An established and officially recognized government system exists with many key position vacancies or a high turnover rate.</li> <li>• Govt. hindered from providing essential services and protecting the population due to incompetence, corruption or insurgent influence; dependent upon external GIROA or IC aid to perform many functions.</li> <li>• Population generally neutral towards govt., protecting self-interests.</li> <li>• Population may not accept the govt. authority; disagreements with the govt. or its decisions are voiced, frequent threat of demonstrations that may escalate into violent confrontations.</li> <li>• An ineffective official legal system may exist, forcing reliance upon the tribal system for governance and justice.</li> <li>• Government corruption substantially impacts individuals' lives, leading some portion of the population to question government's legitimacy.</li> </ul>
	<p><b>Dysfunctional</b></p> <ul style="list-style-type: none"> <li>• An officially recognized govt. system exists with most key positions as well as support positions vacant or a high turnover rate.</li> <li>• Govt. cannot provide essential services and protect the population due to incompetence, corruption or insurgent influence; dependent upon significant external GIROA or IC help to provide essential services to the public; local govt. in danger of collapse absent external aid.</li> <li>• Population perceives govt. as largely illegitimate due to internal conflict, invasive corruption, insurgent influence, or incompetence; hostile resistance to govt more common.</li> <li>• Tribal system dominant; official legal system absent or regarded as less useful than alternative systems such as shadow-courts.</li> <li>• Government corruption is pervasive, compromising legitimacy of government for most individuals.</li> </ul>
	<p><b>Non-existent</b></p> <ul style="list-style-type: none"> <li>• Little or no GIROA presence; official govt. may exist but with few occupied positions.</li> <li>• External GIROA or IC forced to provide for most essential services.</li> <li>• Population perceives GIROA attempts to build local govt as illegitimate and often refuses to participate in the political process; may be unaware of value of official govt.</li> <li>• GIROA authority and IC attempts at aiding GIROA local authority are viewed as invasive and may be met with hostility.</li> <li>• The population is dependent on a shadow government or tribal system for all governance and justice issues.</li> </ul>
	<p><b>Not Assessed</b></p> <ul style="list-style-type: none"> <li>• An area outside the key terrain, activity tracked but not formally assessed: Afghan efforts with international assistance are likely to be successful in these areas</li> <li>• Areas where insufficient data available for complete assessment.</li> </ul>

# District Development Definitions

<p><b>Sustainable Growth</b></p> 	<ul style="list-style-type: none"> <li>• Viable economic growth based on Afghan business activity exists.</li> <li>• Basic needs are of acceptable quality, readily available to most of the population and sustainable.</li> <li>• Many people are employed with sustainable employment.</li> <li>• The number of stores selling amenities is increasing.</li> <li>• IC activity and investment is primarily for advances in the economy rather than basic needs.</li> </ul>
<p><b>Dependent Growth</b></p> 	<ul style="list-style-type: none"> <li>• Economic growth exists, but continued growth is dependent on IC investment.</li> <li>• Basic needs are available to most of the population but the quality of service often does not meet acceptable standards.</li> <li>• Although many people are employed, most jobs are of short duration.</li> <li>• Amenity stores openings and closures susceptible to minor market shifts.</li> <li>• IC activity and investment needed to increase growth.</li> </ul>
<p><b>Minimal Growth</b></p> 	<ul style="list-style-type: none"> <li>• Minimal economic growth exists.</li> <li>• Either quality or accessibility to many basic services is seriously lacking.</li> <li>• Employment is cyclic or seasonal based on availability of job programs.</li> <li>• Stores exist solely to provide necessities to the population.</li> <li>• IC activity and investment is necessary to sustain minimal growth.</li> </ul>
<p><b>Stalled Growth</b></p> 	<ul style="list-style-type: none"> <li>• Economic growth is stalled.</li> <li>• Both quality and accessibility to many basic services are seriously lacking.</li> <li>• Many people are unemployed, and most are still actively looking for work and hopeful.</li> <li>• Few stores exist in the area; population must travel significant distances to purchase necessities.</li> <li>• IC jobs and investment are minimal; more are needed in the area to spur the economy.</li> </ul>
<p><b>Population At Risk</b></p> 	<ul style="list-style-type: none"> <li>• Few prospects for economic growth exist.</li> <li>• Lack of basic needs seriously risks the life and health of the population.</li> <li>• Many people are unemployed and disgruntled about the lack of employment opportunities.</li> <li>• Few stores exist in the area and population is dependent on humanitarian assistance for necessities.</li> <li>• IC jobs and investment are non-existent in the area.</li> </ul>
<p><b>Not Assessed</b></p> 	<ul style="list-style-type: none"> <li>• An area outside the key terrain, activity tracked but not formally assessed: Afghan efforts with international assistance are likely to be successful in these areas</li> <li>• Areas where insufficient data available for complete assessment.</li> </ul>

# District Security Definitions

<p><b>Secure Environment</b></p> 	<ul style="list-style-type: none"> <li>• Attack levels are low to non-existent – any attacks that do occur are attributed to criminal activity and do not intimidate a large segment of the population.</li> <li>• Enemy presence is not evident in intelligence reporting or local populace readily reports on enemy presence/activities.</li> <li>• Government security forces provide security; population feels safe to conduct daily activities and serve in GIROA or ISAF provided jobs.</li> </ul>
<p><b>Occasional Threats</b></p> 	<ul style="list-style-type: none"> <li>• Some attacks occur causing intimidation limited to a small segment of the population or are so infrequent that most threats are considered to be criminal.</li> <li>• Moderate amount of reporting from populace on enemy; intelligence indicates enemy is unable to establish support areas.</li> <li>• Government security forces actively patrol urban areas and respond to incidents in other areas.</li> <li>• Population conducts daily activities and may serve in GIROA or Coalition provided jobs.</li> </ul>
<p><b>Frequent Threats</b></p> 	<ul style="list-style-type: none"> <li>• Frequent attacks intimidating a significant segment of the population; organized criminal activity may be prevalent.</li> <li>• Populace reluctant to report on enemy presence and activities; intelligence indicates the enemy has covert support areas.</li> <li>• Government security forces are limited by resources, apathy, or capability.</li> <li>• Although the population may serve in GIROA or Coalition offered jobs, they limit their movement to essential activities.</li> </ul>
<p><b>Dangerous Environment</b></p> 	<ul style="list-style-type: none"> <li>• Security forces in the area conduct movement only with heightened security measures and / or a dedicated security element.</li> <li>• Reporting from populace severely hindered; intelligence indicates the enemy has a robust support network in the area.</li> <li>• The majority of the population does not feel safe to serve in GIROA or Coalition offered jobs.</li> <li>• The population seldom associate with the Coalition forces out of fear of retribution or from ideological alignment with the Taliban.</li> </ul>
<p><b>Unsecure Environment</b></p> 	<ul style="list-style-type: none"> <li>• Security forces movement in the area is heavily restricted, requiring special approval for mission essential movement.</li> <li>• Reporting from populace may be subject to enemy influence; the enemy has complete freedom of movement in the area.</li> <li>• ANSF and Coalition forces are only authorized to conduct mission essential movements which require special approval.</li> <li>• Population is unable or unwilling to serve in GIROA or Coalition jobs.</li> </ul>
<p><b>Not Assessed</b></p> 	<ul style="list-style-type: none"> <li>• An area outside the key terrain, activity tracked but not formally assessed: Afghan efforts with international assistance are likely to be successful in these areas</li> <li>• Areas where insufficient data available for complete assessment.</li> </ul>

# District Definition Criteria

- Primary impact of conditions apply to ~75% of population in the district
- Narrative used to describe any inter-district variations
- Assessment based on routine and valid organizational or unit reporting; or common data
- Combined Information Data Network Exchange (CIDNE) or Joint Operations Intelligence Information System (JOISS) as data base for event and entity data
- CIMIC and Harmonie Web - Unclassified Information Portals

1388

NATO/ISAF UNCLASSIFIED REL GIROA

# Key Terrain Districts

# RC North

# BAGHLAN-E JADID (BAGHLAN Province) District Assessment

**Governance: "DYSFUNCTIONAL"**

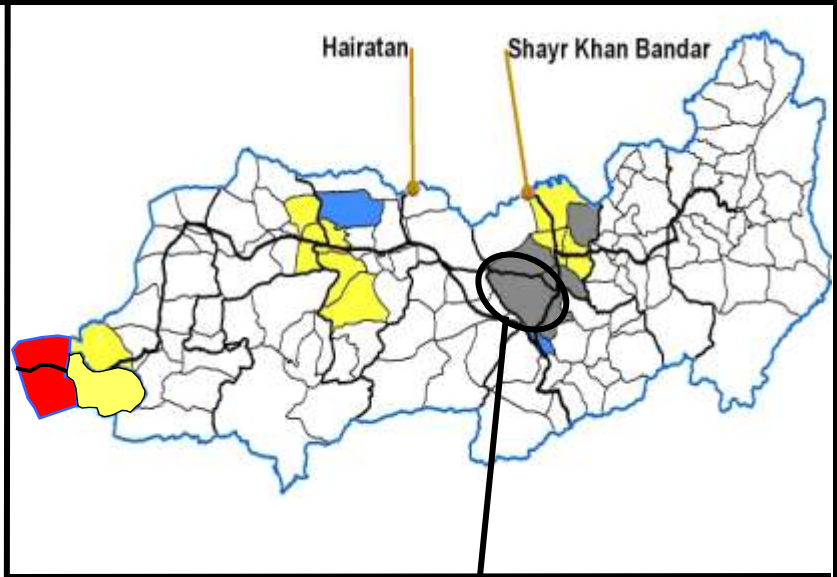

- Government cannot provide essential services and protect the population due to incompetence
- Low GIROA presence with widespread corruption
- Alleged cooperation between District and Taliban

**Development: "POPULATION AT RISK"**

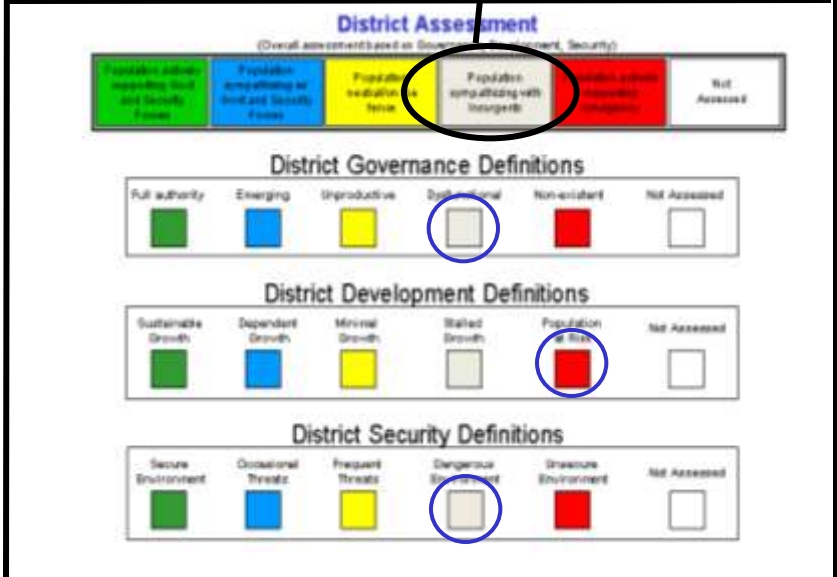

- Few prospects for economic growth exist
- Due to security situation few Civil-Military Co-Operation projects carried out; minimal investment in the area to spur economy
- High unemployment prevalent across the district
- Well developed roads and adequate health services

**Security: "DANGEROUS ENVIRONMENT"**

- Security forces in the area conduct movement only with heightened security measures
- Insurgent safe haven in area west of Kunduz River

BAGHLAN-E JADID District is assessed as "POPULATION SYMPATHIZING w/ INSURGENTS". Environmental Conditions in district with respect to Governance, Development and Security are such that the majority of the population (>50%) rejects legitimacy of GIROA, or aligns with anti-government elements.

# PUL-E KHUMRI (BAGHLAN Province) District Assessment

**Governance: "EMERGING"**

- GIROA provides essential services and protects the population with effectiveness
- No district level governance; directly subordinated to Provincial Government

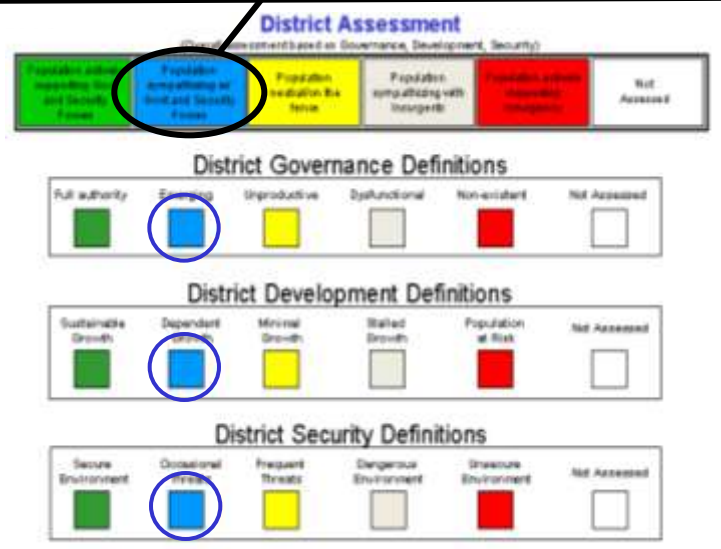

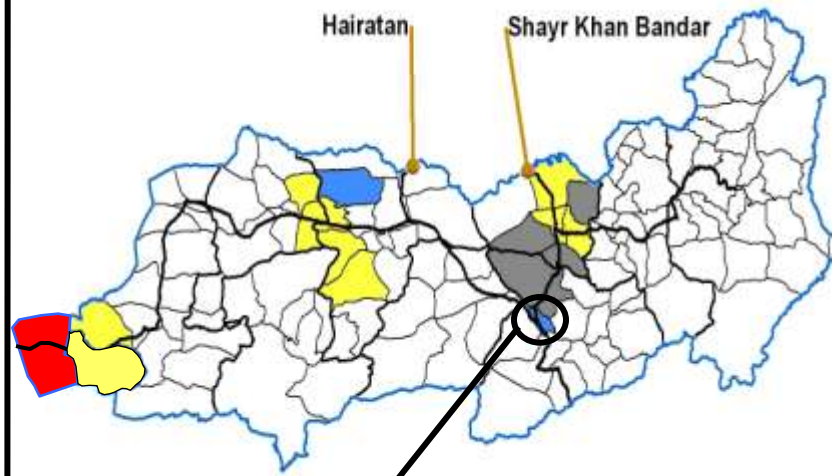

**Development: "DEPENDENT GROWTH"**

- Basic needs are available to most of the population but the quality of service often does not meet acceptable standards
- Active non-governmental organizations; due to security situation and location of District Center
- Agriculture remains basis for economy, improved irrigation would allow for more growth away from river

**Security: "OCCASIONAL THREATS"**

- Government security forces actively patrol urban areas and respond to incidents in other areas
- Insurgent target ANSF along Highway 3

**PUL-E KHUMRI District is assessed as "POPULATION SYMPATHIZING WITH GOV'T AND SECURITY FORCES"** due to environmental conditions in district with respect to Governance, Development and Security are such that most support for GIROA is passive but insurgents enjoy little support or tolerance.

# MAZAR-E SHARIF (BALKH Province) District Assessment

**Governance: "EMERGING"**

- Population is generally supportive of the government
- Possible leadership change

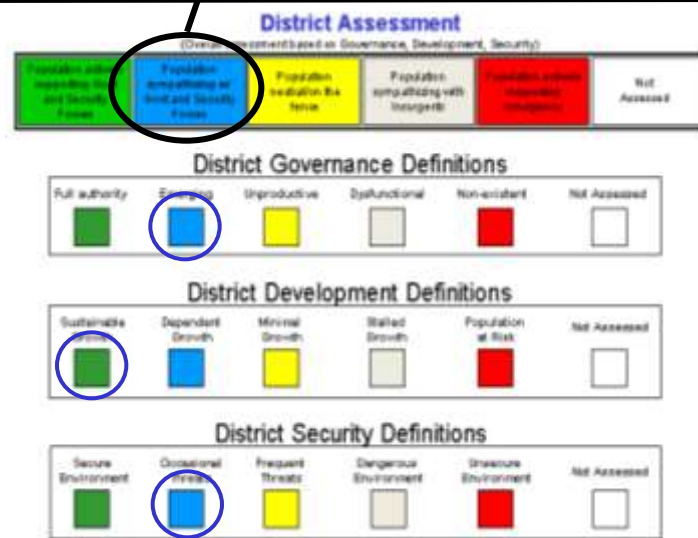

**Development: "SUSTAINABLE GROWTH"**

- Viable economic growth based on Afghan business activity exists
- Trading/logistic hub, attracting lots of investors
- Basic infrastructure and well developed road system established supporting development efforts

**Security: "OCCASIONAL THREATS"**

- Security forces actively patrol urban areas and respond to incidents in other areas
- Minimal insurgent presence within the District
- Effective ANSF
- Local population does not support insurgency

**MAZAR-E SHARIF District is assessed as "POPULATION SYMPATHIZING WITH GOV'T AND SECURITY FORCES" due to environmental conditions in district with respect to Governance, Development and Security are such that most support for GIROA is passive but INS enjoy little support or tolerance.**

# ALIABAD (KUNDUZ Province) District Assessment

**Governance: "DYSFUNCTIONAL"**

- Government cannot provide essential services and protect the population
- Tribal system dominant
- GIROA influence minimal in the western part of district

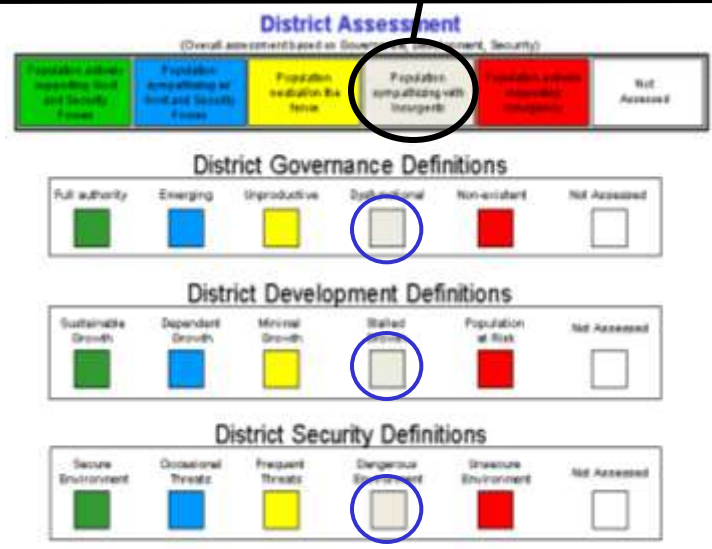

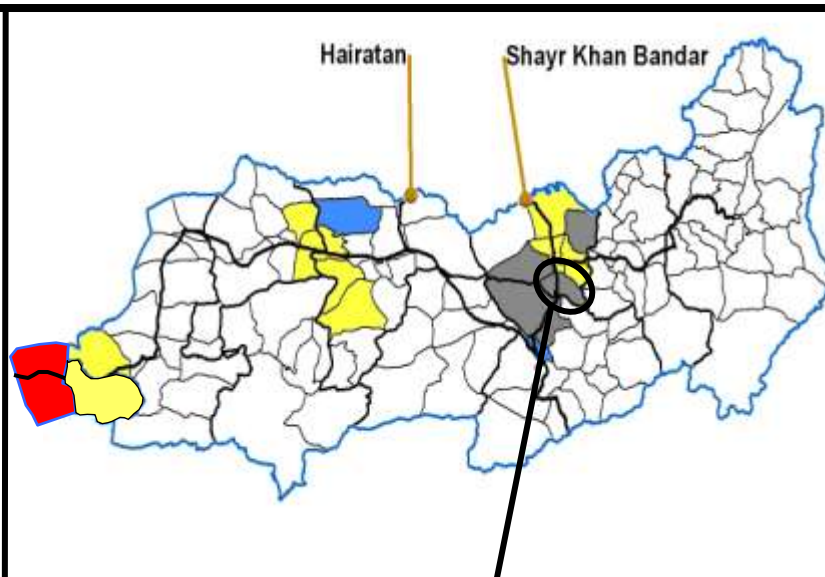

**Development: "STALLED GROWTH"**

- Both quality and accessibility to many basic services are seriously lacking, such as access to potable water
- Most of populace employed in subsistence farming; few stores exist to provide other necessities
- Well developed road network; sufficient health and education services available

**Security: "DANGEROUS ENVIRONMENT"**

- Security forces in the area conduct movement only with heightened security measures
- Insurgents from CHAHAR DARREH influence western portion of district
- Militia presence contains insurgent influence, may be long term threat to GIROA control

**ALIABAD District is assessed as "POPULATION SYMPATHIZING w/ INSURGENTS" due to a corrupt government with a poor reputation and stalled growth. Environmental Conditions in district with respect to Governance, Development and Security are such that the majority of the population (>50%) rejects legitimacy of GIROA, or aligns with anti-government elements.**

# ARCHI (KUNDUZ Province) District Assessment

**Governance: “DYSFUNCTIONAL”**

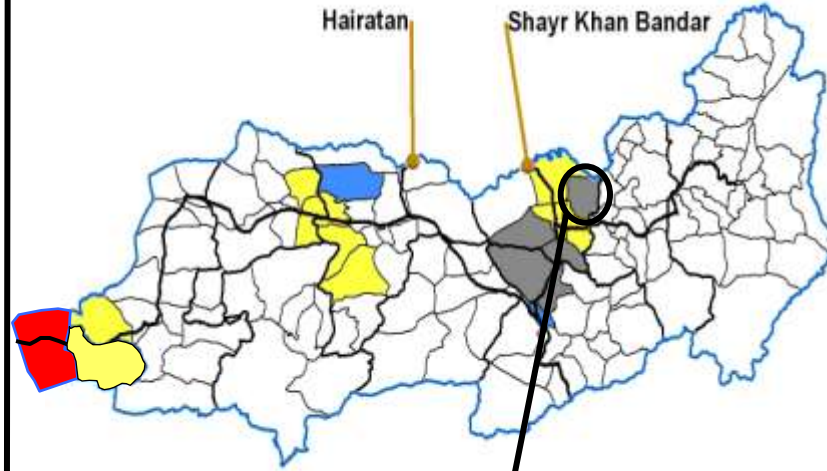

- GIROA influence negligible due to security situation
- Population within District Center Pro-GIROA

**Development: “STALLED GROWTH”**

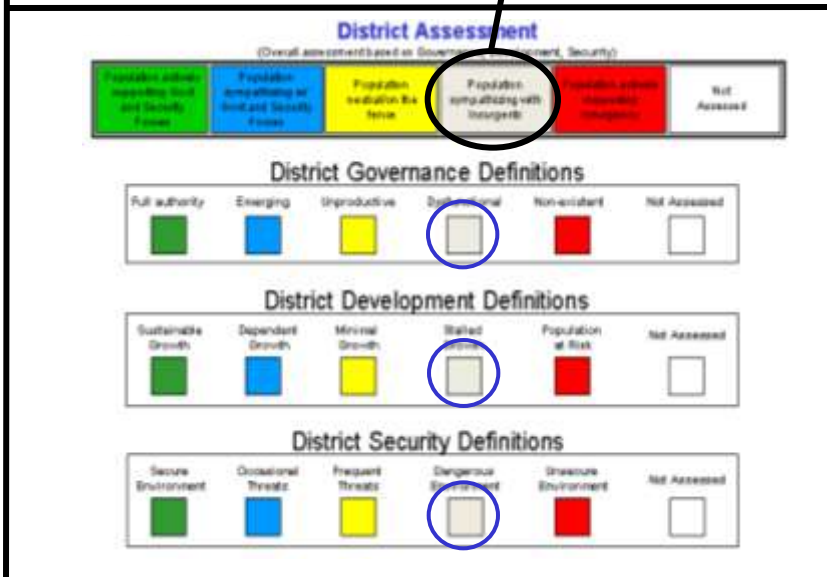

- Both quality and accessibility to many basic services are seriously lacking
- Due to security few Civil-Military Co-Operation projects carried out; non-governmental organizations only utilize local staff
- Annual flooding has created significant development delays

**Security: “DANGEROUS ENVIRONMENT”**

- Security forces in the area conduct movement only with heightened security measures
- Insurgent safe haven and narcotics trafficking area
- Small militia presence combating insurgents

ARCHI District is assessed as “POPULATION SYMPATHIZING w/ INSURGENTS” primarily due to the absence of ISAF / GIROA, allowing INS FoM in the district. Environmental Conditions in district with respect to Governance, Development and Security are such that the majority of the population (>50%) rejects legitimacy of GIROA, or aligns with anti-government elements.

# CHAHAR DARAH (KUNDUZ Province) District Assessment

**Governance: "DYSFUNCTIONAL"**

- Government cannot provide essential services and protect the population; dependent upon significant external GIROA or International Community help to provide essential services to the public

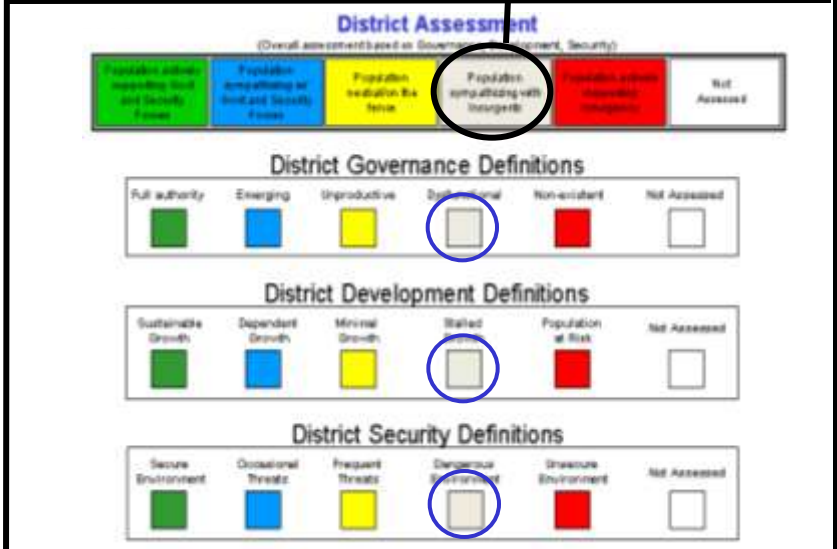

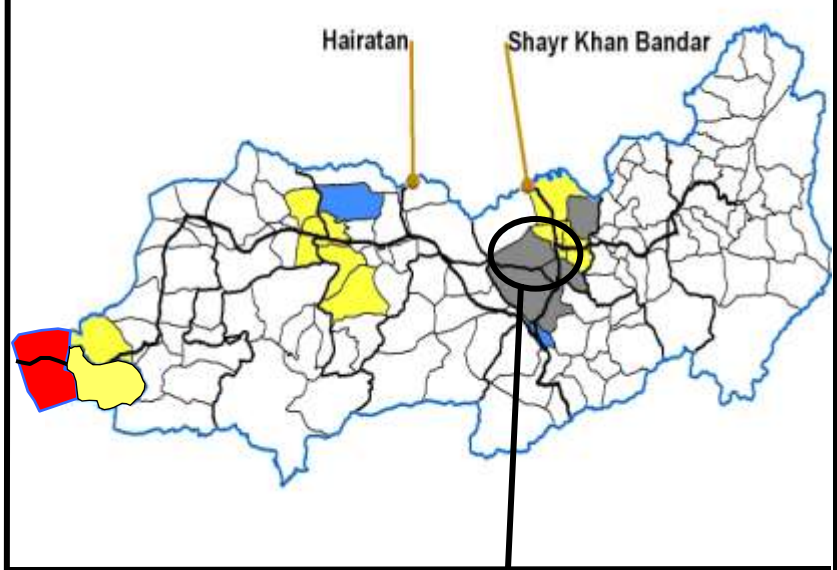

**Development: "STALLED GROWTH"**

- Many people are unemployed, and most are still actively looking for work and hopeful
- International Community jobs and investment are minimal; more are needed in the area to spur the economy
- Due to security situation few Civil-Military Co-Operation projects carried out
- Majority of district involved in agriculture

**Security: "DANGEROUS ENVIRONMENT"**

- Security forces in the area conduct movement only with heightened security measures
- ANSF presence lacking
- Well developed early warning network

**CHAHAR DARAH District is assessed as "POPULATION SYMPATHIZING w/ INSURGENTS" . Environmental Conditions in district with respect to Governance, Development and Security are such that the majority of the population (>50%) rejects legitimacy of GIROA, or aligns with anti-government elements.**

# IMAM SAHIB (KUNDUZ Province) District Assessment

**Governance: “UNPRODUCTIVE”**

- Government hindered from providing essential services and protecting the population
- Small GIROA presence outside District Center

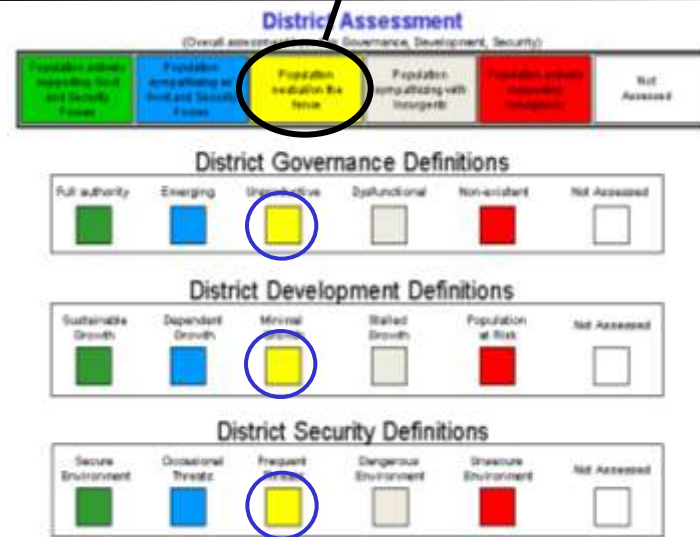

**Development: “MINIMAL GROWTH”**

- Quality and accessibility to many basic services is seriously lacking
- Due to security situation few Civil-Military Co-Operation projects carried out
- Well developed road network combined with SHIR KHAN Border Crossing may allow for future growth

**Security: “FREQUENT THREATS”**

- Frequent attacks intimidating the population

IMAM SAHIB District is assessed as “POPULATION NEUTRAL / ON THE FENCE” due to the absence of GIROA influence and insurgent freedom of movement. Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgent is evident.

# KHANABAD (KUNDUZ Province) District Assessment

**Governance:** *“UNPRODUCTIVE”*

- Population generally neutral towards government
- Limited GIROA presence
- Local Power Broker Mir ALAM wields significant influence

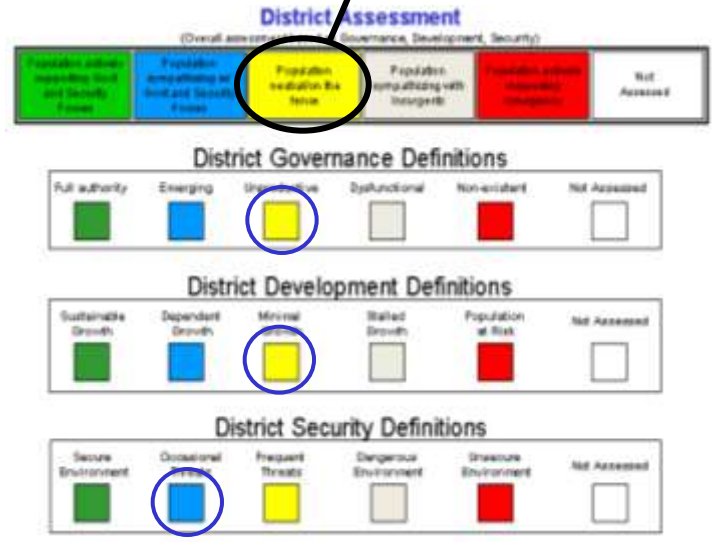

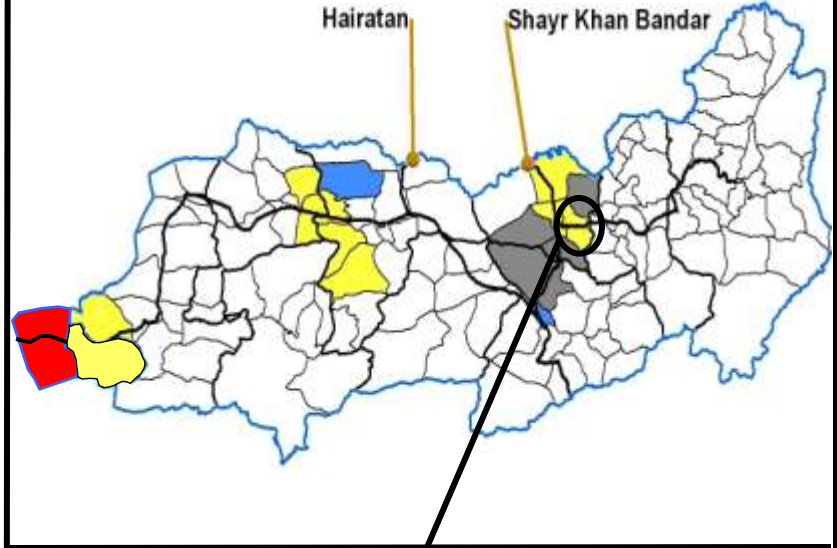

**Development:** *“MINIMAL GROWTH”*

- International Community activity and investment is necessary to sustain minimal growth
- School and health services currently adequate for populaces’ needs
- Well developed road network can provide good trade with further development

**Security:** *“OCCASIONAL THREATS”*

- Government security forces are limited by resources
- ANSF presence lacking; militias have largely expelled insurgent groups, and are currently providing security

**KHANABAD District is assessed as “POPULATION NEUTRAL / ON THE FENCE”.** Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgent is evident.

# KUNDUZ (KUNDUZ Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- Corruption substantially impacts government's legitimacy
- Population within District Center Pro-GIRoA

**Development: "DEPENDENT GROWTH"**

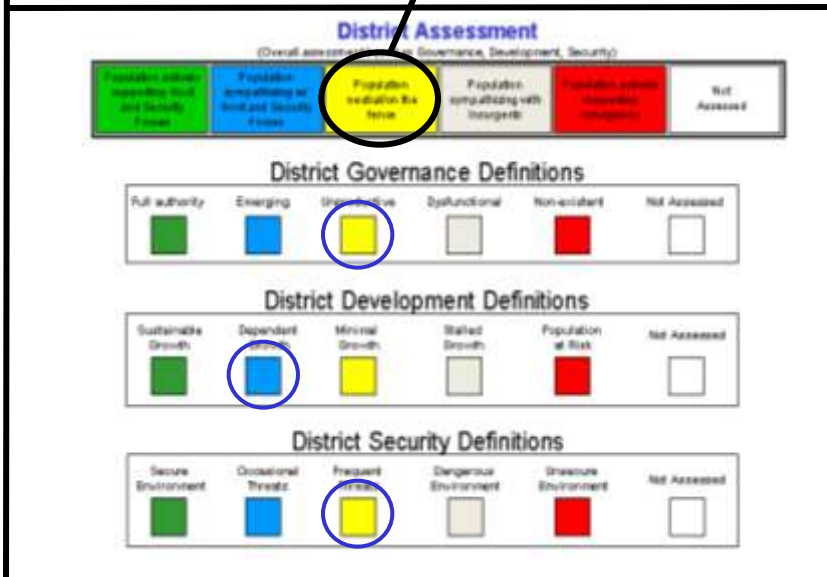

- Basic needs are available to most of the population but the quality of service often does not meet acceptable standards
- Many non-governmental organization projects ongoing, primarily around district center; less activity in rural areas

**Security: "FREQUENT THREATS"**

- Populace reluctant to report on enemy presence and activities
- District Center secure due to significant ANSF / ISAF presence
- Rising militia presence is a concern

**KUNDUZ District is assessed as "POPULATION NEUTRAL/ ON THE FENCE" primarily due to the stable security situation and significant ongoing development projects. Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIRoA or insurgents is evident.**

# GHORMACH (FARYAB Province) District Assessment

**Governance: "NON- EXISTENT"**

- Little GIROA presence; official government exists
- Population is dependent on tribal system for governance and justice issues

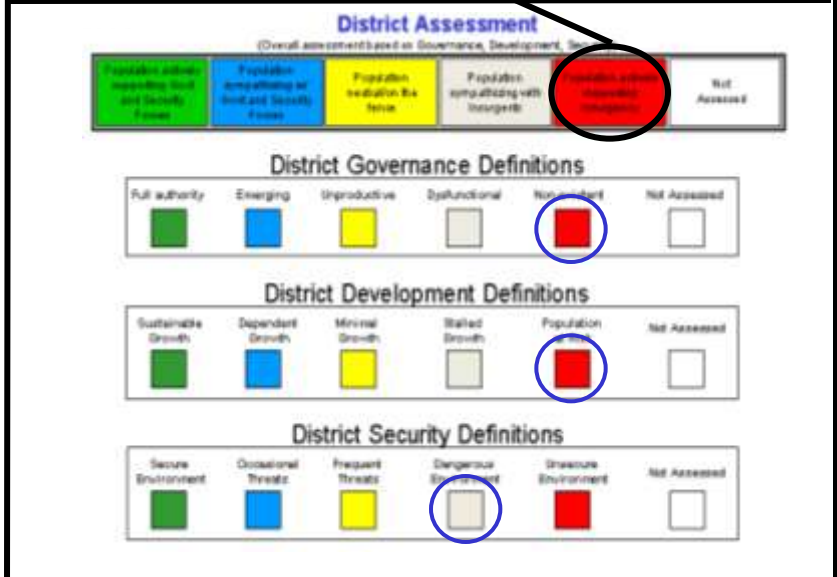

**Development: "POPULATION AT RISK"**

- Many people are unemployed and disgruntled about the lack of employment opportunities
- Lack of basic needs seriously risks the life and health of the population
- Few prospects for economic growth exist

**Security: "DANGEROUS ENVIRONMENT"**

- Security forces in the area conduct movement only with heightened security measures
- Reporting hindered;

GHORMACH District is assessed as "POPULATION ACTIVELY SUPPORTING INSURGENCY" as the environmental conditions in the district with respect to Governance, Development and Security are such that a large majority of individuals are dissatisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political Security.

# QAISAR (FARYAB Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- Government hindered from providing essential services and protecting the population
- Reliance upon the tribal system for governance and justice
- Population generally neutral towards government

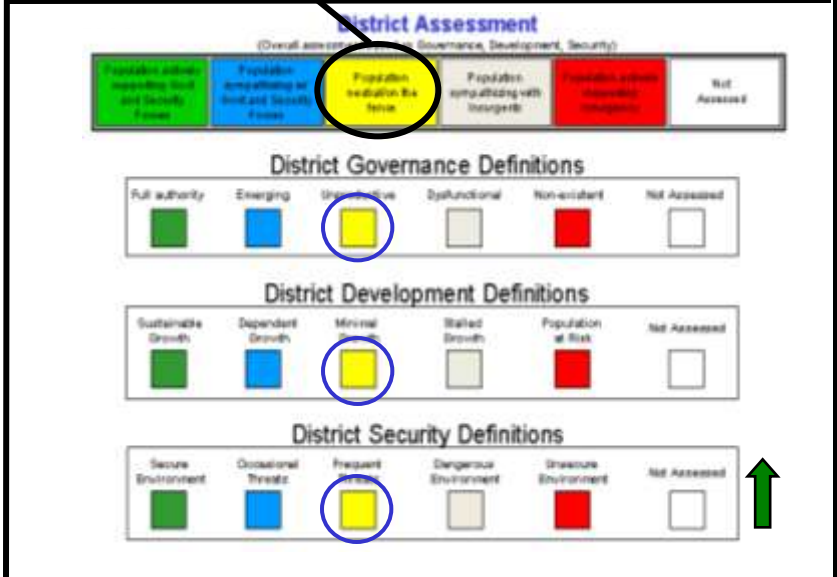

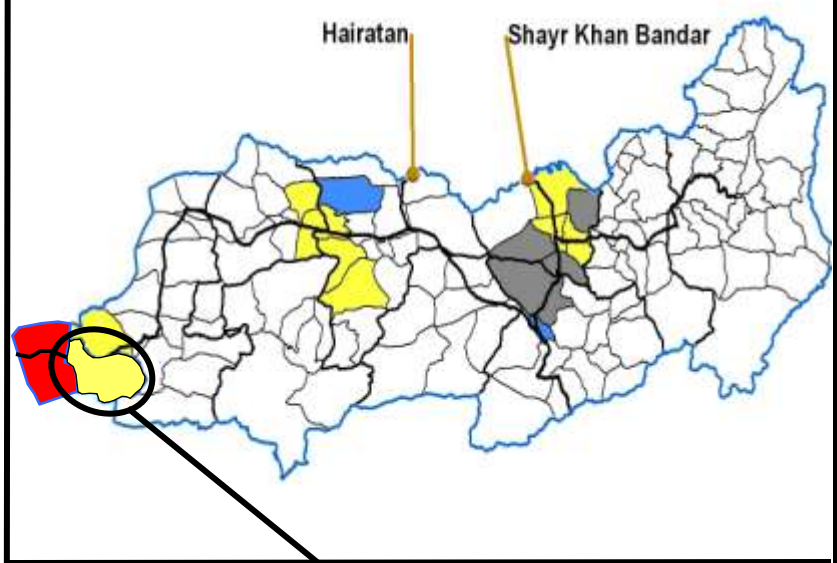

**Development: "MINIMAL GROWTH"**

- Minimal economic growth exists
- Accessibility to many basic services is seriously lacking
- Employment is cyclical on availability of job programs

**Security: "FREQUENT THREATS"**

- The population may serve in GIROA or Coalition offered jobs, they limit their movement to essential activities
- Insurgents enjoy freedom of movement in large parts of district
- Security forces in the area conduct movement only with heightened security measures

QAISAR District is assessed as "POPULATION NEUTRAL/ ON THE FENCE". Environmental Conditions in district with respect to Governance, Development and Security are such that the population is divided with respect to legitimacy of GIROA. Less than 50% of the population accept legitimacy of GIROA, or majority is neutral or uncommitted.

# CHAHAR BOLAK (BALKH Province) District Assessment

**Governance: “DYSFUNCTIONAL”**

- Government cannot provide essential services and protect the population

**Development: “STALLED GROWTH”**

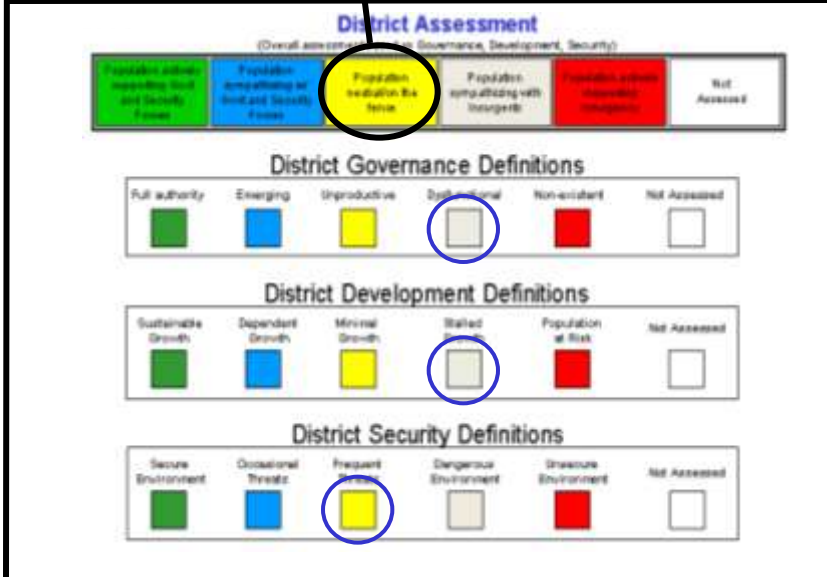

- Both quality and accessibility to many basic services lacking
- Many people unemployed, and most are still actively looking for work and hopeful
- Lack of water a problem in many villages

**Security: “FREQUENT THREATS”**

- Pashtun pockets are insurgent strongholds / safe havens
- Security forces limited by resources

CHAHAR BOLAK District is assessed as “POPULATION NEUTRAL/ON THE FENCE” as the environmental conditions in district with respect to Governance, Development and Security are such that less than half of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

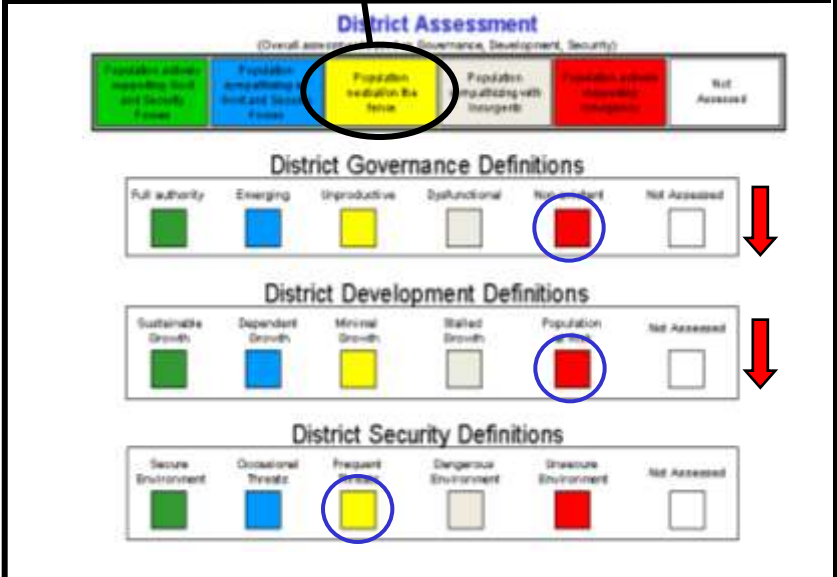

# CHIMTAL (BALKH Province) District Assessment

**Governance: "EMERGING"**

- An established and officially recognized government system exists
- Police are effective in securing the major bazaar and district center and are held in high regard by the people
- The tribal system is the primary judicial means at the local level

**Development: "MINIMAL GROWTH"**

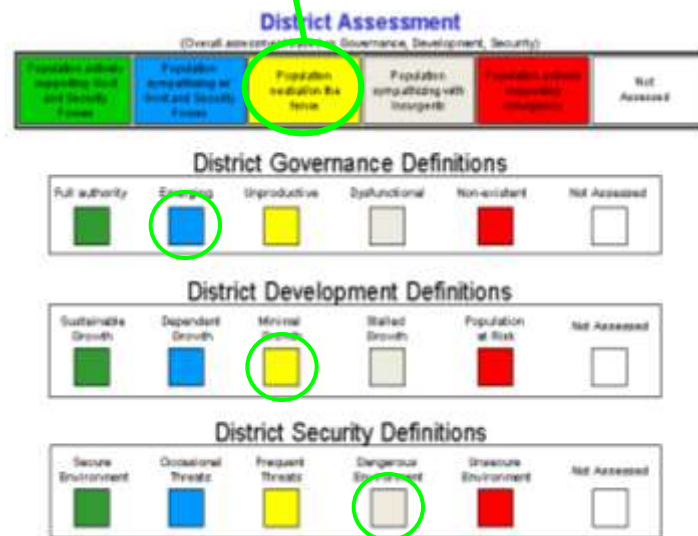

- Stalled economic growth, completion of the WAGEZ Road should enhance economy
- Lacking adequate basic services; employment is seasonal
- Stores limited to providing necessities

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting severely hindered
- Taliban elements target GIROA infrastructure to discredit GIROA's ability to provide sufficient security
- Intimidation is a large factor in influencing the local populace

WAGHEZ District is assessed as "POPULATION NEUTRAL / ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# BAK (KHOST Province) District Assessment

**Governance: “DYSFUNCTIONAL”**

- An officially recognized govt. system exists
- Tribal system dominant
- Complaints of favoritism and decisions made in favor of tribal affiliations

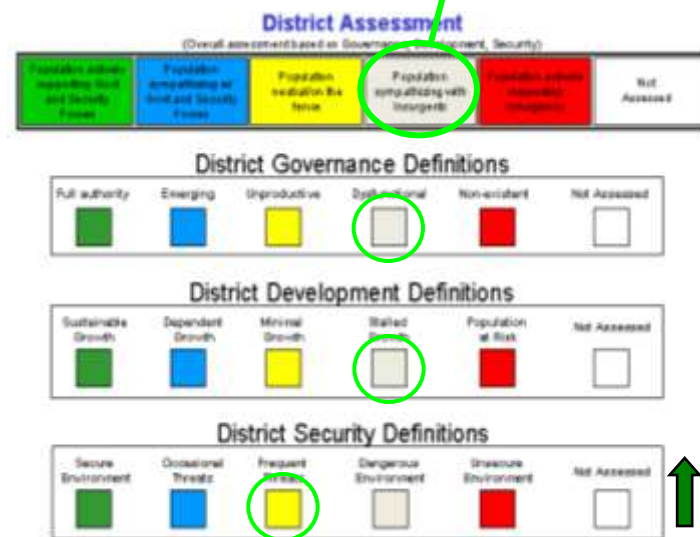

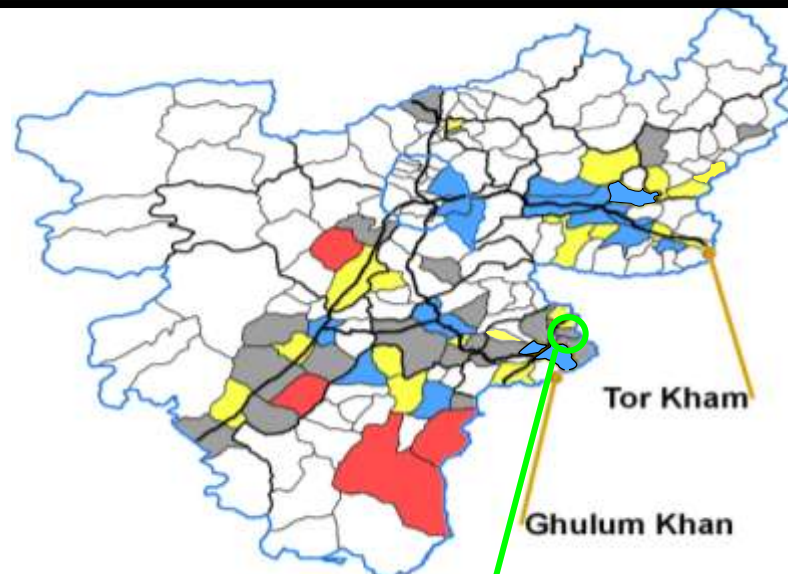

**Development: “STALLED GROWTH”**

- Growth stalled; quality and access to basic services lacking; high employment
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International Community investment minimal

**Security: “FREQUENT THREATS”**

- Populace reluctant to report on enemy presence and activities
- Intimidation is conducted IOT maintain coerced populace support and discrediting GIROA

**BAK District is assessed as “SYMPATHY FOR INSURGENCY”** Environmental conditions in district with respect to Governance, Development and Security are such that most support for insurgency remains passive.

# JAJI MAIDEN (KHOST Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- An established and officially recognized government system exists
- Population generally neutral towards government
- Tribal arrangements continue to dominate conflict resolution as the people believe it to be more fair

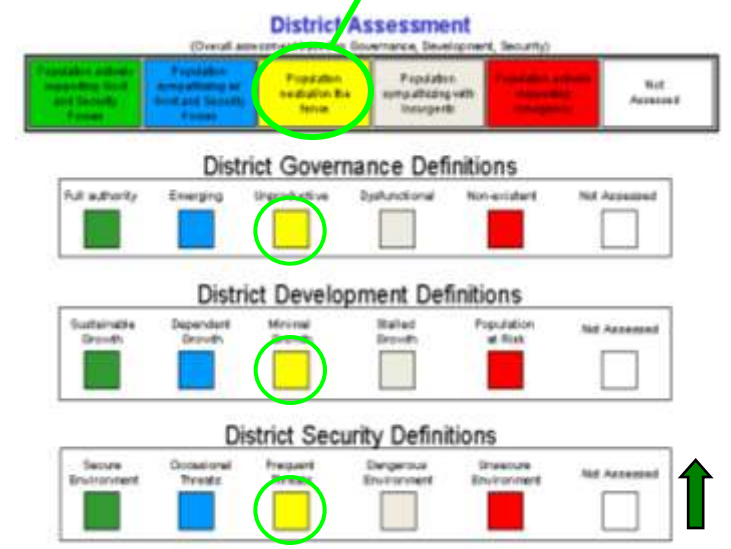

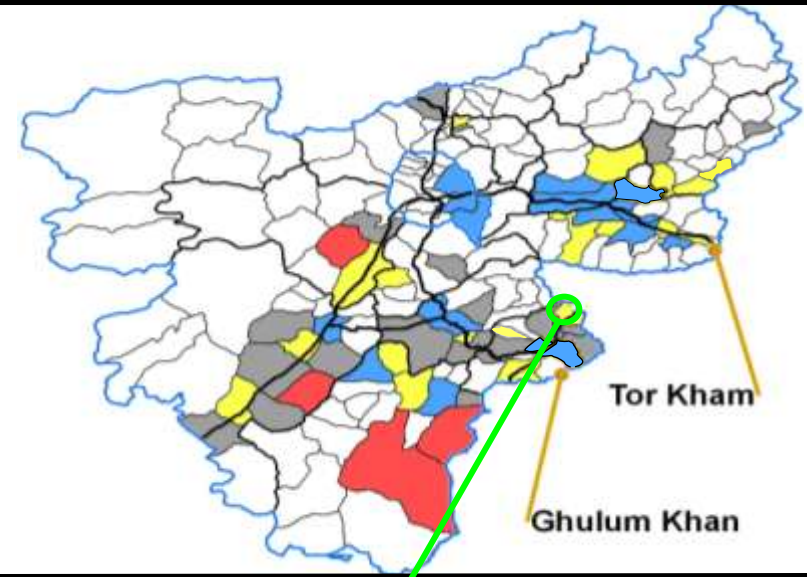

**Development: "MINIMAL GROWTH"**

- Growth stalled; basic services lacking; Employment cyclical/seasonal
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International community investment minimal

**Security: "FREQUENT THREATS"**

- Populace reluctant to report on enemy presence and activities
- Although the population may serve in GIRoA or Coalition offered jobs, they limit their movement to essential activities

JAJI MAIDEN District is assessed as "POPULATION NEUTRAL/ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIRoA or insurgents is evident.

# KHOST MATUN (KHOST Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- An established and officially recognized government system exists
- Reliance upon the tribal system for governance and justice
- A Tribal Council exists that cooperates with local authorities
- Government staff needs more civil servant capacity in training/education

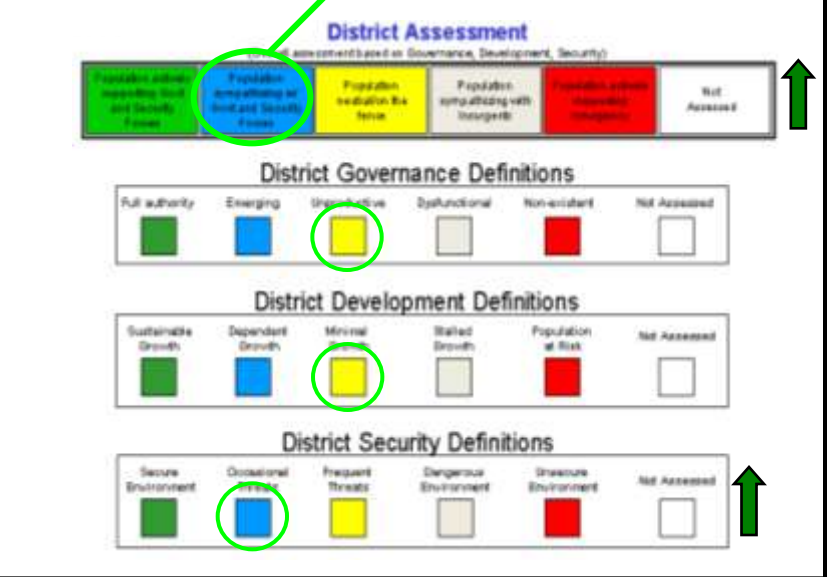

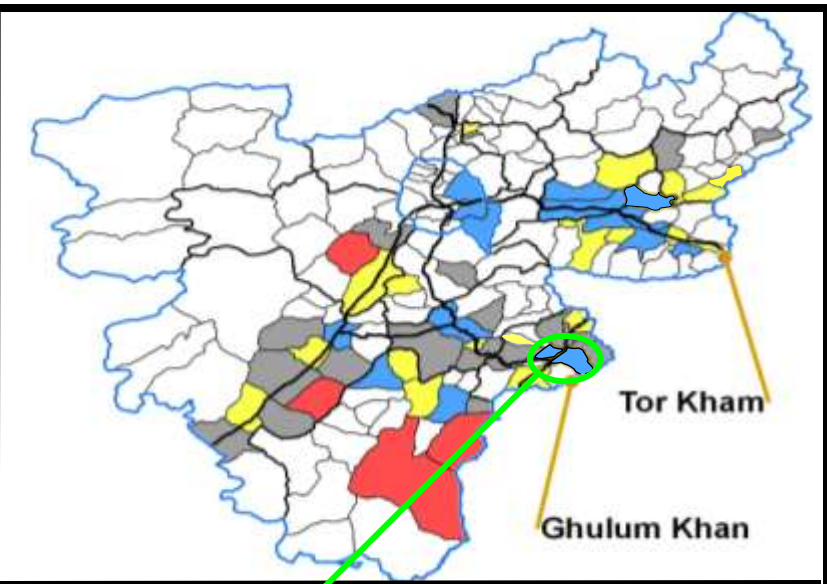

**Development: "MINIMAL GROWTH"**

- Growth stalled; basic services lacking; Employment cyclical/seasonal
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International community investment minimal

**Security: "OCCASIONAL THREATS"**

- Government security forces actively patrol urban areas and respond to incidents in other areas
- Population conducts daily activities and may serve in GIROA or Coalition provided jobs

**KHOST MATUN District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES".** Environmental conditions in district with respect to Governance, Development and Security are such that the majority of population (>50%) accepts legitimacy of GIROA or of traditional local governance structures not actively in opposition to GIROA.

# NADIR SHAH KOT (KHOST Province) District Assessment

**Governance:** *“DYSFUNCTIONAL”*

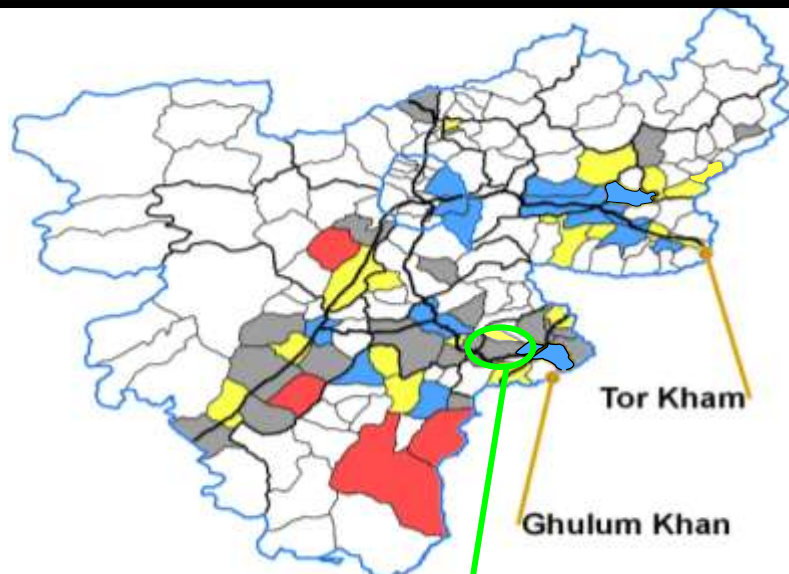

- An officially recognized government system exists
- Tribal system dominant

**Development:** *“STALLED GROWTH”*

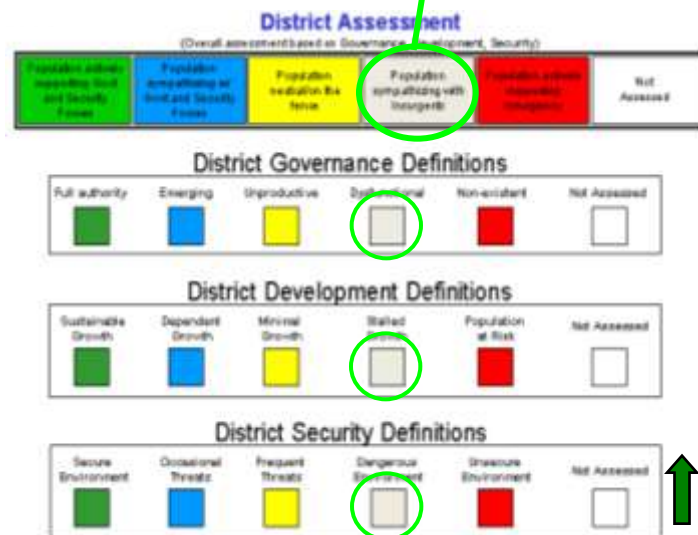

- Quality and access to basic services lacking; high employment
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International Community investment minimal

**Security:** *“DANGEROUS ENVIRONMENT”*

- Security forces in the area conduct movement only with heightened security
- Reporting severely hindered

NADIR SHAH KOT District is assessed as **“POPULATION SYMPATHIZING WITH THE INSURGENTS”** Environmental conditions in district with respect to Governance, Development and Security are such that most support for insurgency remains passive.

# SABERI (KHOST Province) District Assessment

**Governance: "NON-EXISTENT"**

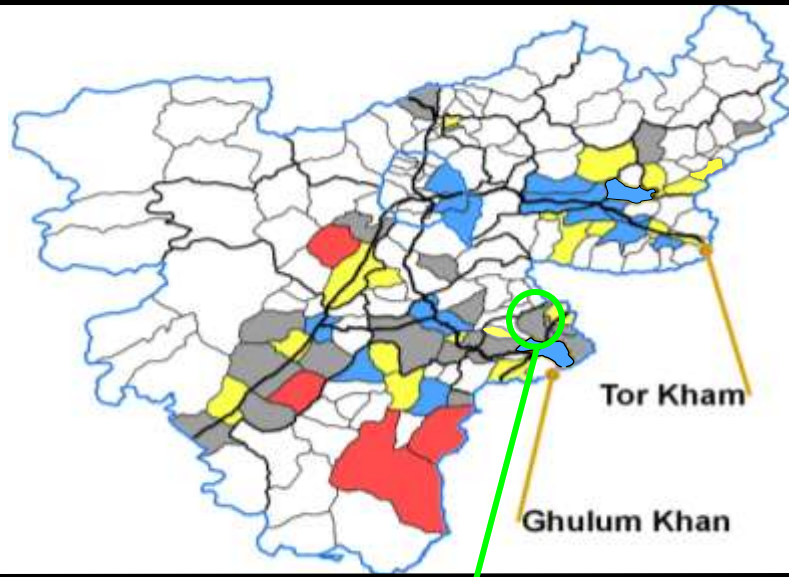

- Little GIROA presence; official government may exist
- The population is dependent on tribal system for all governance and justice issues

**Development: "STALLED GROWTH"**

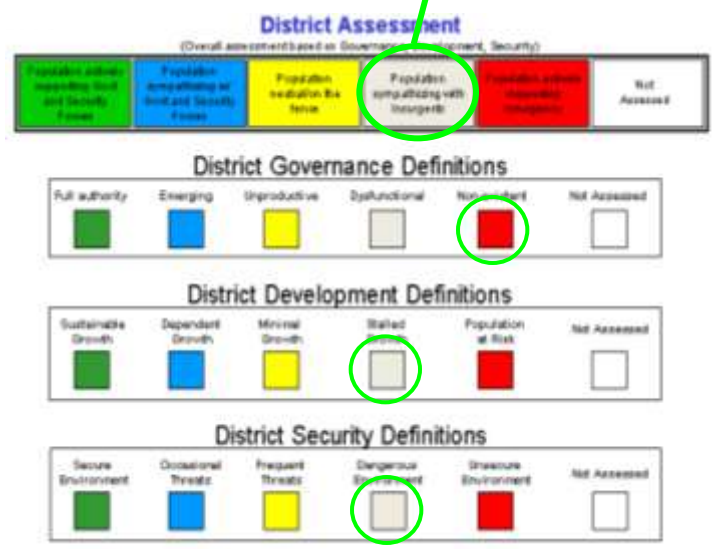

- Quality and access to basic services lacking; high employment
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International Community investment minimal

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting severely hindered
- The population seldom associate with the Coalition forces out of fear of retribution or from ideological alignment with the Taliban

**SABERI District is assessed as "POPULATION SYMPATHIZING WITH THE INSURGENTS"**  
 Environmental conditions in district with respect to Governance, Development and Security are such that most support for insurgency remains passive.

# SHAMUL (ZADRAN) (KHOST Province) District Assessment

**Governance: "DYSFUNCTIONAL"**

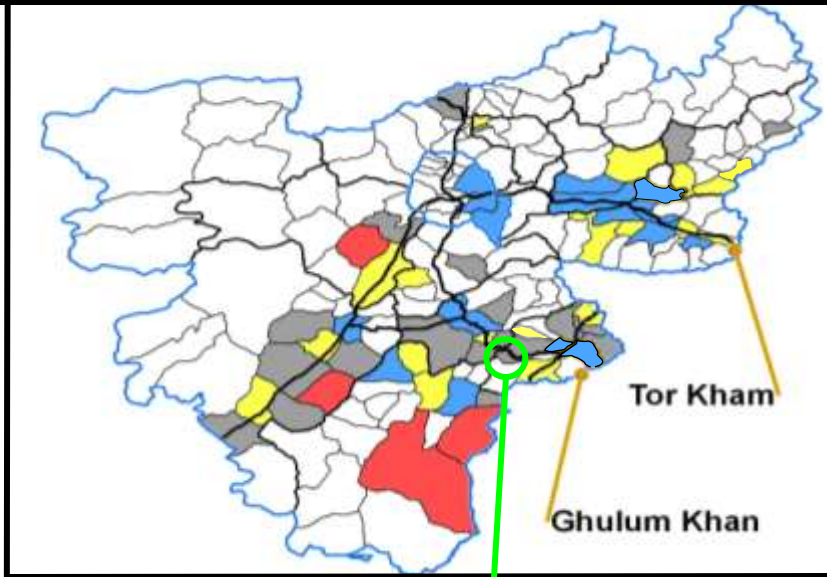

- An officially recognized government system exists
- Tribal system dominant
- Population hostile, resistance to government more common

**Development: "STALLED GROWTH"**

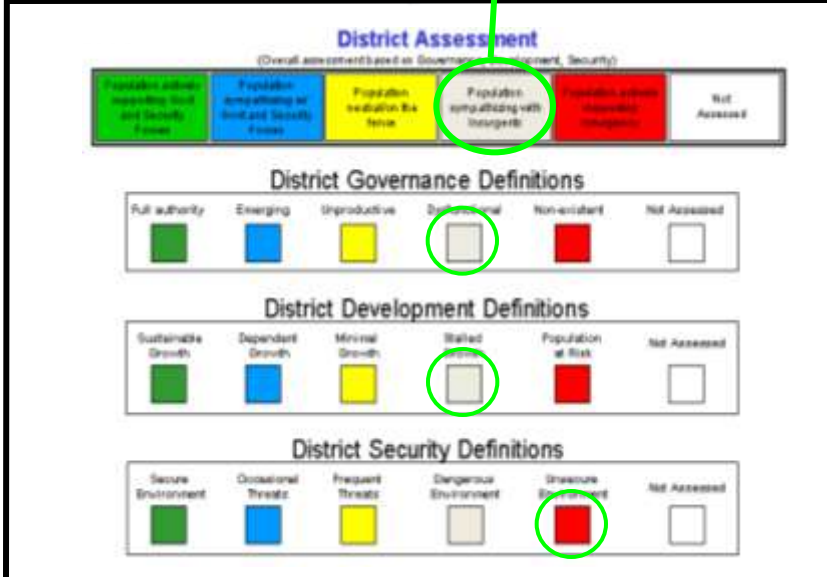

- Quality and access to basic services lacking; high employment
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International Community investment minimal

**Security: "UNSECURE ENVIRONMENT"**

- Security forces movement in the area is heavily restricted,
- Population is unable or unwilling to serve in GIROA or Coalition jobs
- Reporting may be subject to enemy influence

**SHAMUL District is assessed as "POPULATION SYMPATHIZING WITH THE INSURGENTS"**  
Environmental conditions in district with respect to Governance, Development and Security are such that most support for insurgency remains passive.

# TANAI (KHOST Province) District Assessment

**Governance: "UNPRODUCTIVE"**

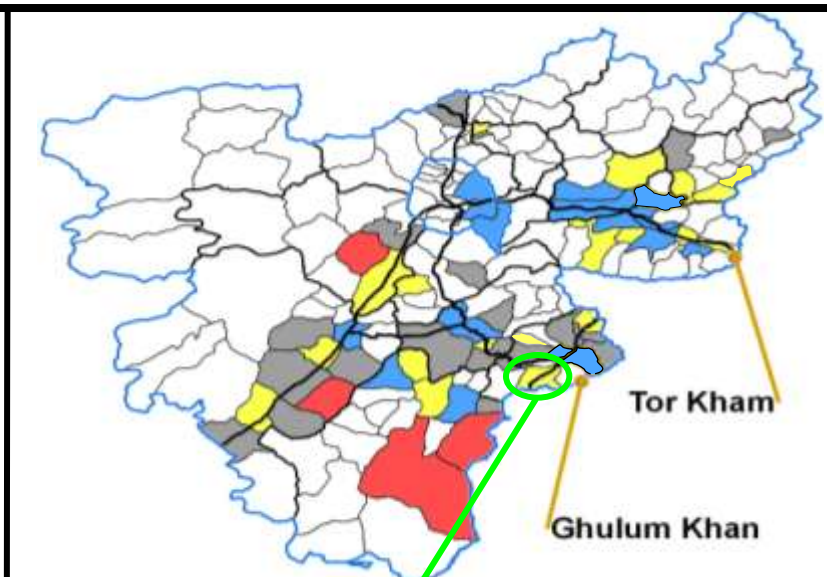

- An established and officially recognized government system exists
- Reliance upon the tribal system for governance and justice

**Development: "MINIMAL GROWTH"**

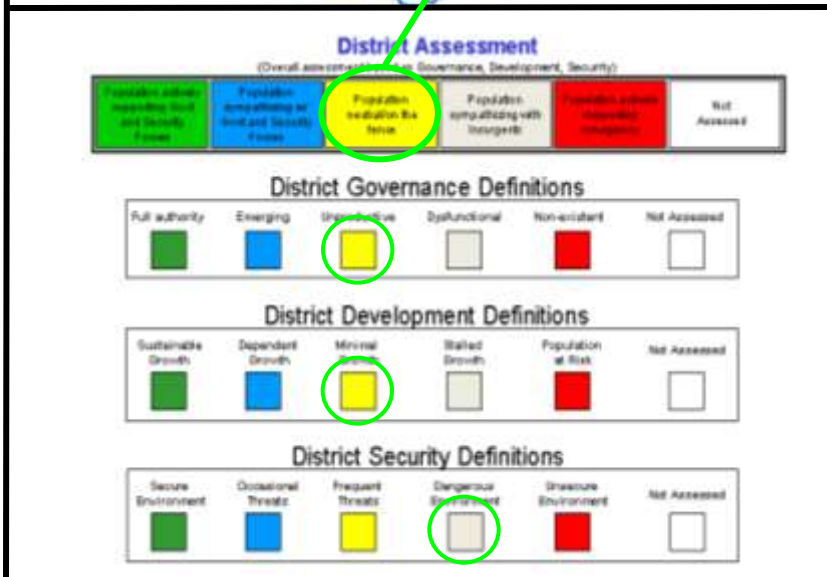

- Growth stalled; basic services lacking; employment cyclical/seasonal
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International community investment minimal

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting severely hindered
- The population seldom associate with the Coalition Forces out of fear of retribution

TANAI District is assessed as "POPULATION NEUTRAL / ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# NURGAL (KONAR Province) District Assessment

**Governance: “UNPRODUCTIVE”**

- An established and officially recognized government system exists
- Outside the river valley attempts to implement projects have met resistance
- Reliance upon the tribal system for governance and justice

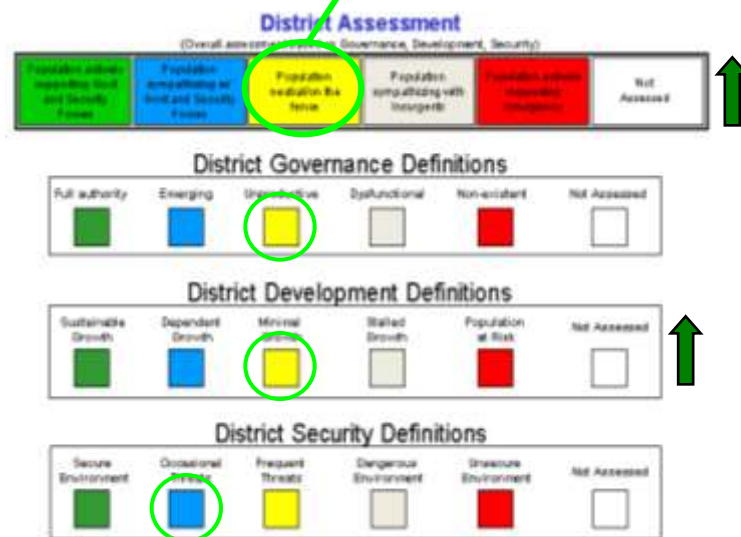

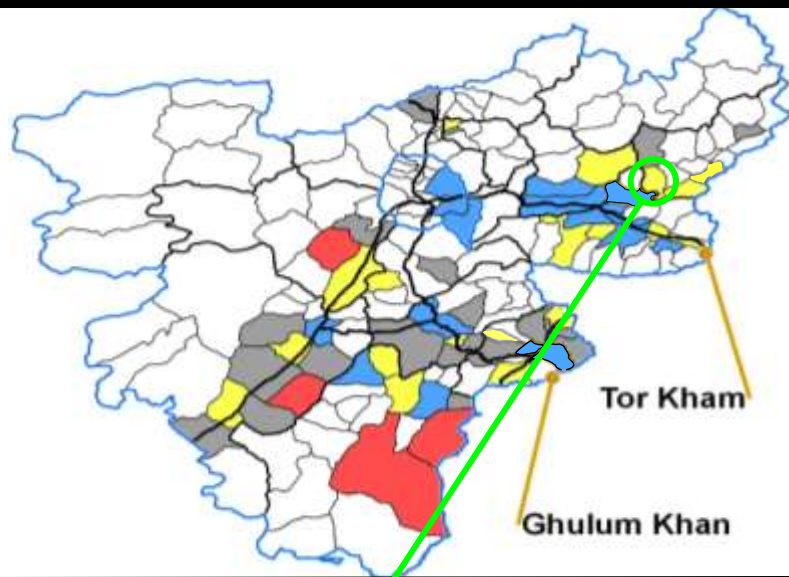

**Development: “MINIMAL GROWTH”**

- Minimal economic growth exists; basic services lacking
- Employment cyclical/seasonal based on job programs
- International Community activities/investment needed for growth

**Security: “OCCASIONAL THREATS”**

- Population conducts daily activities and may serve in GIROA or Coalition provided jobs
- Coalition Forces presence in the district is limited
- The insurgent network is focused on maintaining influence over the local populace

NURGAL District is assessed as “POPULATION NEUTRAL / ON THE FENCE” Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# KHAS KONAR (KONAR Province) District Assessment

**Governance: "EMERGING"**

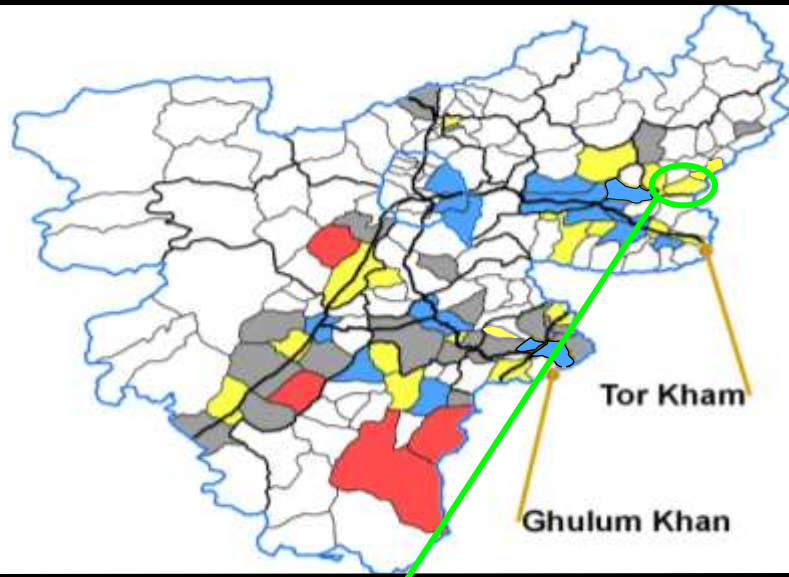

- GIROA district level governance is unable to provide basic services
- District level positions are filled with officials that have at least a high school diploma
- Outside the city center, little involvement with GIROA
- Outside the city relies on the tribal system for conflict resolution

**Development: "STALLED GROWTH"**

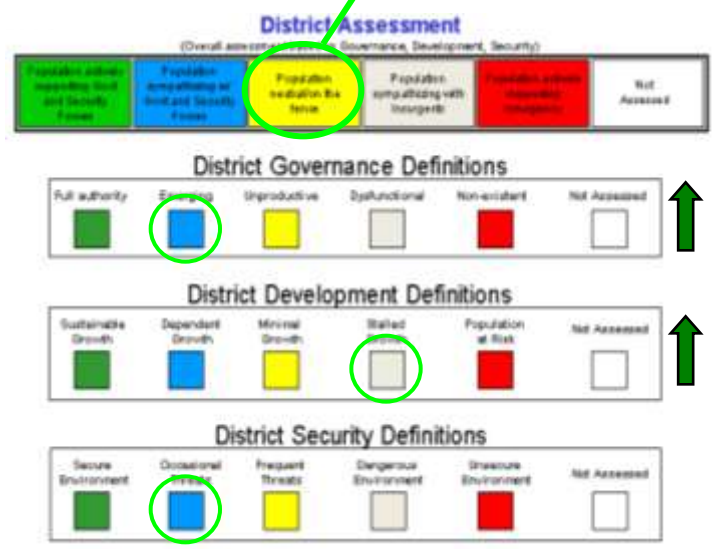

- Quality and access to basic services lacking; high employment
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International Community investment minimal

**Security: "OCCASIONAL THREATS"**

- Population conducts daily activities and may serve in GIROA or Coalition provided jobs
- Limited Coalition Forces presence in the District

**KHAS KONAR district is assessed as "POPULATION NEUTRAL/ ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or INS is evident.**

# ALINGAR (LAGHMAN Province) District Assessment

**Governance: "EMERGING"**

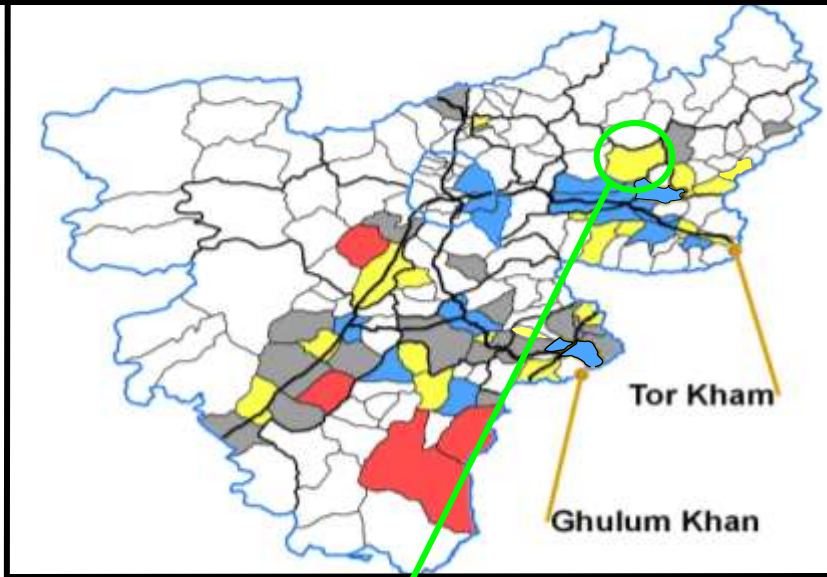

- An established and officially recognized government system exists
- Recent changes in GOV positions
- Population is becoming more aware of what services are provided by GIROA.

**Development: "MINIMAL GROWTH"**

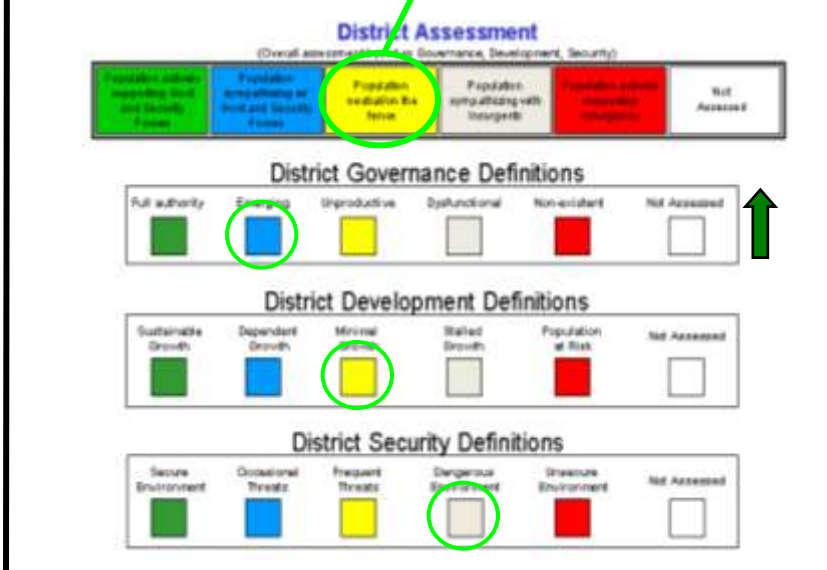

- Growth stalled; basic services lacking; employment cyclical/seasonal
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International community investment minimal

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting severely hindered
- The population seldom associate with the Coalition Forces
- Limited collection assets; limited Coalition Forces presence and no installations in the district
- Locals perceive GIROA as unable to secure the area

**ALINGAR District is assessed as "POPULATION NEUTRAL / ON THE FENCE"** Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# METHAR LAM (LAGHMAN Province) District Assessment

**Governance: “EMERGING”**

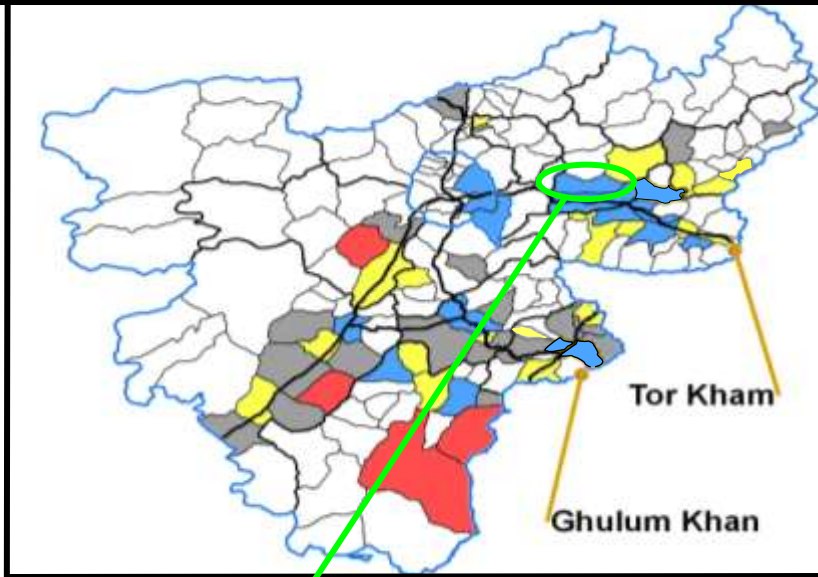

- Government provides essential services and protects the population
- Duly elected Government recognized by the citizens.
- Tribal system is the primary judicial means at the local level

**Development: “SUSTAINABLE GROWTH”**

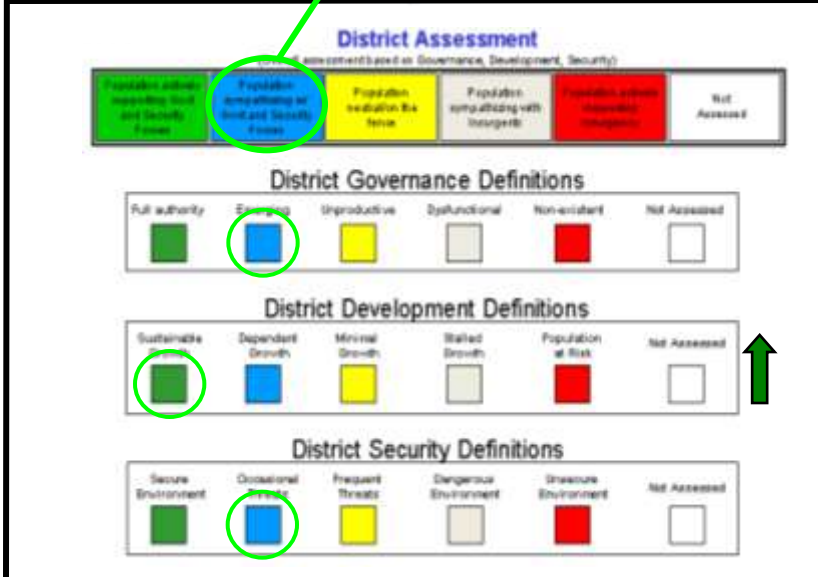

- Rated good in all areas of development; need to expand coverage of basic services
- Need more non-seasonal employment
- International community activity and investment needed

**Security: “OCCASIONAL THREATS”**

- Population conducts daily activities and may serve in GIROA or Coalition provided jobs
- Attacks are mostly ineffective

METHAR LAM District is assessed as “POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES” Environmental conditions in district with respect to Governance, Development and Security are such that most support for GIROA is passive but INS enjoy little support or tolerance.

# QARGHAH'I (LAGHMAN Province) District Assessment

**Governance: "EMERGING"**

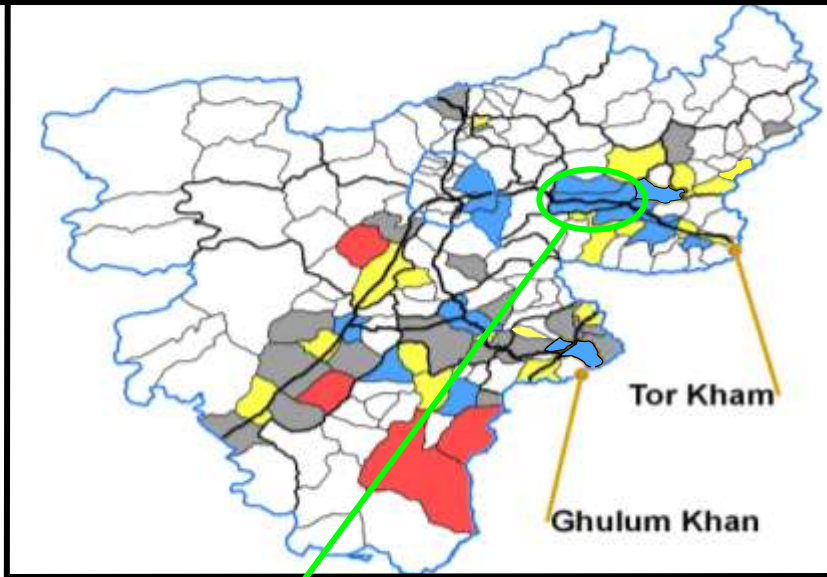

- Government provides essential services and protects the population
- Duly elected Government recognized by the citizens.
- Tribal system is the primary judicial means at the local level

**Development: "MINIMAL GROWTH"**

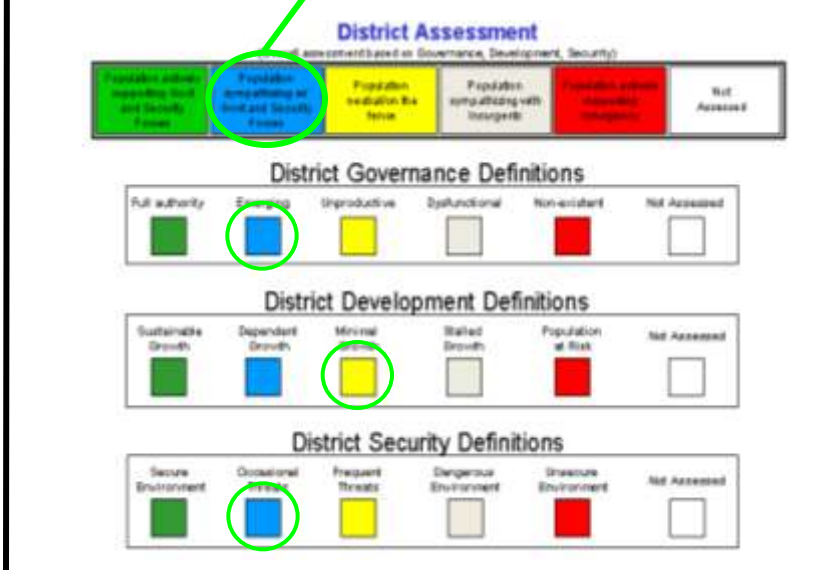

- High levels of seasonal unemployment
- Basic services met, but need improvement in clinics and schools
- International community involvement needed to improve conditions

**Security: "OCCASIONAL THREATS"**

- Standoff attacks are the primary method
- Highway 7 used to facilitate illicit activities

**QARGHAH'I District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES"** Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

# BATI KOT (NANGARHAR Province) District Assessment

**Governance: "UNPRODUCTIVE"**

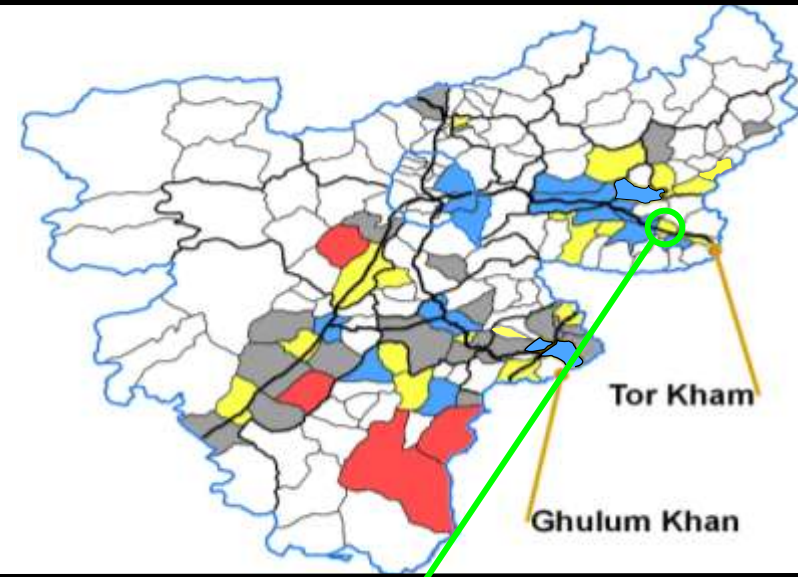

- An established and officially recognized government system exists
- Reliance upon the tribal system for governance and justice

**Development: "STALLED GROWTH"**

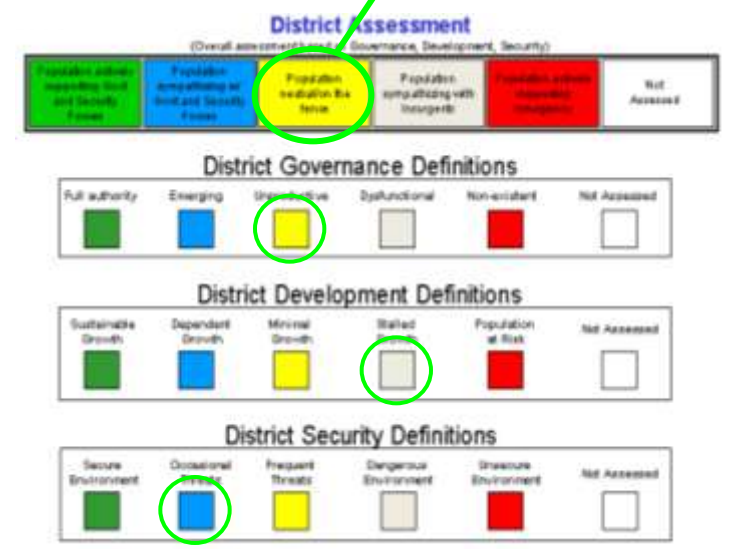

- Unemployment is the major limiting factor for development
- Both quality and accessibility to many basic services are lacking
- More international community involvement is needed

**Security: "OCCASIONAL THREATS"**

- Population conducts daily activities and may serve in GIROA or Coalition provided jobs
- Limited governance and development create an environment for money, weapons, equipment and narcotics facilitation

BATI KOT District is assessed as "POPULATION NEUTRAL / ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# BEHSUD (NANGARHAR Province) District Assessment

**Governance: "EMERGING"**

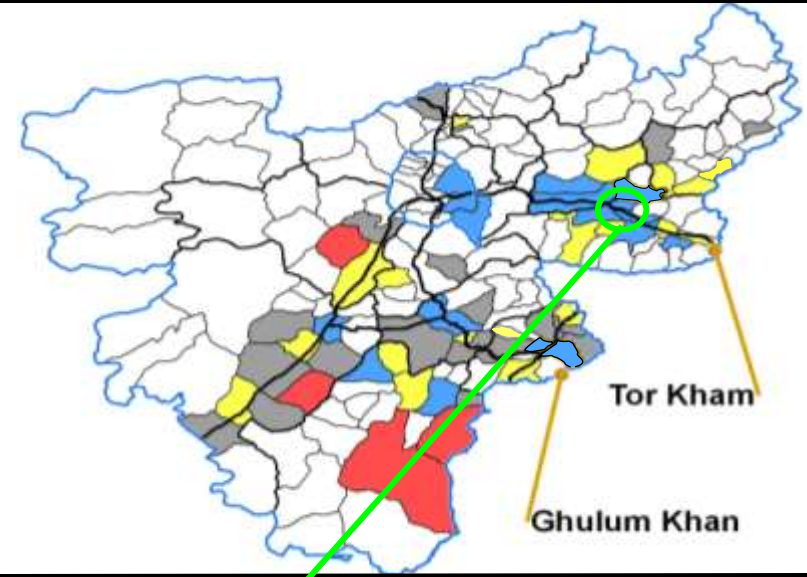

- An established and officially recognized government system exists
- Provincial government centered in the Jalalabad municipality
- Populace acknowledges limited corruption
- An official legal system exists within the District.

**Development: "DEPENDANT GROWTH"**

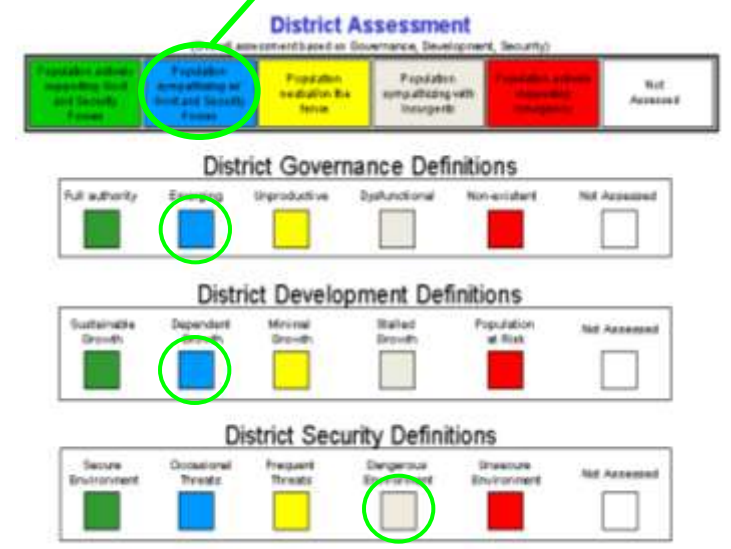

- Level of development is high due to the influence of Jalalabad City
- Unemployment is the only limiting factor
- International community activity and investment needed to increase growth

**Security: "DANGEROUS ENVIRONMENT"**

- Insurgents sporadically target the district, focusing on disrupting development and creating an environment not conducive for governance
- Highway 7 typically utilized for illicit travel and trade

**BEHSUD District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES"** Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

# CHAPARHAR (NANGARHAR Province) District Assessment

**Governance: "UNPRODUCTIVE"**

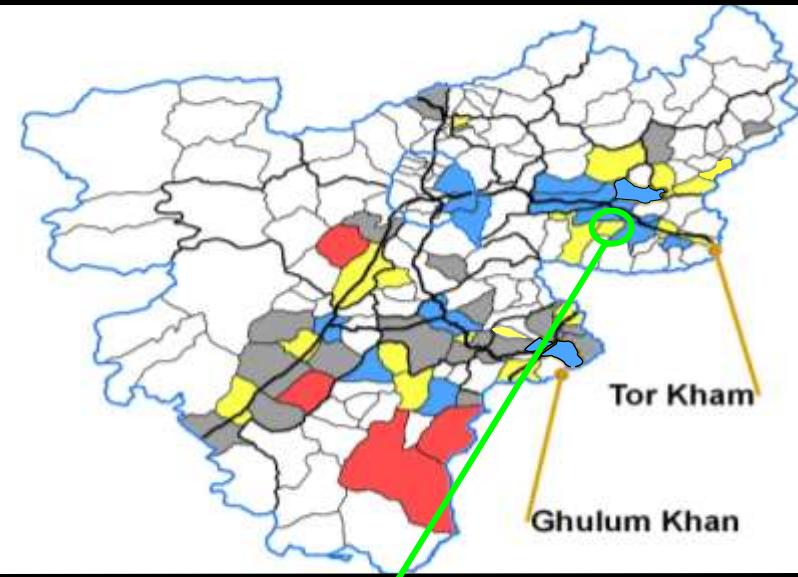

- An established and officially recognized government system exists
- People continue to seek out Governor's representatives for issues and guidance on problems and solutions
- Reliance upon the tribal system for governance and justice

**Development: "MINIMAL GROWTH"**

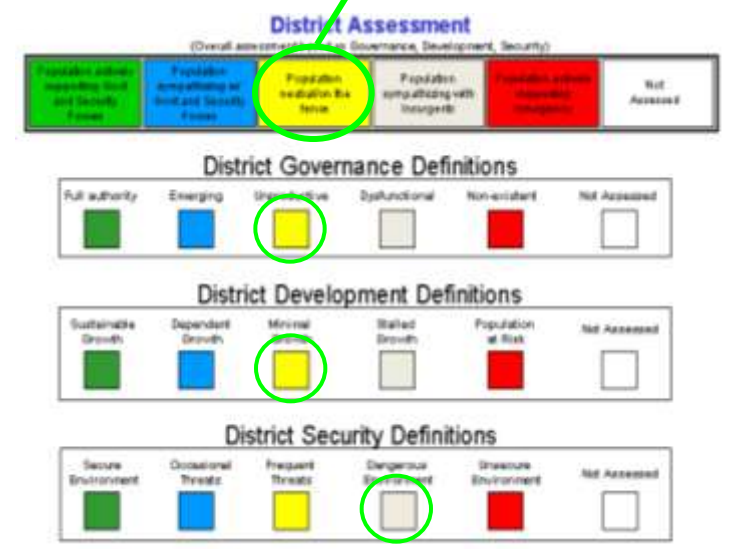

- International community involvement and decrease unemployment needed to improve economic conditions
- Employment is cyclic or seasonal based on availability of job programs
- Basic services available to majority of the populace

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting severely hindered
- The population seldom associate with the Coalition Forces

Chaparhar District is assessed as "POPULATION NEUTRAL / ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# JALALABAD (NANGARHAR Province) District Assessment

**Governance: "FULL AUTHORITY"**

- An established and officially recognized government system exists
- Provincial council, tribal council, and others have legitimate meeting halls and facilities
- An official legal system exists and is functioning

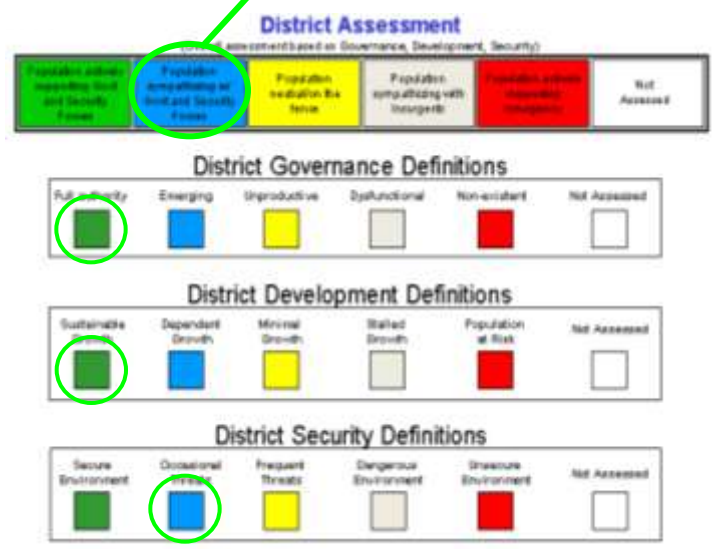

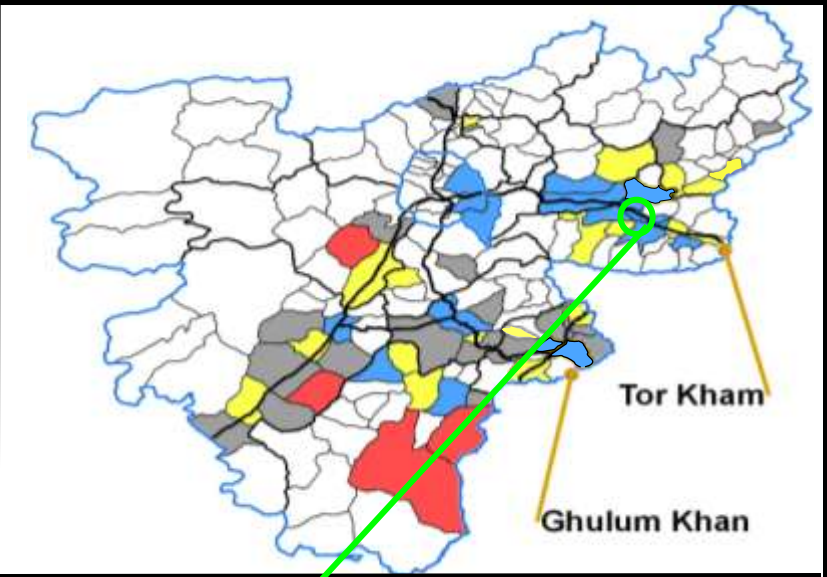

**Development: "SUSTAINABLE GROWTH"**

- Improvements in basic services needed
- Basic needs are of acceptable quality, readily available
- Many people are employed with sustainable employment
- International community activity and investment is primarily for advances in the economy

**Security: "OCCASIONAL THREATS"**

- Population conducts daily activities and may serve in GIROA or Coalition provided jobs
- Highway 7 typically utilized for illicit travel and trade

JALALABAD District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES" Environmental conditions in district with respect to Governance, Development and Security are such that most support for GIROA is passive but INS enjoy little support or tolerance.

# KHOGYANI (NANGARHAR Province) District Assessment

**Governance: “EMERGING”**

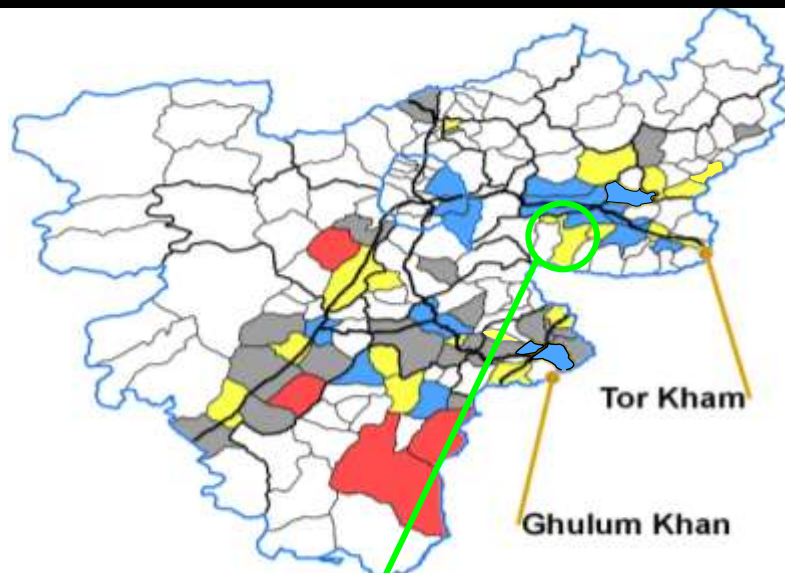

- Population accepts the government authority
- Positions are filled; District Development Assemblies, District Governor and line directors present
- The access to the provincial legal system in JALALABAD strengthens the Rule of Law

**Development: “STALLED GROWTH”**

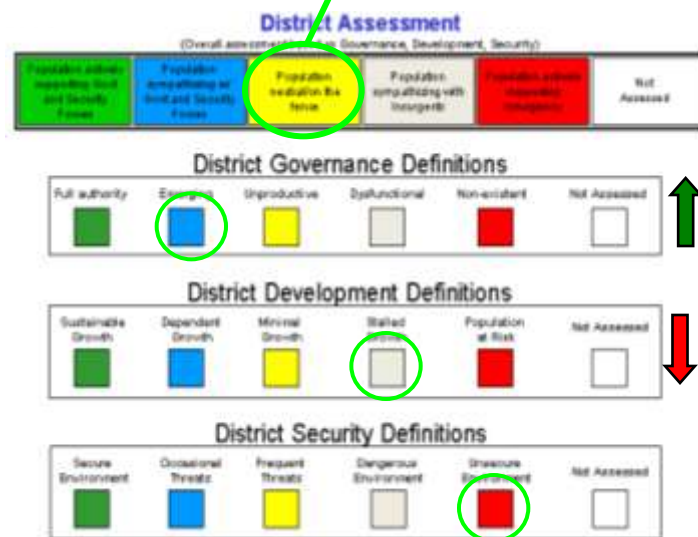

- International Community involvement needed to sustain economy and provide jobs
- Lacking basic services – health clinics and drinking water
- High employment, but population still hopeful

**Security: “UNSECURE ENVIRONMENT”**

- Reporting may be subject to enemy influence
- KHOGYANI insurgency is dormant

**KHOGYANI District is assessed as “POPULATION NEUTRAL / ON THE FENCE”** Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# KUZ KONAR (NANGARHAR Province) District Assessment

**Governance: "EMERGING"**

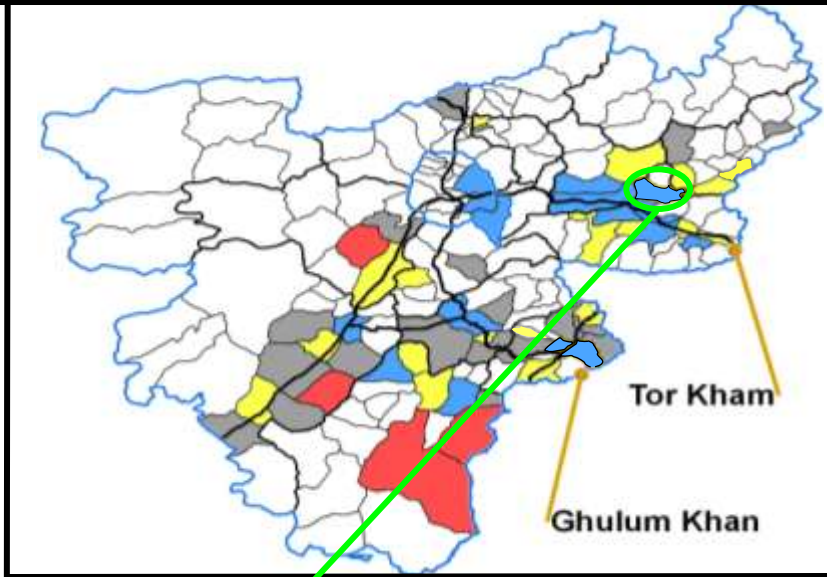

- An established and officially recognized government system exists
- Positions are filled with knowledgeable personnel
- Majority of district supports the government
- The provincial-level judicial system exists in Jalalabad City; however, tribal systems are the primary means to resolve local issues

**Development: "MINIMAL GROWTH"**

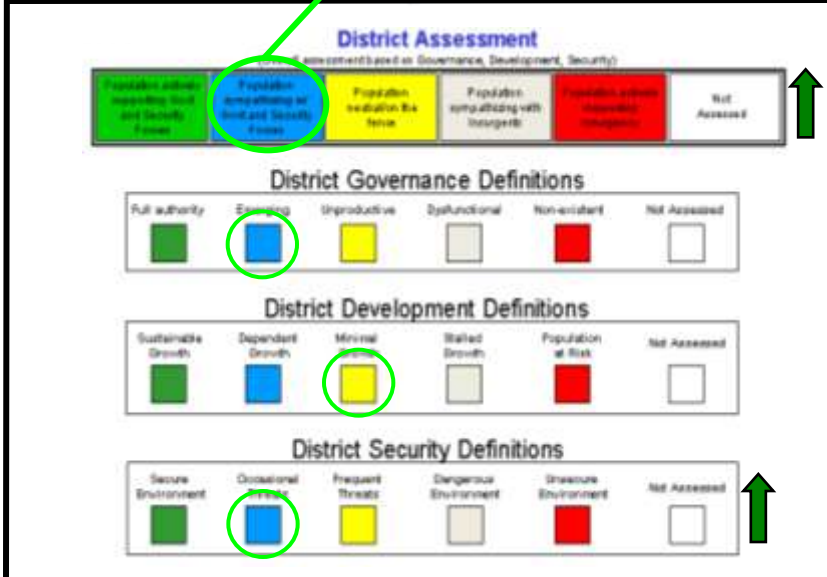

- Successful agricultural growth due to KONAR River
- Quality and accessibility to many basic services is seriously lacking
- International community activity and investment is necessary to sustain minimal growth

**Security: "OCCASIONAL THREATS"**

- Information on this district is extremely limited
- Its close proximity to traditional facilitation lends credibility to the assessment that the area is primarily used for facilitation

**KUZ KONAR District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES". Environmental conditions in district with respect to Governance, Development and Security are such that the majority of population (>50%) accepts legitimacy of GIROA or of traditional local governance structures not actively in opposition to GIROA.**

# MOHMAND DARA (NANGARHAR Province) District Assessment

**Governance: “UNPRODUCTIVE”**

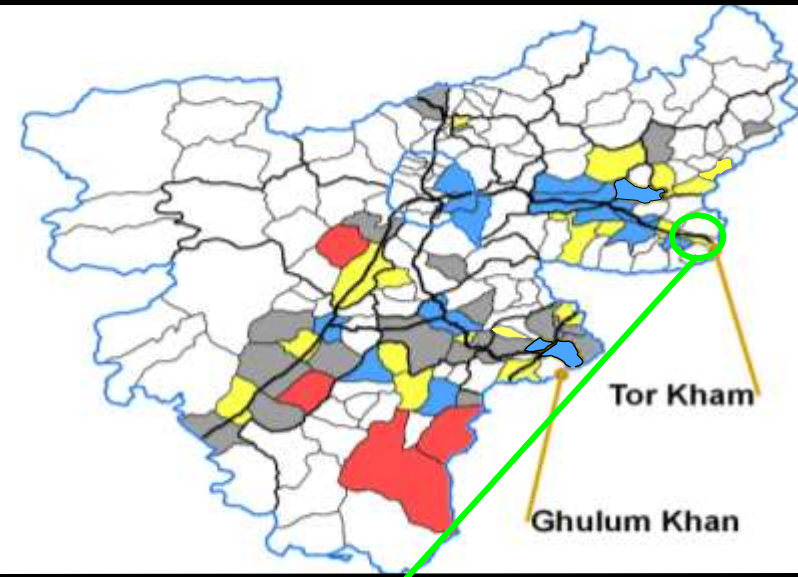

- An established and officially recognized government system exists
- Positions filled including the Ministry line representatives
- Reliance upon the tribal system for governance and justice

**Development: “MINIMAL GROWTH”**

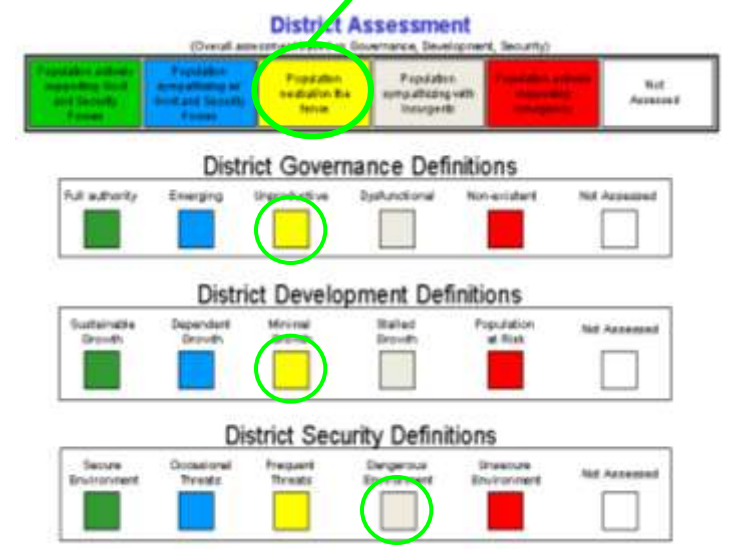

- Development limited by high unemployment
- Employment is cyclic or seasonal based on availability of job programs
- Good infrastructure for agribusiness; international community involvement needed

**Security: “DANGEROUS ENVIRONMENT”**

- Threats are mainly along the Highway 1 leading to and from the PAKISTAN border
- Torkham Gate, the border crossing that goes from PAKISTAN to KABUL, has been attacked twice this year with suicide bombers

**MOHMAND DARA District is assessed as “POPULATION NEUTRAL / ON THE FENCE”** Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# RODAT (NANGARHAR Province) District Assessment

**Governance: "EMERGING"**

- An established and officially recognized government system exists
- Limited capacity to connect services to the people results in water in abundant supply and a health clinic that is inadequate
- The tribal system is the primary judicial means at the local level

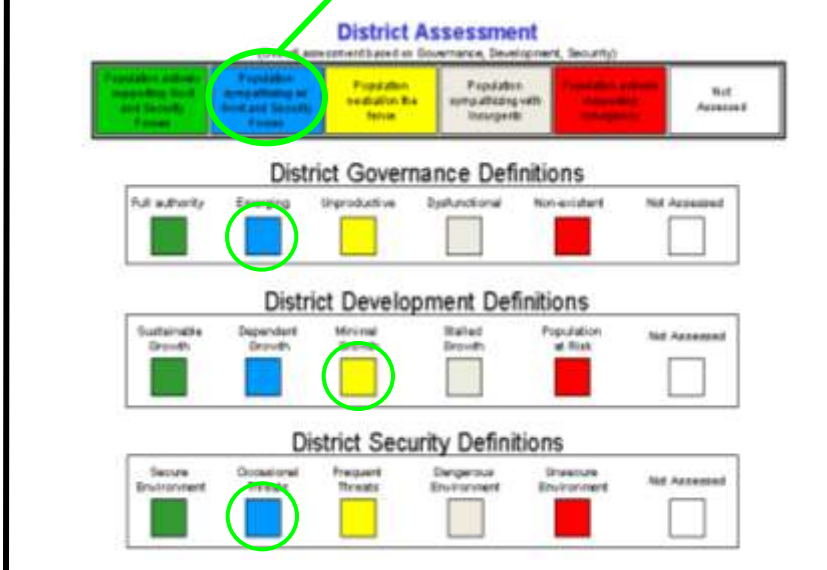

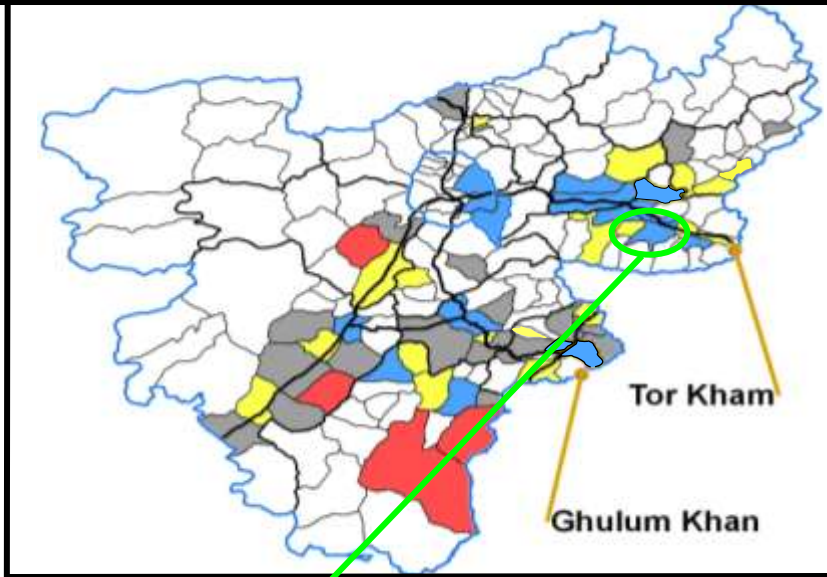

**Development: "MINIMAL GROWTH"**

- High unemployment; small farms offer limited employment
- Lacking adequate basic services - health care, public sanitation, potable water and schools
- International community activity and investment needed to increase growth

**Security: "OCCASIONAL THREATS"**

- Population conducts daily activities and may serve in GIROA or Coalition provided jobs
- Area used for illicit facilitation

RODAT District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES" Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

# SHINWAR (NANGARHAR Province) District Assessment

**Governance: “EMERGING”**

- An established and officially recognized government system exists
- Population is generally supportive of the government
- The tribal system is the primary judicial means at the local level

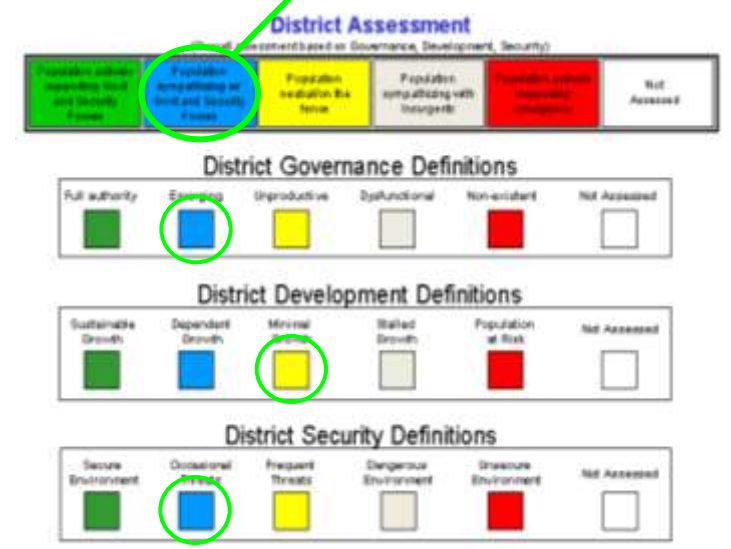

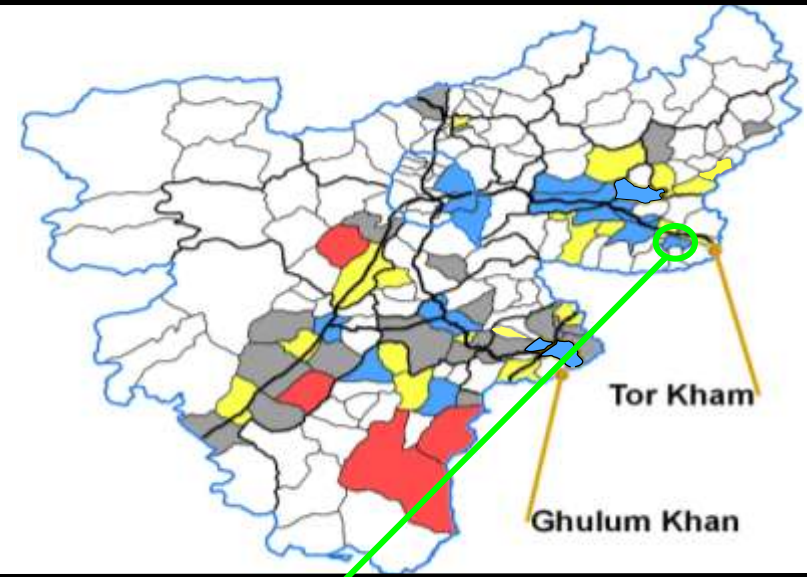

**Development: “MINIMAL GROWTH”**

- High unemployment; small farms offer limited employment
- Lacking adequate basic services - health care, public sanitation, potable water and schools
- International community activity and investment needed to increase growth

**Security: “OCCASIONAL THREATS”**

- Moderate amount of reporting on enemy
- Insurgent activity in the area is mainly dedicated to narcotics trade
- Rising food costs, lack of employment and infrastructure leaves the populace vulnerable to the insurgency as well as the narcotics revenue

**SHINWAR District is assessed as “POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES”** Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

# SURKH ROD (NANGARHAR Province) District Assessment

**Governance: "EMERGING"**

- An established and officially recognized government system exists
- Population is generally supportive of the government, accepting a degree of corruption and participating in key political processes
- An official legal system may exist, but the tribal system is the primary judicial means at the local level

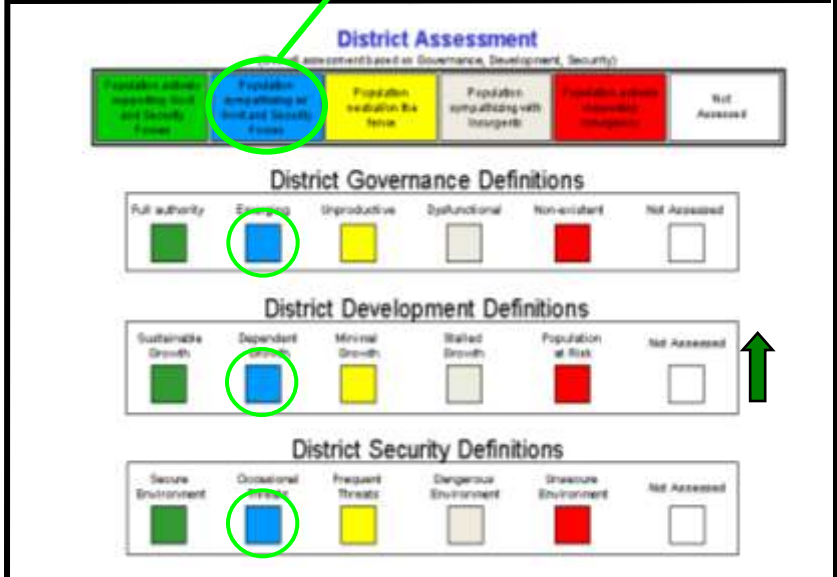

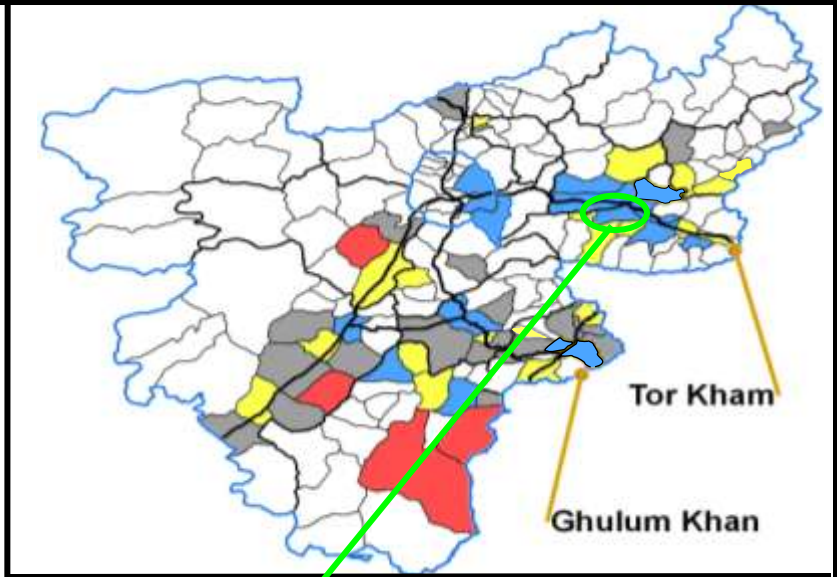

**Development: "DEPENDENT GROWTH"**

- Economic growth exists but dependent on International Community investment
- Basic services lacking; employment cyclical/seasonal based on job programs

**Security: "OCCASIONAL THREATS"**

- Moderate amount of reporting on enemy
- There are limited threats, mostly consisting of occasional Improvised Explosive Device emplacements

SURKH ROD District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES" Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

# MOTA KHAN (PAKTIKA Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- Government hindered from providing essential services and protecting the population
- Reliance upon the tribal system for governance and justice

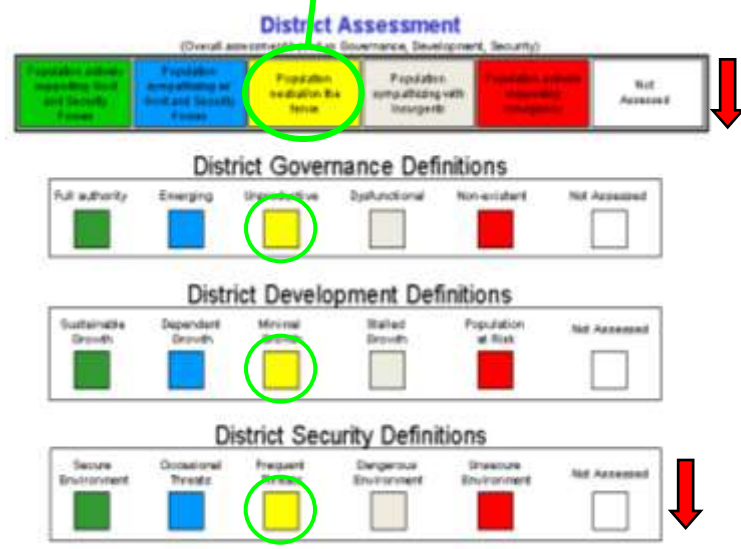

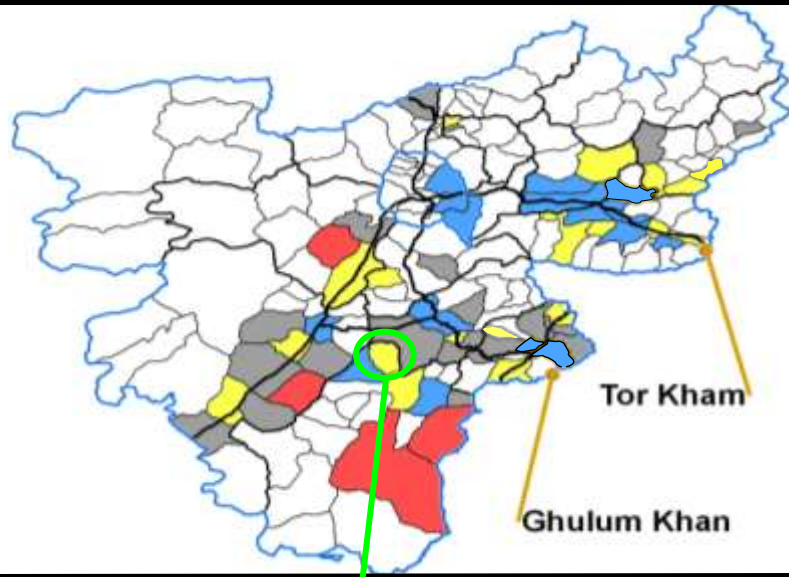

**Development: "MINIMAL GROWTH"**

- Growth dependent on international community
- Basic services available to most of population
- Employment cyclical/seasonal; international community investment minimal

**Security: "FREQUENT THREATS"**

- Frequent attacks intimidate the population
- The majority of kinetic activity consists of ambushes targeting main routes
- Although the population may serve in GIRoA or Coalition offered jobs, they limit their movement to essential activities

MOTA KHAN District is assessed as "POPULATION NEUTRAL / ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIRoA or insurgents is evident.

# GAYAN (PAKTIKA Province) District Assessment

**Governance: “DYSFUNCTIONAL”**

- An officially recognized government system exists
- Government cannot provide essential services and protect the population
- Tribal system dominant

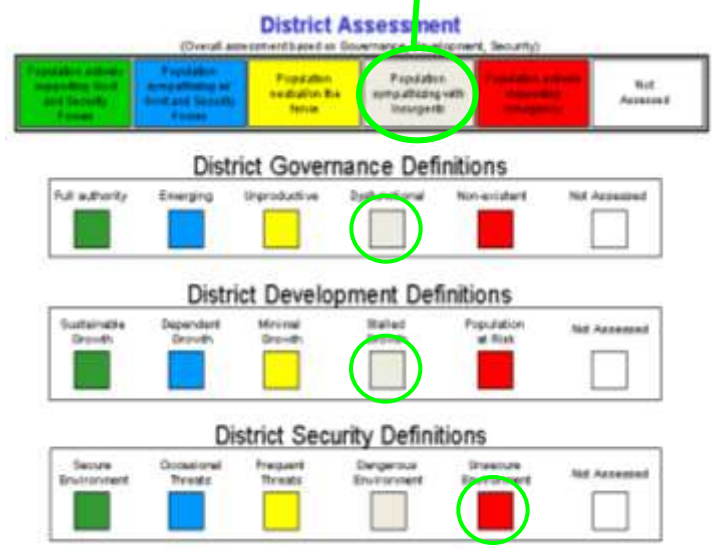

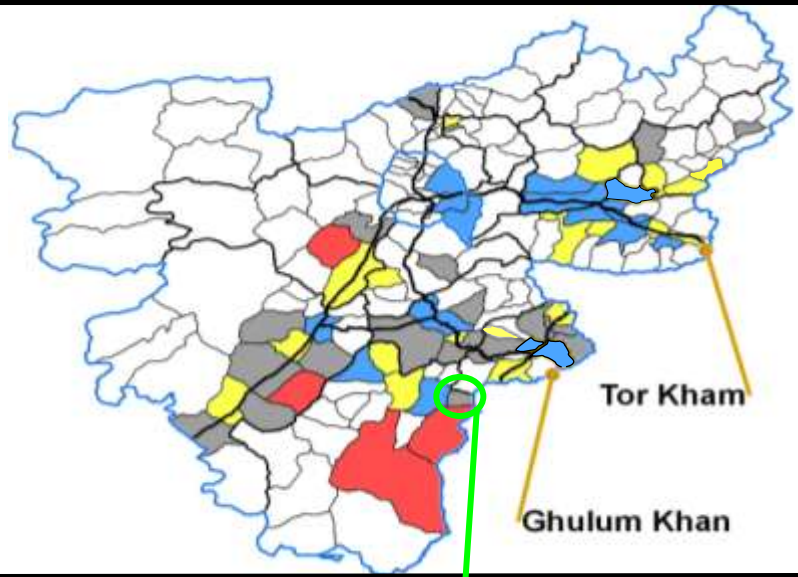

**Development: “STALLED GROWTH”**

- Quality and access to basic services lacking; high employment
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International Community investment minimal

**Security: “UNSECURE ENVIRONMENT”**

- Reporting subject to enemy influence
- Population is unable or unwilling to serve in GIROA or Coalition jobs
- GAYAN District lies directly in a major facilitation lane PAKISTAN

GAYAN District is assessed as “POPULATION SYMPATHIZING WITH INSURGENTS” Environmental conditions in district with respect to Governance, Development and Security are such that most support for insurgency remains passive.

# ORGUN (PAKTIKA Province) District Assessment

**Governance: "UNPRODUCTIVE"**

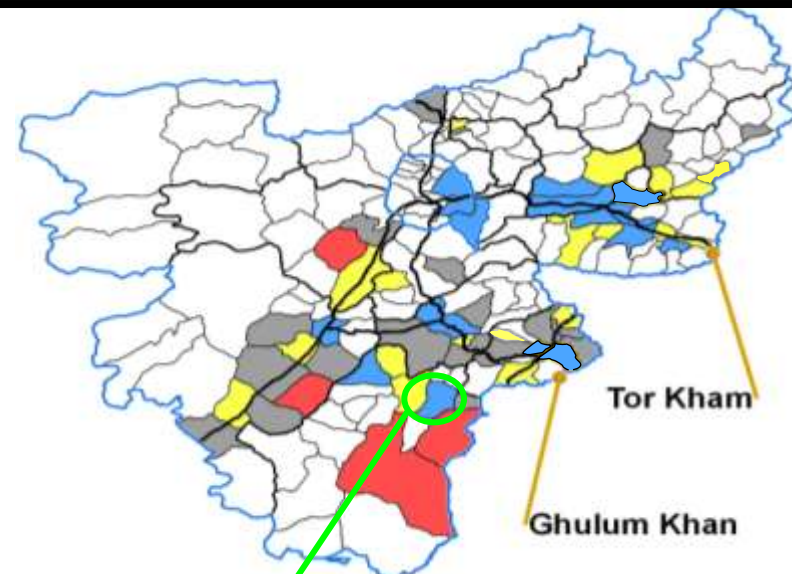

- An established and officially recognized government system exists
- Population generally neutral towards government
- Reliance upon the tribal system for governance and justice

**Development: "MINIMAL GROWTH"**

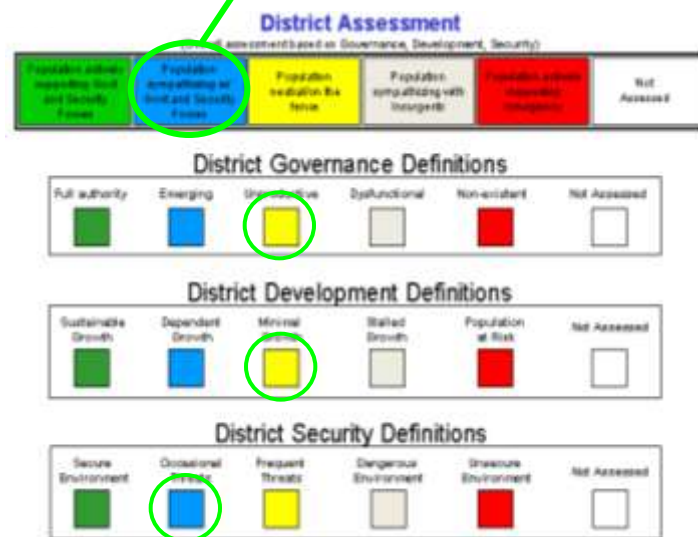

- Growth dependent on international community
- Basic services available to most of population
- Employment cyclical/seasonal; international community investment minimal

**Security: "OCCASIONAL THREATS"**

- Moderate amount of reporting on enemy
- ORGUN is a transit point utilized by INS

**ORGUN District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES"** Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

# SAR ROWZAH (PAKTIKA Province) District Assessment

**Governance: "UNPRODUCTIVE"**

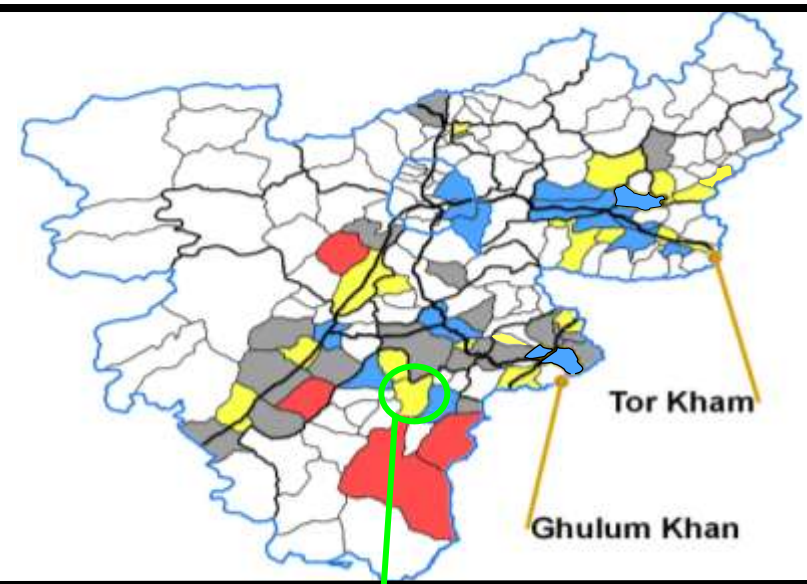

- An established and officially recognized government system exists
- Reliance upon the tribal system for governance and justice

**Development: "MINIMAL GROWTH"**

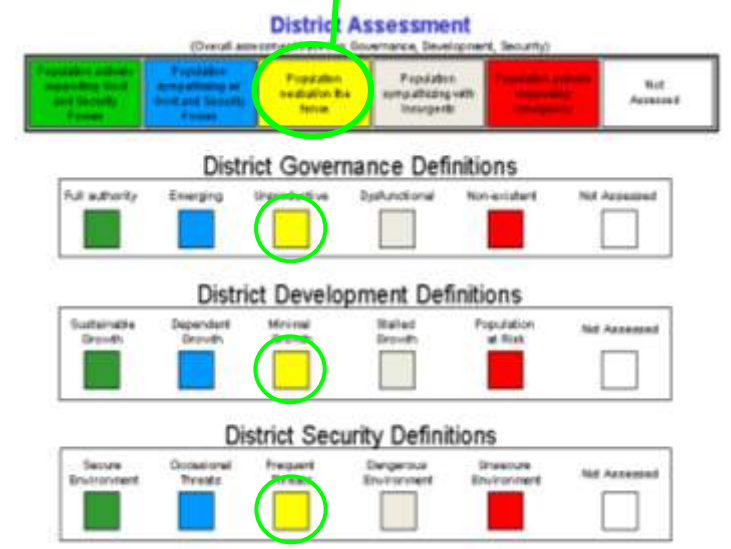

- Growth dependent on international community
- Basic services available to most of population
- Employment cyclical/seasonal; international community investment minimal

**Security: "FREQUENT THREATS"**

- Reporting limited on insurgents activities
- Although the population may serve in GIROA or Coalition offered jobs, they limit their movement to essential activities

SAR ROWZAH District is assessed as "POPULATION NEUTRAL / ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or insurgents is evident.

# SHARAN (PAKTIKA Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- An established and officially recognized government system exists
- Population generally neutral towards government
- Reliance upon the tribal system for governance and justice

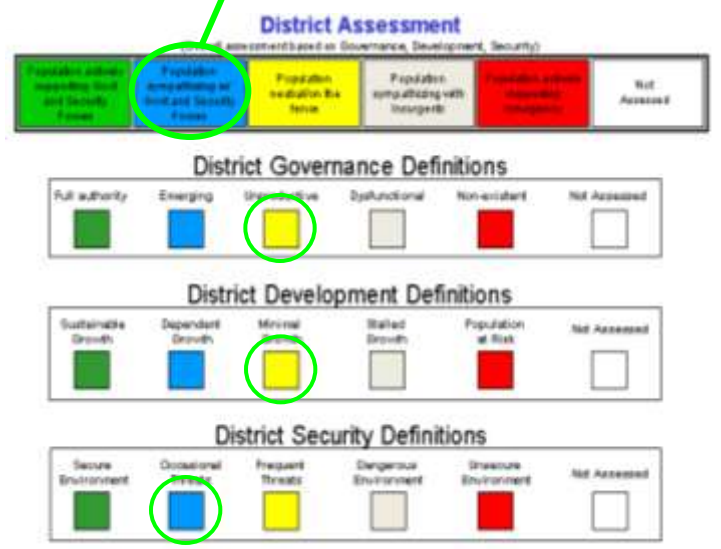

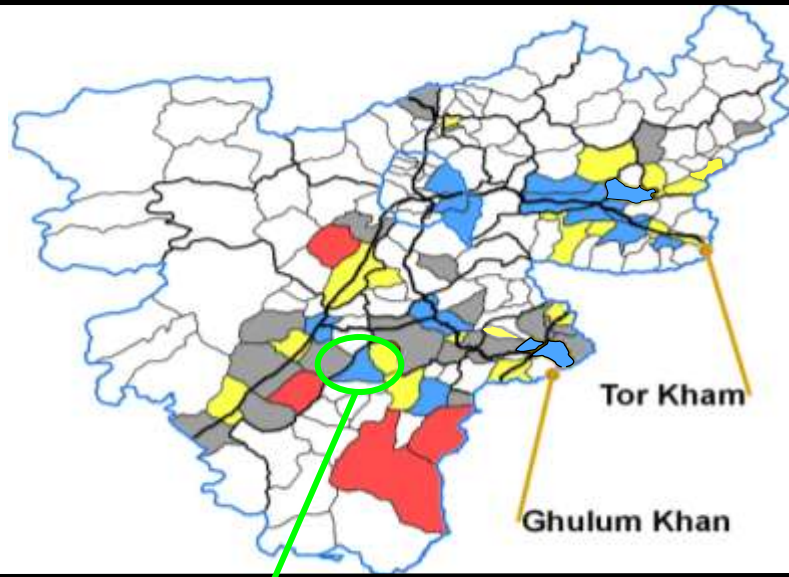

**Development: "MINIMAL GROWTH"**

- Growth dependent on international community
- Basic services available to most of population
- Employment cyclical/seasonal; international community investment minimal

**Security: "OCCASIONAL THREATS"**

- Moderate amount of reporting on enemy
- The district is mainly a transit route
- Due to the decent amount of ISAF presence, insurgent activity is limited to intimidation tactics and standoff attacks

SHARAN District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES" Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

# ZADRAN (PAKTIYA Province) District Assessment

**Governance: "DYSFUNCTIONAL"**

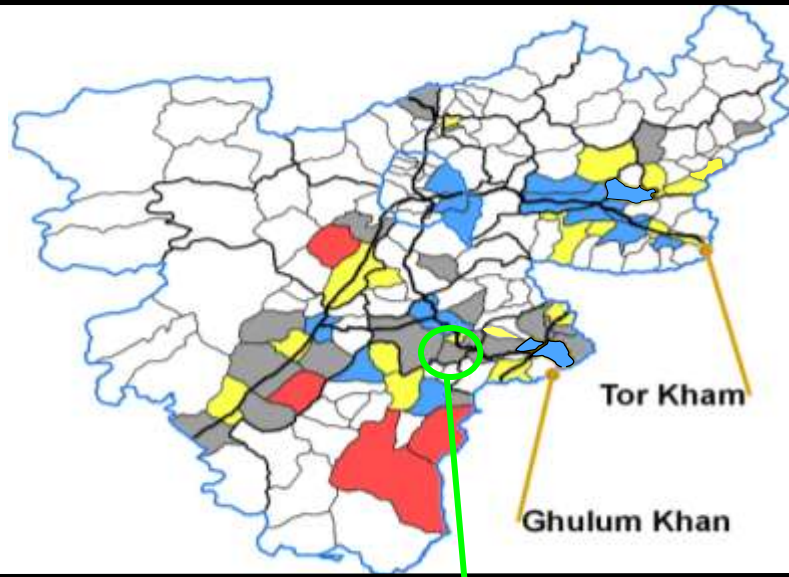

- An established and officially recognized government system exists
- Government hindered from providing essential services and protecting the population
- Reliance upon the tribal system for governance and justice

**Development: "STALLED GROWTH"**

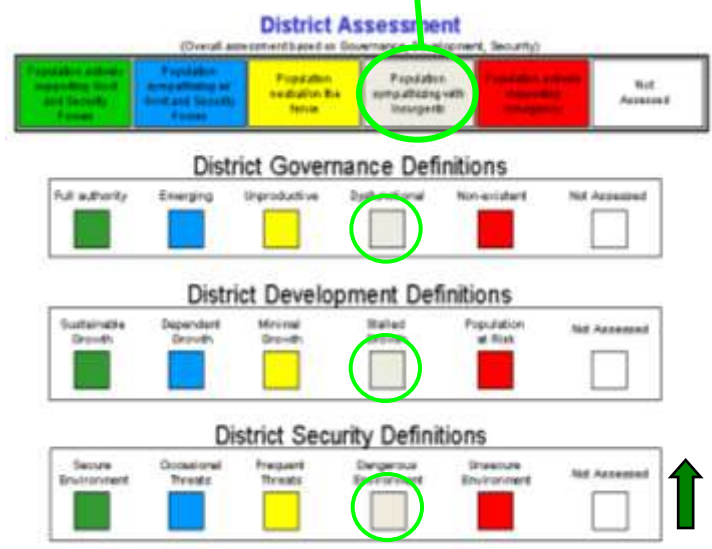

- Quality and access to basic services lacking; high employment
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International Community investment minimal

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting hindered
- A key historic support area for INS
- Insurgency benefits from the support of locals

ZADRAN District is assessed as "POPULATION SYMPATHIZING WITH INSURGENTS" Environmental conditions in district with respect to Governance, Development and Security are such that most support for insurgency remains passive.

# GARDEZ (PAKTIYA Province) District Assessment

**Governance: "EMERGING"**

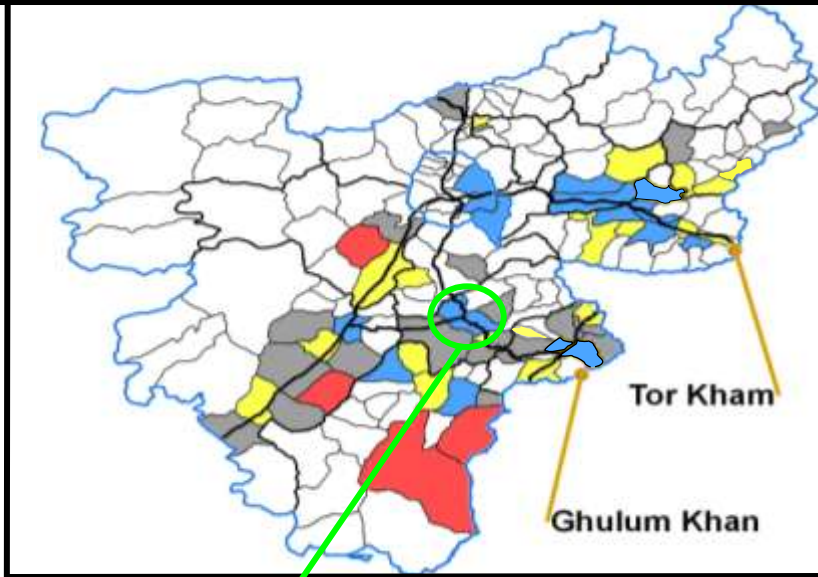

- An established and officially recognized government system exists
- The official positions are filled
- Tribal system is the primary judicial means at the local level

**Development: "DEPENDANT GROWTH"**

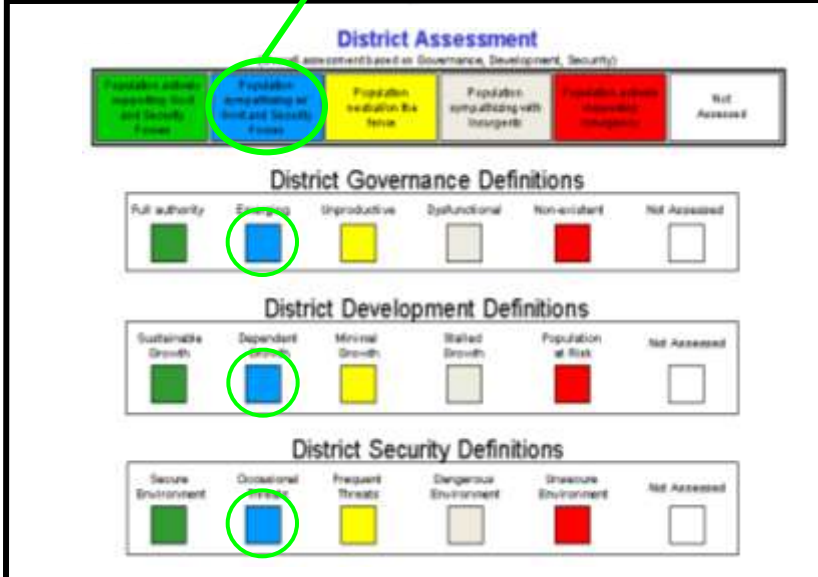

- Minimal economic growth; basic services available to most of population
- Employment cyclical/seasonal
- International community investment necessary to sustain growth

**Security: "OCCASIONAL THREATS"**

- Population conducts daily activities and may serve in GIROA or Coalition provided jobs
- GARDEZ City is a major population center in Afghanistan, thus garnering attention from the insurgency

**GARDEZ District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES"** Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic and Political security.

# SHWAK (PAKTIYA Province) District Assessment

**Governance: "DYSFUNCTIONAL"**

- An officially recognized government system exists
- Government unable to ensure basic services without international community help
- Tribal system dominant

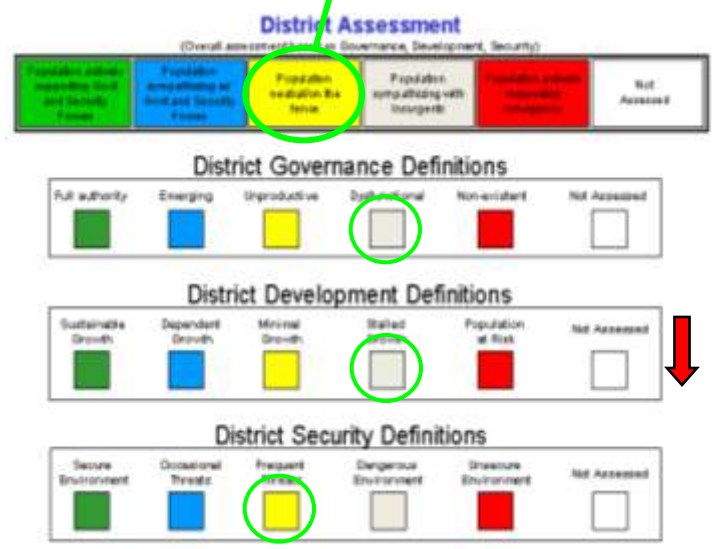

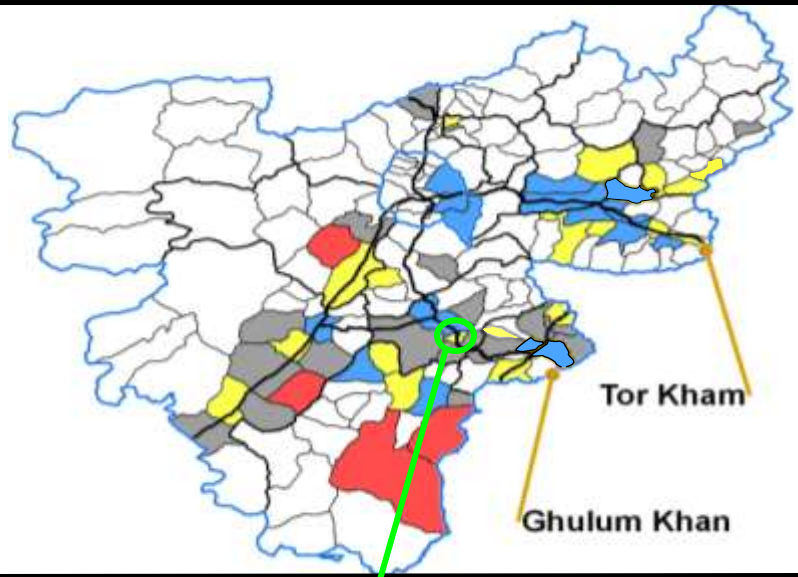

**Development: "STALLED GROWTH"**

- Minimal economic growth; quality and access to basic services lacking
- Extremely high employment
- International community investment necessary to sustain growth

**Security: "FREQUENT THREATS"**

- Although the population may serve in GIRoA or Coalition offered jobs, they limit their movement to essential activities
- This district is another area for tribal support to the INS

SHWAK District is assessed as "POPULATION NEUTRAL / ON THE FENCE" Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIRoA or insurgents is evident.

# ZORMAT (PAKTIYA Province) District Assessment

**Governance: "NON-EXISTENT"**

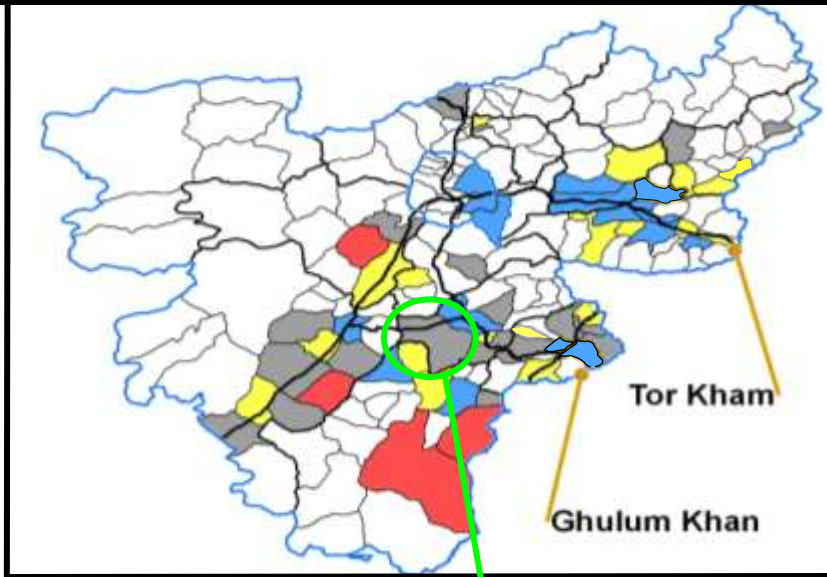

- Little GIROA
- Mullahs and religious figures heavily influence the District's resistance to GIROA
- The population is dependent tribal system for all governance and justice issues

**Development: "STALLED GROWTH"**

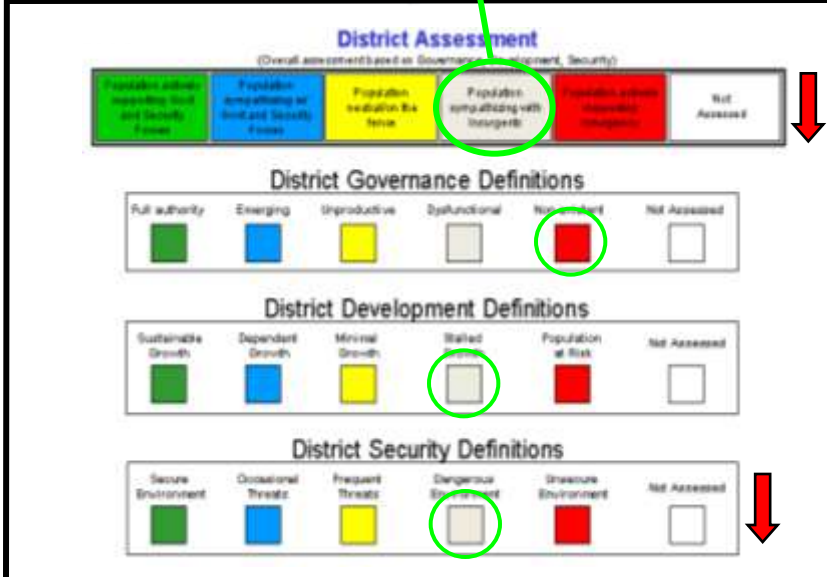

- Growth stalled; quality and access to basic services lacking
- Extremely high employment
- International community investment minimal

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting hindered
- ZORMAT is used as a staging area for insurgents

ZORMAT District is assessed as "POPULATION SYMPATHIZING WITH INSURGENTS" Environmental conditions in district with respect to Governance, Development and Security are such that most support for insurgency remains passive.

# SAYYAD ABAD (WARDAK Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- Established and officially recognized government system exists
- Increased capacity for getting administrative needs met
- Population generally neutral towards government

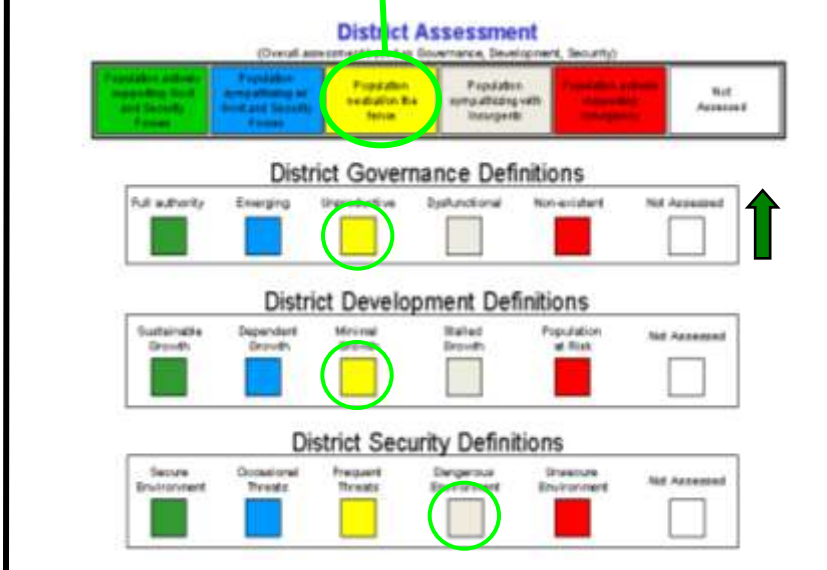

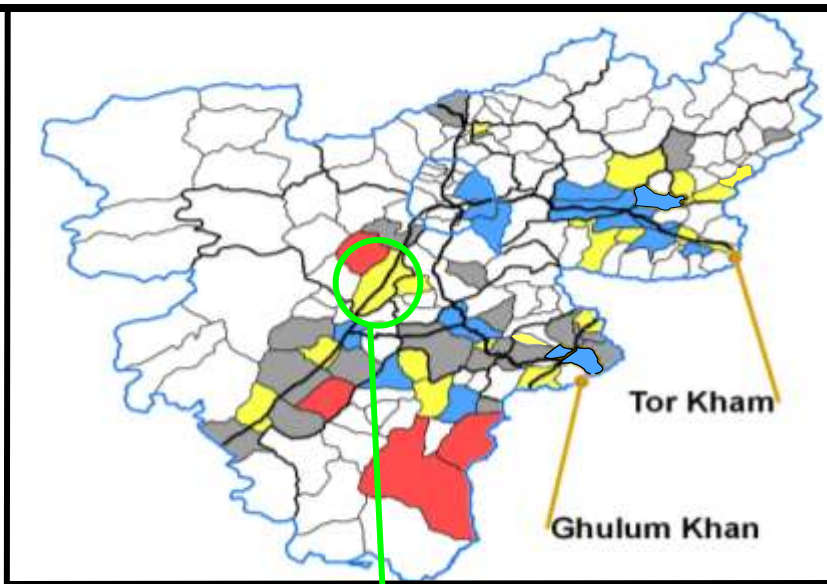

**Development: "MINIMAL GROWTH"**

- Positive signs that economic growth is possible; potential for expanding apple production
- Adequate basic services available to majority of populace; moderate employment levels but at low wages
- Cash-For-Work programs improving employment opportunities

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting hindered
- Highway 1 is a main target for insurgent attacks
- The enemy network has been greatly affected during the past year

SAYYAD ABAD District is assessed as "POPULATION NEUTRAL / ON THE FENCE" Environmental Conditions in district with respect to Governance, Development and Security are such that the population is divided with respect to legitimacy of GIROA. < 50% accept legitimacy of GIROA, or majority is neutral or uncommitted.

# SARKANI (Konar Province) District Assessment

**Governance: "UNPRODUCTIVE"**

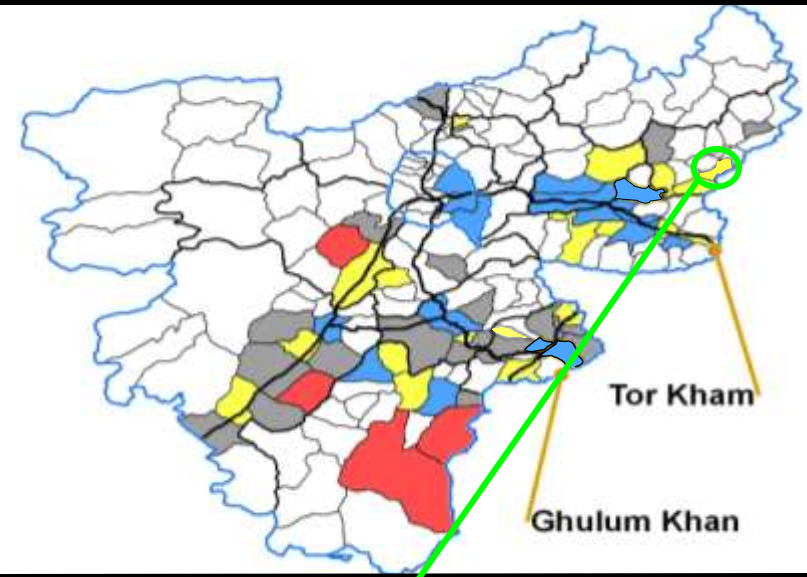

- An established and officially recognized government system exists
- the link between District and Provincial level strengthening leaders
- Reliance upon the tribal system for governance and justice

**Development: "STALLED GROWTH"**

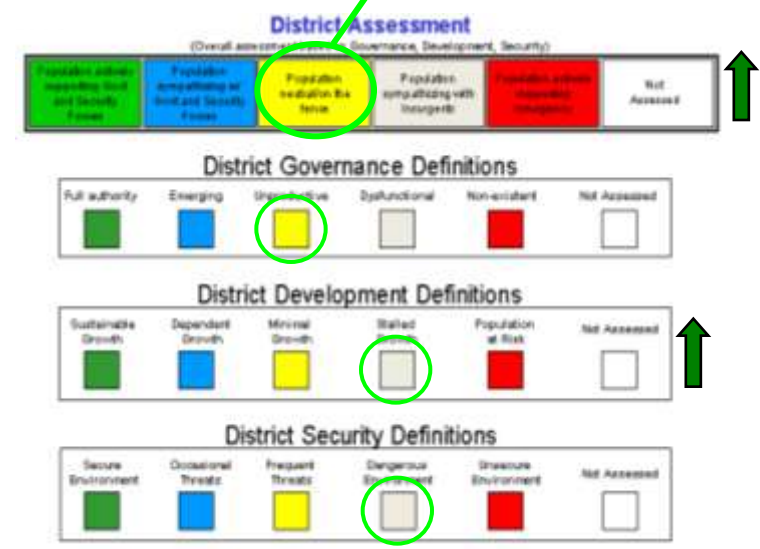

- Economic growth stalled; basic services lacking
- High employment, but population still hopeful
- International Community jobs and investment are minimal, more needed to spur economy

**Security: "DANGEROUS ENVIRONMENT"**

- Reporting hindered
- The district harbors multiple infiltration lanes, which are used by insurgents year round to move men, weapons and equipment

SERKANI District is assessed as "POPULATION NEUTRAL/ ON THE FENCE". Environmental Conditions in district with respect to Governance, Development and Security are such that the population is divided with respect to legitimacy of GIROA.

# BARAKI BARAK (LOGAR Province) District Assessment

**Governance: "UNPRODUCTIVE"**

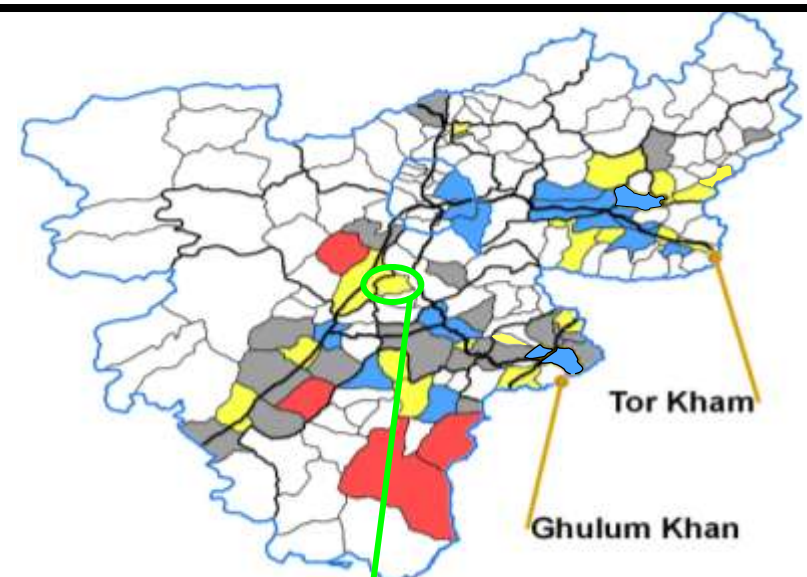

- An established and officially recognized government system exists
- Some international community aid needed and efforts are underway to increase capacity
- Population generally accepts government authority

**Development: "STALLED GROWTH"**

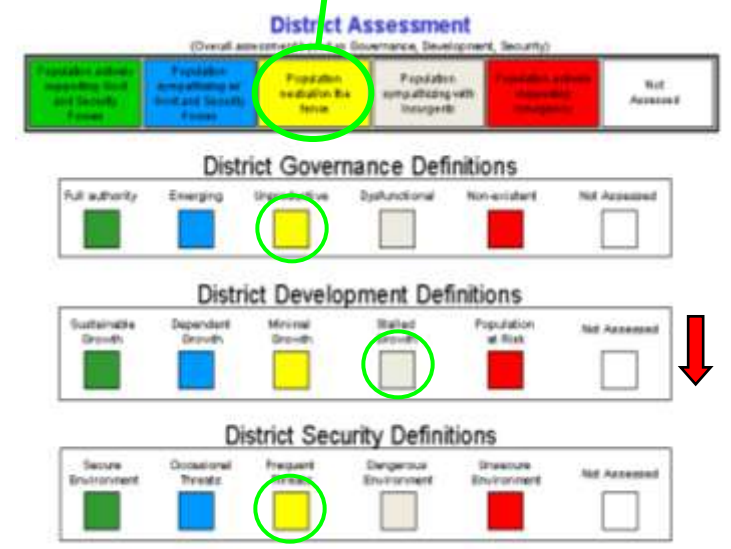

- Both quality and accessibility to many basic services are seriously lacking
- Moderate employment levels but at low wages; Cash-For-Work programs improving employment opportunities

**Security: "FREQUENT THREATS"**

- Frequent attack threats occur to maintain influence over the populace
- The district is used as a transit point for fighters and supplies
- Although the population may serve in GIROA or Coalition offered jobs, they limit their movement to essential activities

**BARAKI BARAK District is assessed as "POPULATION NEUTRAL/ ON THE FENCE". Environmental conditions in district with respect to Governance, Development and Security are such that less than half of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.**

# RC West

# AB-E KAMARI (BADGHIS Province) District Assessment

**Governance: "EMERGING"**

- The Governor and inhabitants (80% Tajik) are pro-GIRoA
- Training and capacity building for Civil servants is improving
- Official legal system may exist
- Rule of Law sector in poor condition
- High percentage of illiteracy and some efforts in gender training

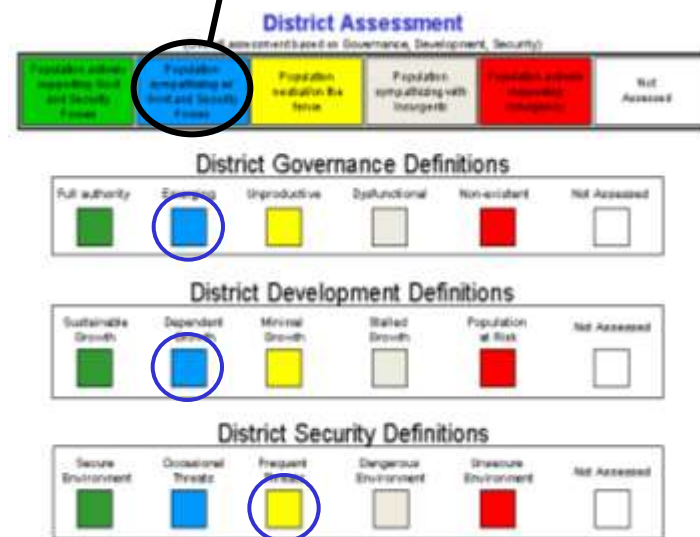

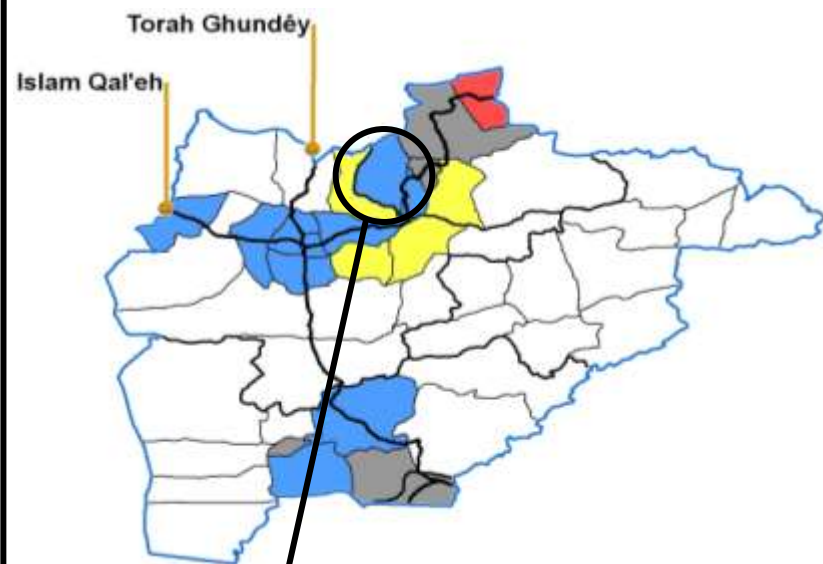

**Development: "DEPENDENT GROWTH"**

- Economic growth exist, but continued growth dependent on International Community investment

- The population accepts government authority
- Local population works with Sub Governmental structure
- Poppy cultivation dismantled
- Relationship with Provincial Counterpart are fruitful

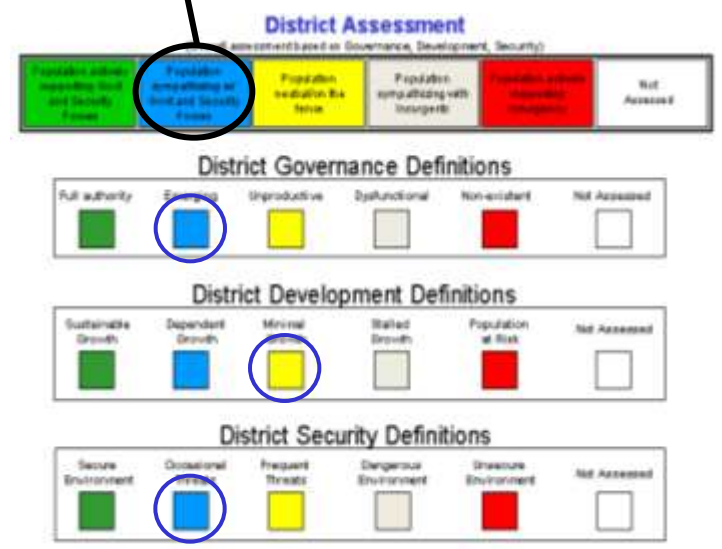

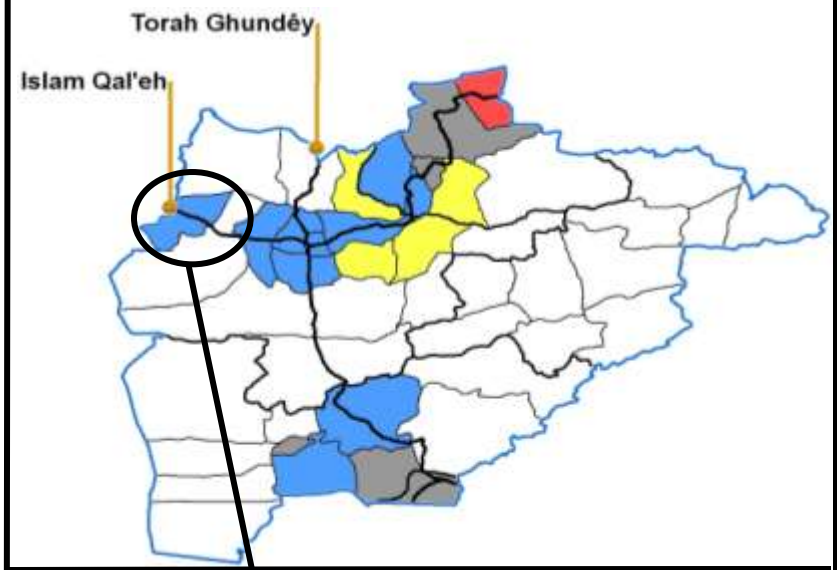

**Development: "MINIMAL GROWTH"**

- International Community investment necessary to sustain minimal growth
- Lack of school material and teachers, but literacy rate is high
- No suitable pipe scheme or sanitation network
- Basic services sufficient
- The main Hospital is in the center of the District and 85 km from the remote areas

**Security: "OCCASIONAL THREATS"**

- Population conducts daily activities and may serve in GIROA provided jobs

**KOHSAN District is assessed as "POPULATION SYMPATHIZING w/ GOVERNMENT AND SECURITY FORCES". Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.**

# GUZARAH (HERAT Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- Rule of Law: the structure permits judges and prosecutors to investigate on criminal issues in the proper way
- A prison assures detention of criminals

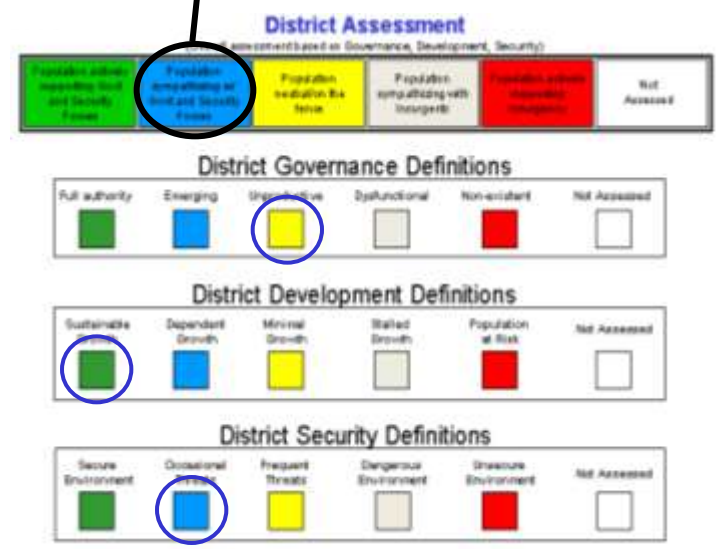

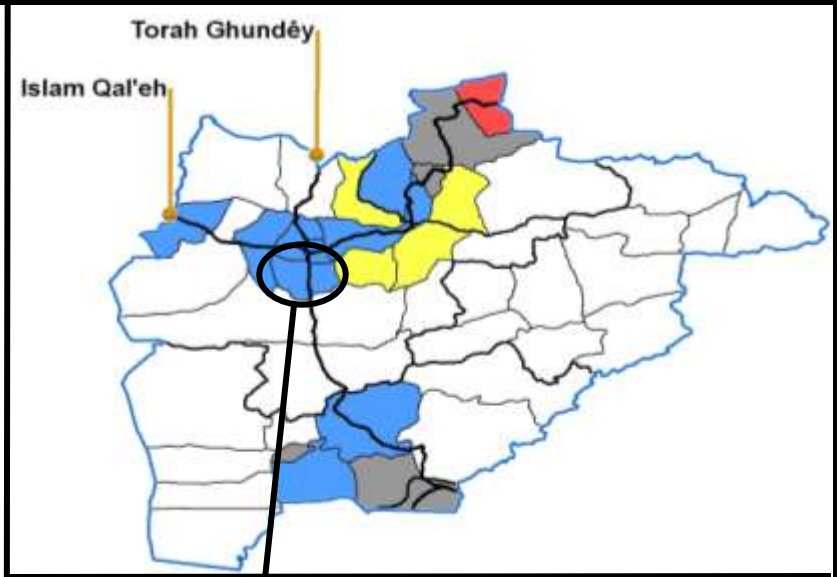

**Development: "SUSTAINABLE GROWTH"**

- Joint development plan successful providing basic and community services
- Freedom of movement along Highway 1 allows access to markets
- Main population problems: basic services
- Key Infrastructures: HERAT Airport Road and ESMEALD Road
- International Community investment for advances in economy rather than basic needs

**Security: "OCCASIONAL THREATS"**

- Some attacks occur causing intimidation limited to small segment of the population
- Local population sympathizing with ANSF/ISAF

**GUZARAH District is assessed as "POPULATION SYMPATHIZING w/ GOVERNMENT AND SECURITY FORCES". Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied.**

# OBEH (HERAT Province) District Assessment

**Governance: “UNPRODUCTIVE”**

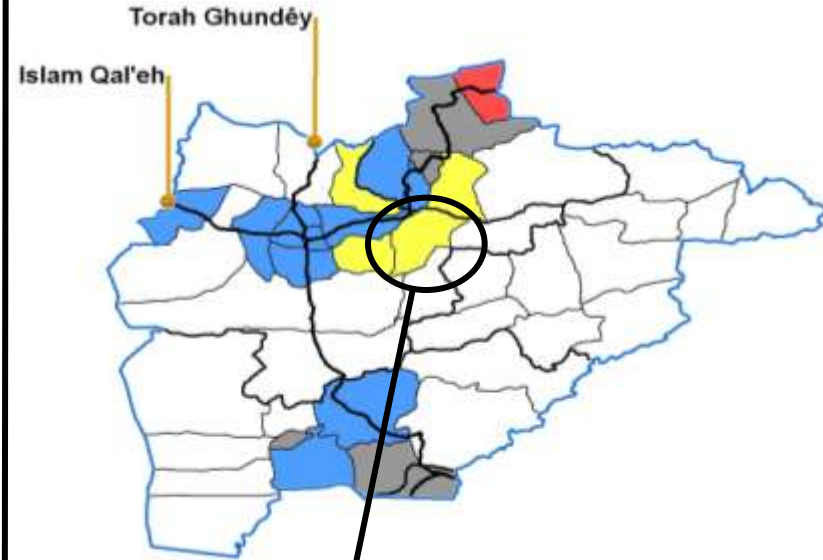

- Most of the population perceive Government as legitimate and participate in the political process
- Rule of Law: prosecutors’ Justice System is working well

**Development: “MINIMAL GROWTH”**

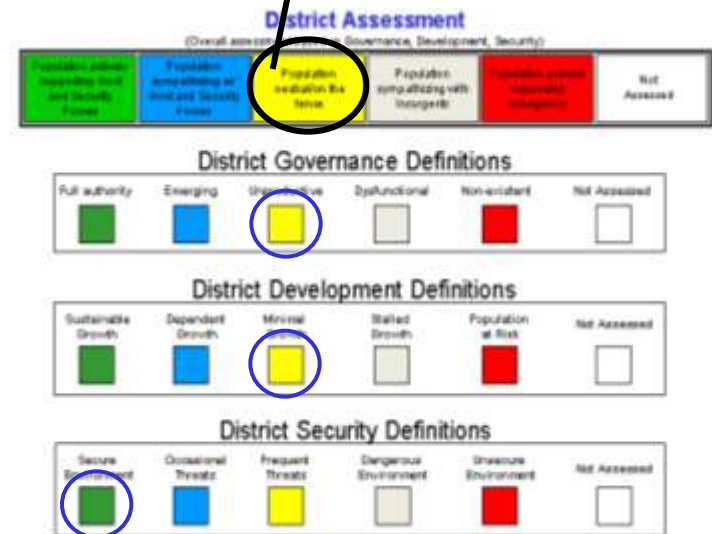

- International Community activity and investment needed to increase growth.
- Agriculture is the main activity for population
- Sewage system is not available in the district
- Basic services are in a sufficient state
- One school building completed in CHANARAN

**Security: “SECURE ENVIROMENT”**

- Enemy presence is not evident in reporting
- Kinetic activities are rare

OBEH District is assessed as “POPULATION NEUTRAL / ON THE FENCE” . Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or INS is evident.

# PASHTUN ZARGHUN (HERAT Province) District Assessment

**Governance: "UNPRODUCTIVE"**

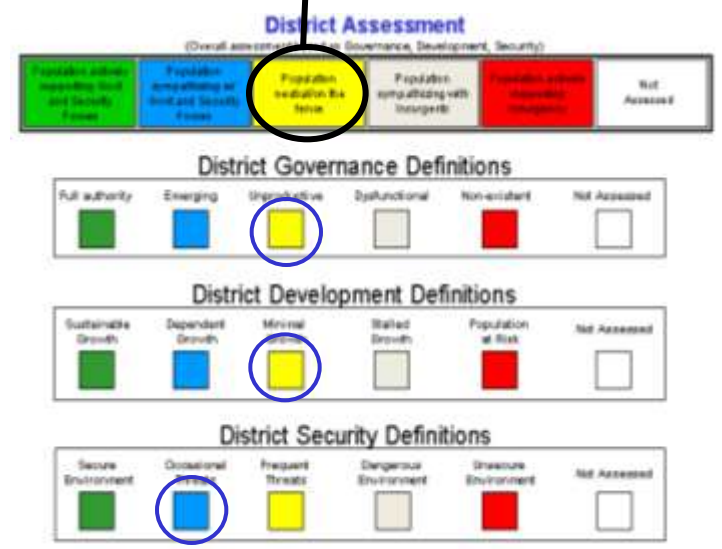

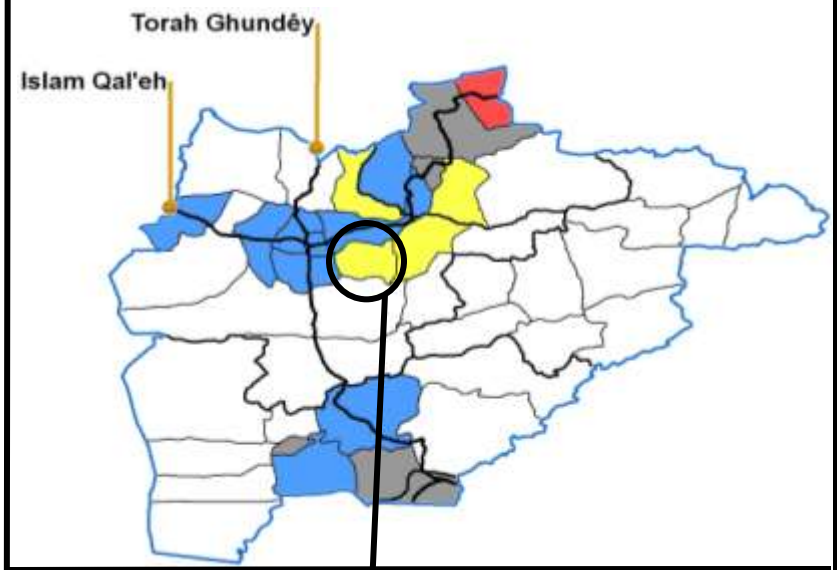

- Government hindered providing essential services and protecting the population
- Rule of Law: the District's justice system is currently lacking of human capacity and material resources

**Development: "MINIMAL GROWTH"**

- Basic services still in a poor condition
- Majority of efforts focused on basic services within this region
- Coordinated medium/long term projects with provincial council, UNAMA, PRT, International Community to provide community services
- International Community activity and investment necessary

**Security: "OCCASIONAL THREATS"**

- INS activity is assessed as low
- ISAF/ANSF operations improved situation
- Poverty could encourage criminal activity

**PASHTUN ZARGHUN District is assessed as "POPULATION NEUTRAL / ON THE FENCE."**  
Environmental conditions in district with respect to Governance, Development and Security are such that little active support for either GIROA or INS is evident.

# ZINDAH JAN (HERAT Province) District Assessment

**Governance: "EMERGING"**

- The population accepts the government authority
- District well ruled
- District poppy free
- Shuras maintain links directly with local population
- Court is working although no permanent justice facilities

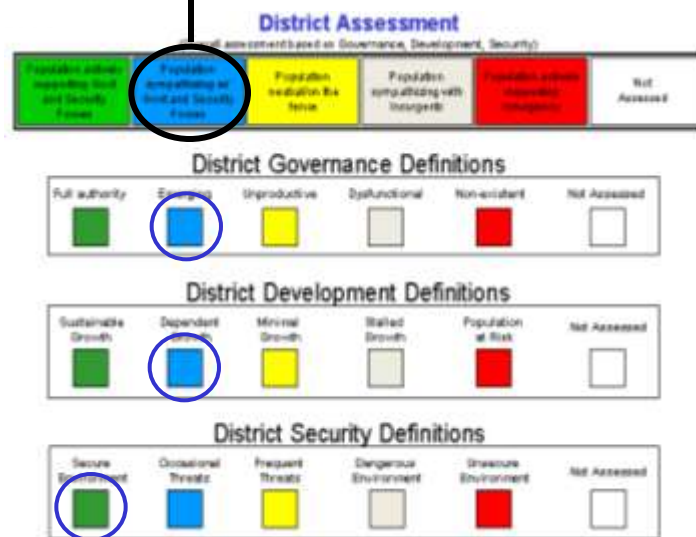

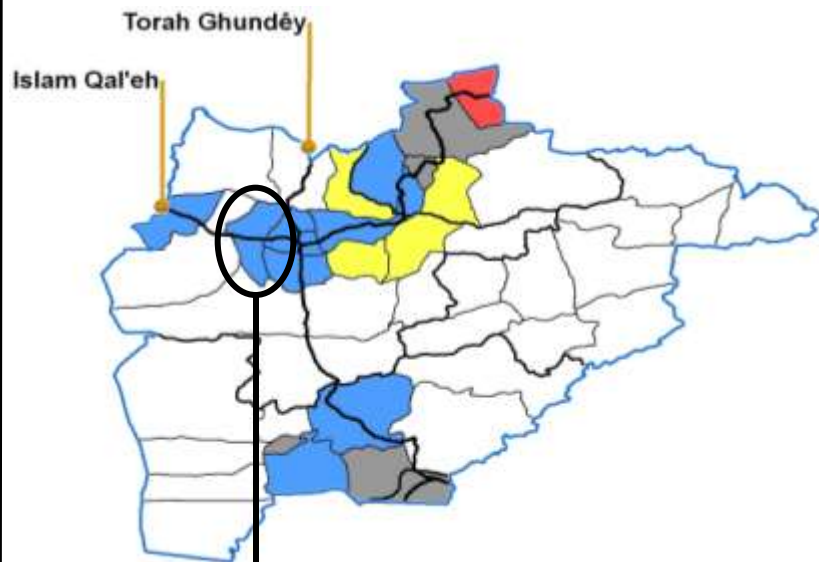

**Development: "DEPENDENT GROWTH"**

- Basic needs available but quality of service often does not meet acceptable standards
- Basic services in good condition
- CIMIC projects focused on the construction of health infrastructures, schools, wells and roads

**Security: "SECURE ENVIRONMENT"**

- Attack levels low to non-existent
- Limited reporting on insurgent activities

ZINDAH JAN District is assessed as "POPULATION SYMPATHIZING w/ GOVERNMENT AND SECURITY FORCES". Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.

# QADIS (BADGHIS Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- Government hindered from providing essential services
- No Government programmes/projects

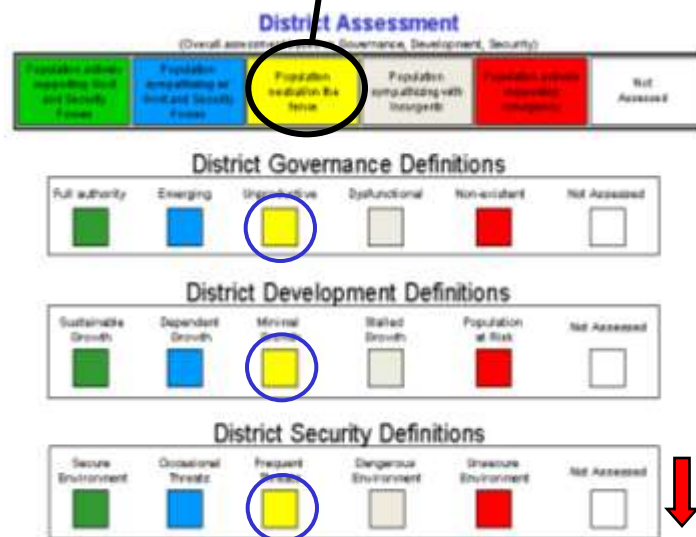

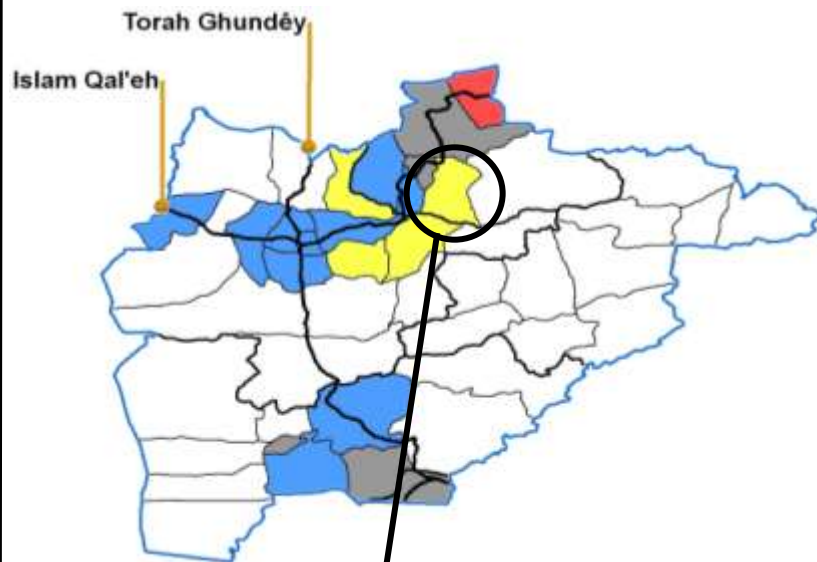

**Development: "MINIMAL GROWTH"**

- International Community activity and investment is necessary to sustain minimal growth
- Main economic activity is agriculture
- Lack of funding and projects
- There are no reports of Non Governmental Organizations working in the District

**Security: "FREQUENT THREATS"**

- Frequent attacks intimidating a significant segment of the population
- Insurgents activities are more linked to economic matters than political or military actions
- Strong insurgents presence in the west of the District

QADIS District is assessed as "POPULATION NEUTRAL/ ON THE FENCE". Environmental conditions in district with respect to Governance, Development and Security are such that less than half of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.

# MUQUR (BADGHIS Province) District Assessment

**Governance: "UNPRODUCTIVE"**

- Population generally neutral towards government
- Rule of Law: there are no judges, prosecutors or lawyers
- Most legal issues are settled through local Mullah or Village Elder, especially in the rural areas

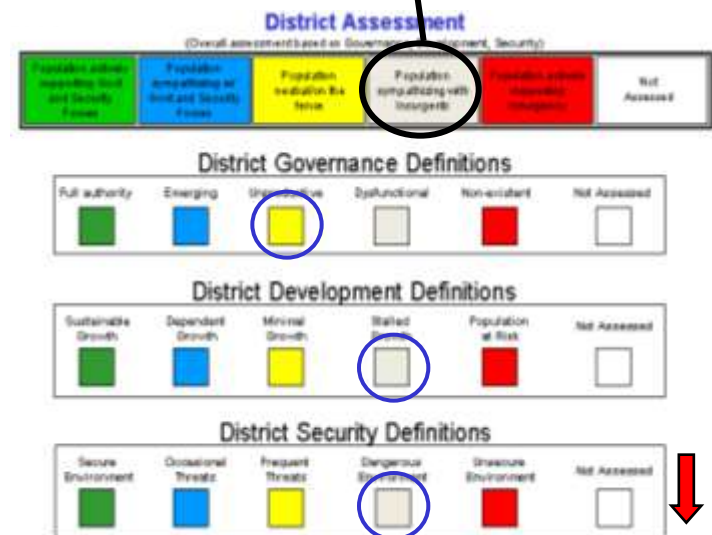

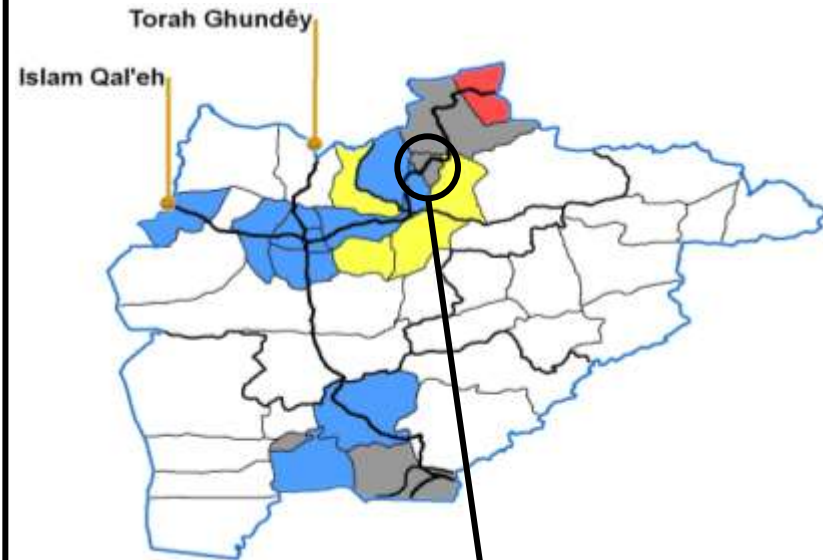

**Development: "STALLED GROWTH"**

- International Community jobs and investments are minimal; more needed to spur economy
- Both quality and accessibility to many basic services are seriously lacking.
- Economic opportunities are constrained by the lack of electricity, factories and processing/storage facilities
- Education is poor in the Pashtun areas

**Security: "DANGEROUS ENVIRONMENT"**

- The majority of the population does not feel safe to serve in GIROA or Coalition offered jobs
- RC W assessed security as "FREQUENT THREATS" in the 2<sup>nd</sup> cycle (4FEB10); RC West did not provide further information to support the new assessment

MUQUR District is assessed as "POPULATION SYMPATHIZING WITH INSURGENTS". RC W assessed MUQUR District as "POPULATION NEUTRAL / ON THE FENCE" in the 2<sup>nd</sup> cycle (4FEB10). They did not provide further information to support the new assessment.

# MURGHAB (BADGHIS Province) District Assessment

**Governance: "DYSFUNCTIONAL"**

- Government cannot provide essential services and protect the population
- Smuggling activities are wide spread in the whole area
- The majority of the population is Pashtun
- Rule of Law: without district judge or prison

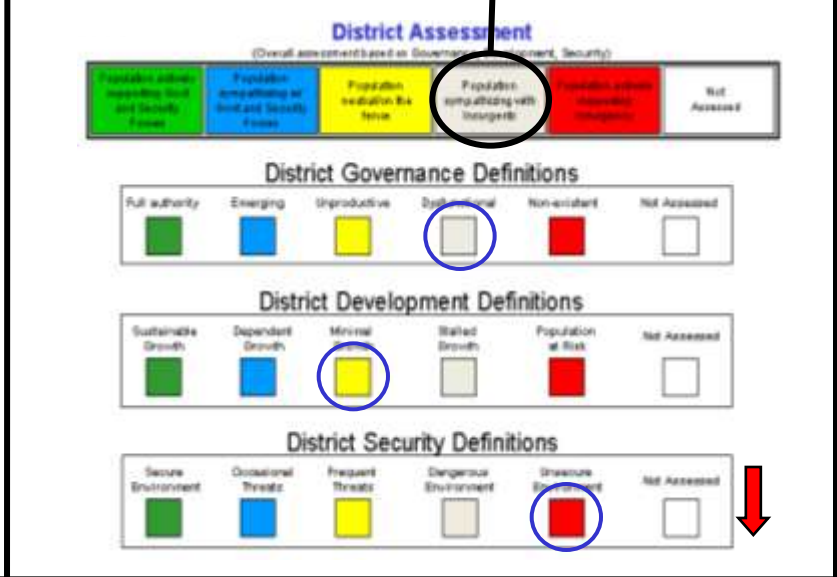

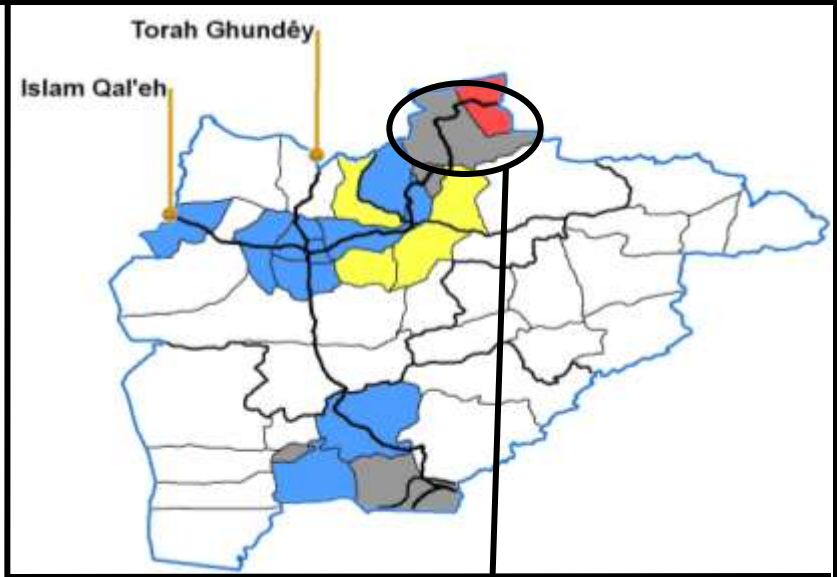

**Development: "MINIMAL GROWTH"**

- International Community activity and investment is necessary to sustain minimal growth
- Agriculture is the primary source of income and industry is almost nonexistent
- Insufficient number of potable water wells

**Security: "UNSECURE ENVIROMENT"**

- Reporting from populace may be subject to enemy influence; the enemy has complete freedom of movement in the area
- RC W assessed security as "FREQUENT THREATS" in the 2nd cycle (4FEB10): RC West did not provide further information to support the new assessment

**MURGHAB District is assessed as "POPULATION SYMPATHIZING WITH INSURGENTS"**. Environmental conditions in district with respect to Governance, Development, and Security are such that open, active support for anti-government elements is routine. RC W assessed MURGHAB District as "POPULATION NEUTRAL / ON THE FENCE" in the 2nd cycle (4FEB10). They did not provide further information to support the new assessment.

# BAKWAH (FARAH Province) District Assessment

**Governance: "NON EXISTENT"**

- Limited legitimate governance exists
- GIROA has no influence in the area
- Many local nationals adhere to the tribal way of life

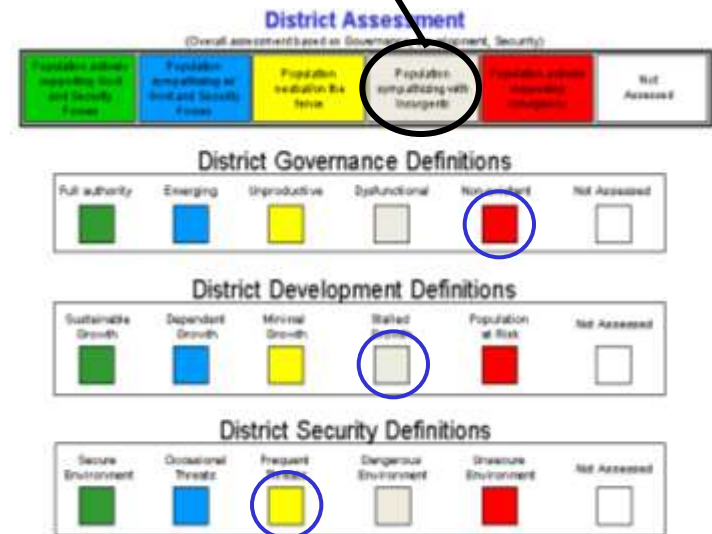

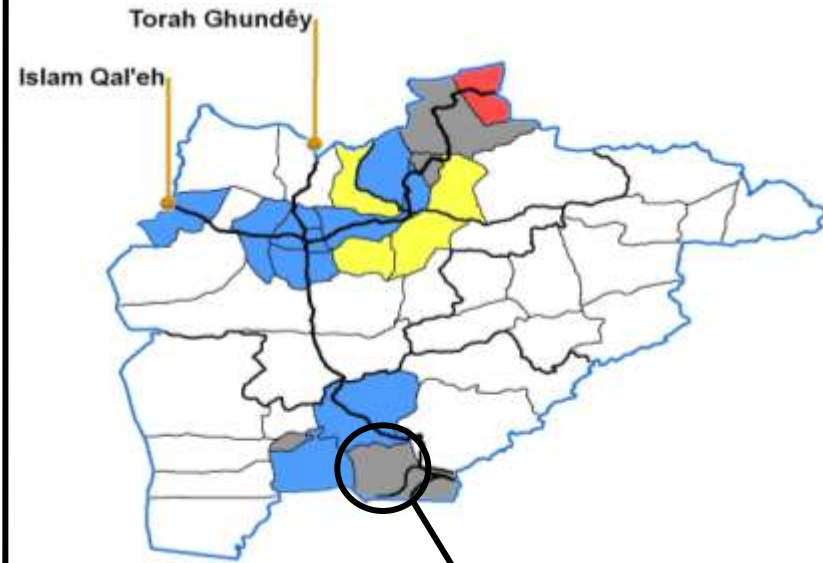

**Development: "STALLED GROWTH"**

- Many people are unemployed, and most are still actively looking for work and hopeful.
- Agriculture based economy with access to good arable land
- Lack of surface water and limited pump irrigation hinders growth; a hydrology study has been completed to address the issue
- Basic services almost non-existent

**Security: "FREQUENT THREATS"**

- Frequent attacks intimidating a significant segment of the population
- Tribal elders relied on for justice

**BAKWAH District is assessed as "POPULATION SYMPATHIZING WITH INSURGENTS."** There is very little of interaction between GIROA and the populace, which relies mostly on their elders, while basic administrative services do not provide minimal standards. Insurgency, subordinated by its shadow structure, is constantly active, main threat is IED attack.

# BALA BOLUK (FARAH Province) District Assessment

**Governance: "EMERGING"**

- An official legal system may exist but tribal system is primary judicial means at local level
- RC W assessed governance in BALA BOLUK as "UNPRODUCTIVE" in the 2nd cycle. They did not provide further information to support the new assessment

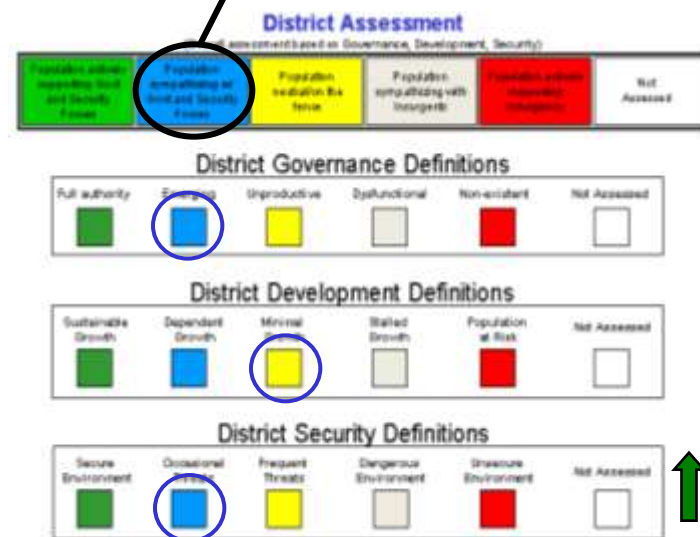

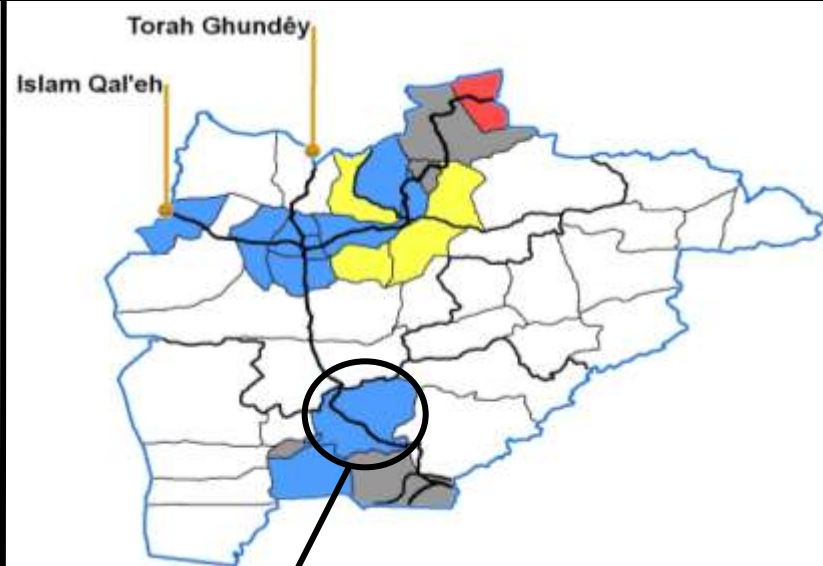

**Development: "MINIMAL GROWTH"**

- International Community activity and investment is necessary to sustain minimal growth
- Agriculture is the main activity of the population
- Lack of maintenance of canal intakes limits growth

**Security: "OCCASIONAL THREATS"**

- Some attacks occur causing intimidation limited to a small segment of the population or are so infrequent that most threats are considered to be criminal
- RC W assessed security in BALA BOLUK as "DANGEROUS ENVIROMENT" in the 2nd cycle (4FEB10). They did not provide further information to support the new assessment

**BALA BOLUK District is assessed as "POPULATION SYMPATHIZING w/ GOVERNMENT AND SECURITY FORCES".** Environmental conditions in district with respect to Governance, Development and Security are such that the majority of population accepts legitimacy of GIROA. RC W assessed BALA BOLUK District as "POPULATION NEUTRAL / ON THE FENCE" in the 2nd cycle (4FEB10). They did not provide further information to support the new assessment.

# FARAH (FARAH Province) District Assessment

**Governance: "FULL AUTHORITY"**

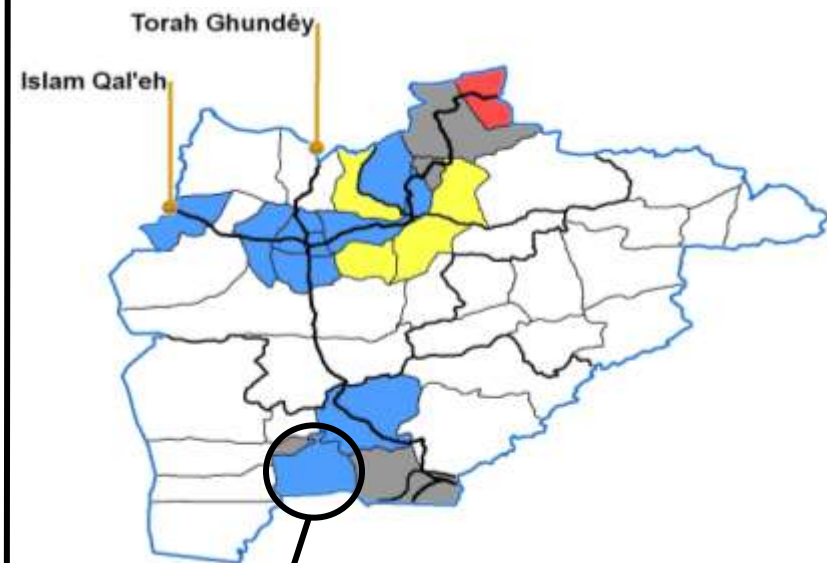

- Population accept Government authority
- Rule of Law: strained by lack of infrastructure and resources
- The population feels safe

**Development: "SUSTAINABLE GROWTH"**

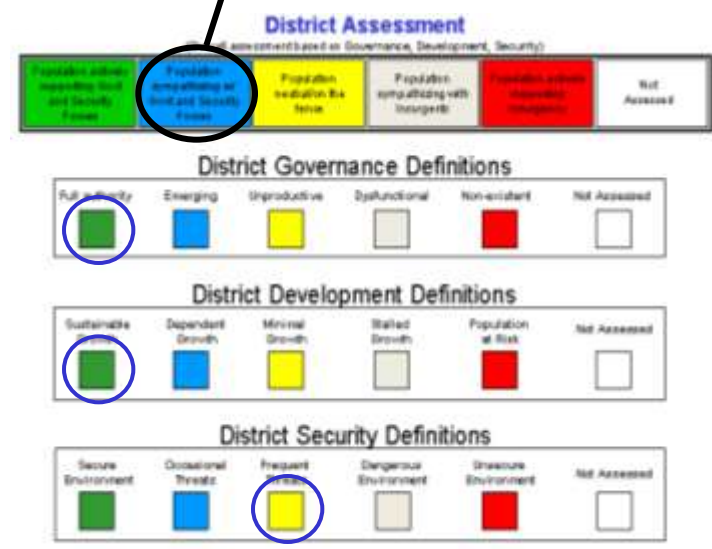

- Basic needs are acceptable quality, readily available to most of population and sustainable
- Priorities are clear roads, water, and electricity
- Telecommunications are functional and covers FARAH City
- Transport infrastructure reasonably developed

**Security: "FREQUENT THREATS"**

- High criminal activity
- Taliban safe haven

FARAH District is assessed as "POPULATION SYMPATHIZING w/ GOVERNMENT AND SECURITY FORCES". Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.

# PUSHT-E ROD (FARAH Province) District Assessment

**Governance: "DYSFUNCTIONAL"**

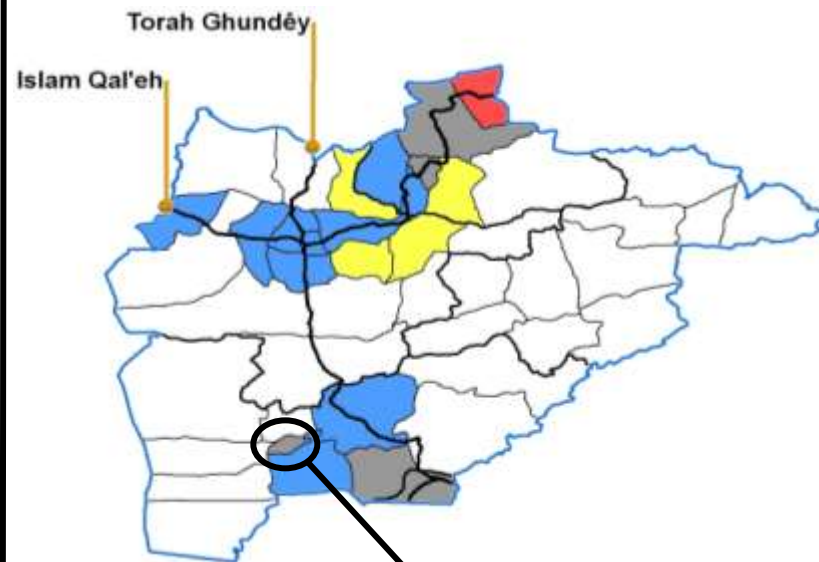

- Tribal system dominant
- Government cannot provide essential service

**Development: "POPULATION AT RISK"**

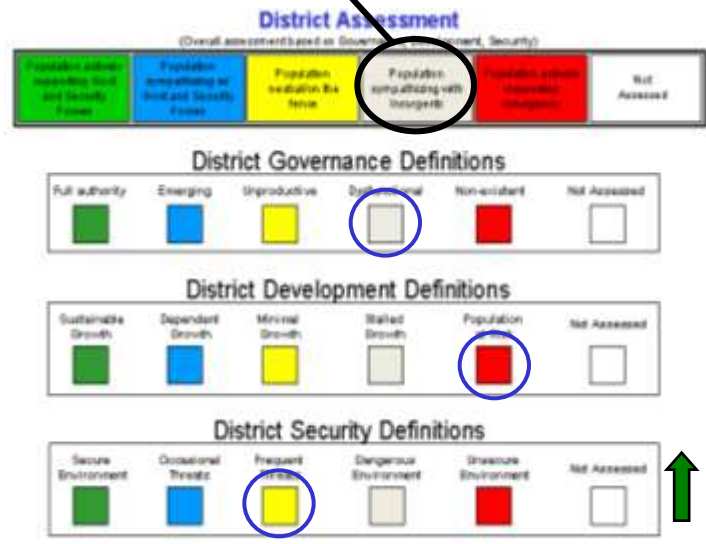

- Few prospects for economic growth exist
- Lack of canal maintenance and intakes limits growth
- Basic services are being diminished by Taliban

**Security: "FREQUENT THREATS"**

- Strong intimidation campaign towards local nationals

**PUSHT-E ROD District is assessed as "POPULATION SYMPATHIZING WITH INSURGENTS."** Environmental conditions in district with respect to Governance, Development and Security are such that the majority of individuals are dissatisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.

# KUSHK-E KOHNAH (HERAT Province) District Assessment

**Governance: "UNPRODUCTIVE"**

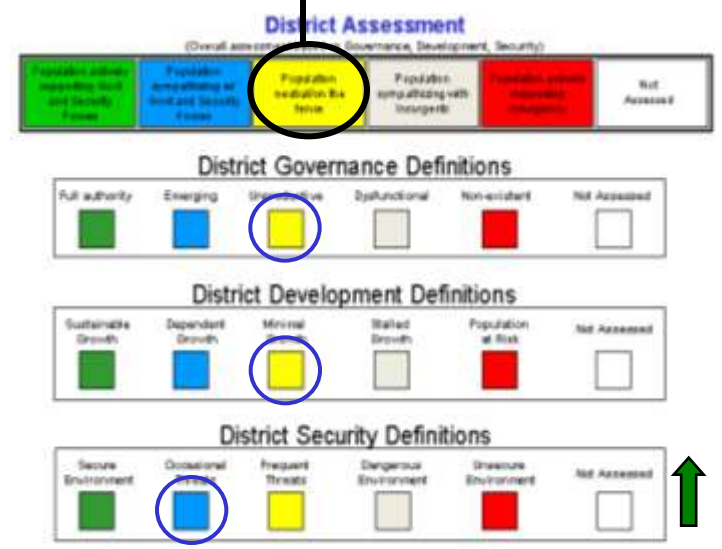

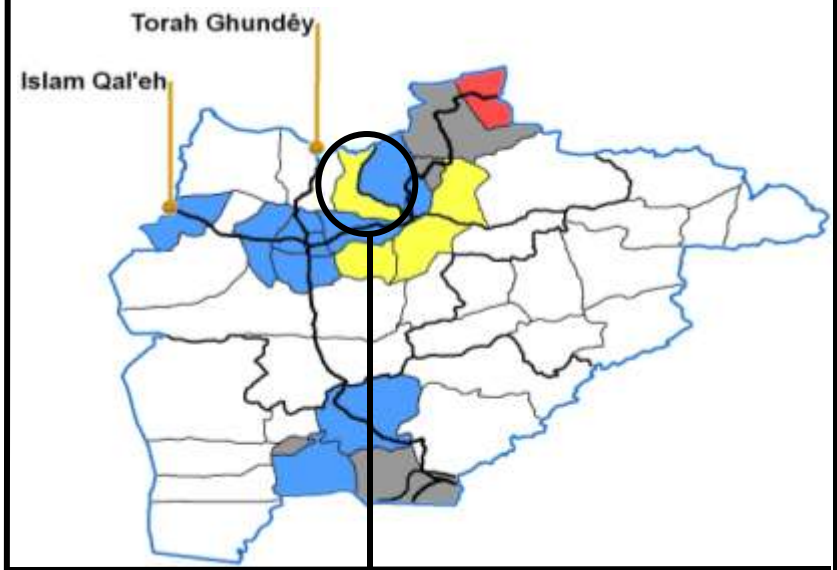

- Government hindered from providing essential services
- Lack coordination with local Government

**Development: "MINIMAL GROWTH"**

- International Community activity and investment is necessary to sustain minimal growth
- The district's development remains dependant on the engagement of the International Community, UNAMA and major NGOs

**Security: "OCCASIONAL THREATS"**

- Some attacks occur causing intimidation limited to a small segment of the population

Environmental conditions in district with respect to Governance, Development and Security are such that less than half of individuals are satisfied with conditions in terms of their Personal, Community, Food, Health, Economic, Political security.

# RC Capital

# BAGRAMI (KABUL Province) District Assessment

## Governance: "EMERGING"

- An established and officially recognized government system exists
- GIROA. provides essential services and protects the population
- Population is generally supportive of the GIROA
- The population accepts GIROA authority

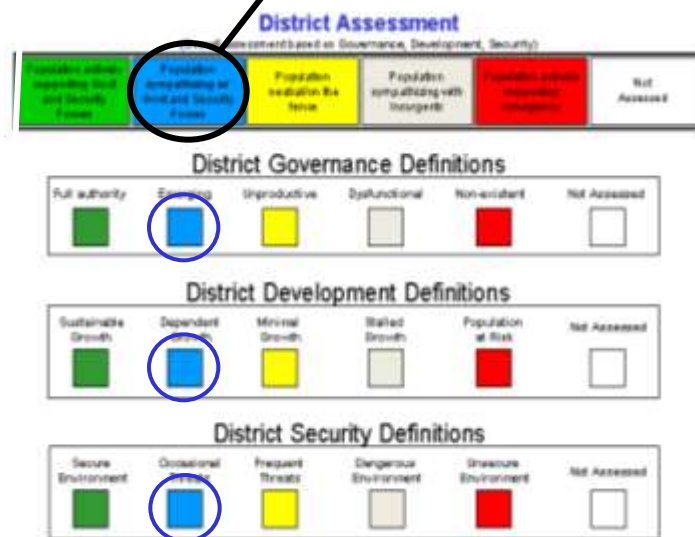

## Development: "DEPENDENT GROWTH"

- Economic growth exists, but continued growth is dependent on International Community investment
- Basic needs are available to most of the population but the quality of service often does not meet acceptable standards
- Although many people are employed, most jobs are of short duration
- Amenity stores openings and closures susceptible to minor market shifts

## Security: "OCCASIONAL THREATS"

- Some attacks occur causing intimidation limited to a small segment of the population
- Government security forces actively patrol urban areas and respond to incidents in other areas

**BAGRAMI District is assessed as "POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES." This assessment is based on the "EMERGING" Governance, "DEPENDANT GROWTH" in Development and the "OCCASIONAL THREATS" for Security.**

# DIH SABZ (KABUL Province) District Assessment

## Governance: “EMERGING”

- An established and officially recognized government system exists
- GIROA provides essential services and protects the population
- The population accepts GIROA authority; disagreements with the GIROA or its decisions are voiced, rarely escalate into violent confrontations
- Tribal system is the primary judicial means at the local level

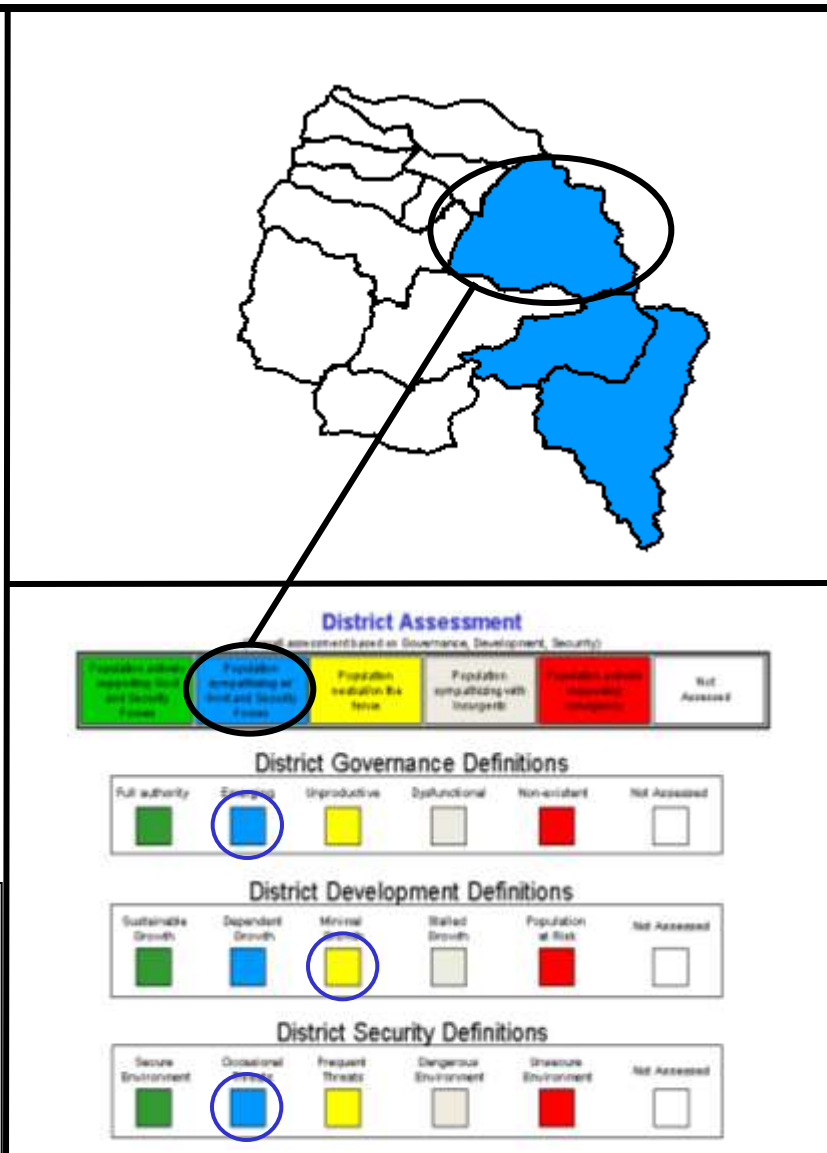

## Development: “MINIMAL GROWTH”

- Frequent attacks intimidating a significant segment of the population; organized criminal activity may be prevalent
- Populace reluctant to report on enemy presence and activities; intelligence indicates the enemy has covert support areas
- Government security forces are limited by resources, apathy, or capability

## Security: “OCCASIONAL THREATS”

- Some attacks occur causing intimidation limited to a small segment of the population
- Government security forces actively patrol urban areas and respond to incidents in other areas

DIH SABZ District is assessed as “POPULATION SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES.” This assessment is based on the “EMERGING” Governance, “MINIMAL GROWTH” in Development and the “OCCASIONAL THREATS” for Security.

# KHAKI JABBAR (KABUL Province) District Assessment

**Governance: "FULL AUTHORITY"**

- An established and officially recognized government system exists
- GIROA provides essential services and protects the population without need for significant international community aid or security
- An official legal system exists and is functioning, the tribal justice system is often used for resolving social and family matters

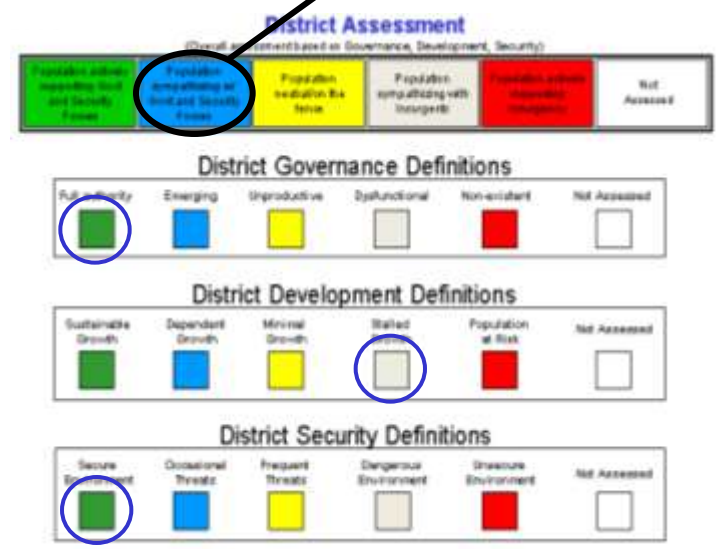

**Development: "STALLED GROWTH"**

- Economic growth is stalled
- Many people are unemployed, and most are still actively looking for work and hopeful
- Few stores exist in the area; population must travel significant distances to purchase necessities
- International Community jobs and investment are minimal; more are needed in the area to spur the economy

**Security: "SECURE ENVIRONMENT"**

- Attack levels are low to non-existent – any attacks that do occur are attributed to criminal activity and do not intimidate a large segment of the population

**KHAKI JABBAR District is assessed as "SYMPATHIZING WITH GOVERNMENT AND SECURITY FORCES". This assessment is based upon the "FULL AUTHORITY" of Governance, "STALLED GROWTH" in Development and the "SECURE ENVIRONMENT" for Security.**
