National Defense University

Feb 12th, 2009

Introduction---the Challenge

The Basics (Islam, Islamists, COIN)

The new Approach

The Role of Leadership---The Challenge

COIN Campaign Design Components

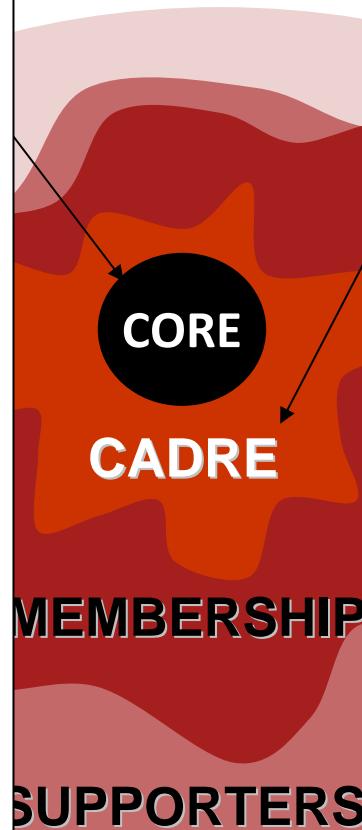

Goal is to isolate irreconcilable insurgents, increase # of moderates, and minimize impacts of detention policy on alienating population (i.e., creating insurgent supporters and recruits)

COIN doctrine, FM 3-24/MCWP 3-33.5, 15 Dec 06

Treating a civilian like an insurgent...is a sure recipe for failure. Counterinsurgents that use excessive force to limit short-term risk alienate the local populace. They deprive themselves of the support or tolerance of the people. This is what insurgents want.

Frustrate insurgent recruiting.
Lose Moral Legitimacy, Lose the War.

Consider how the populace

Galula:

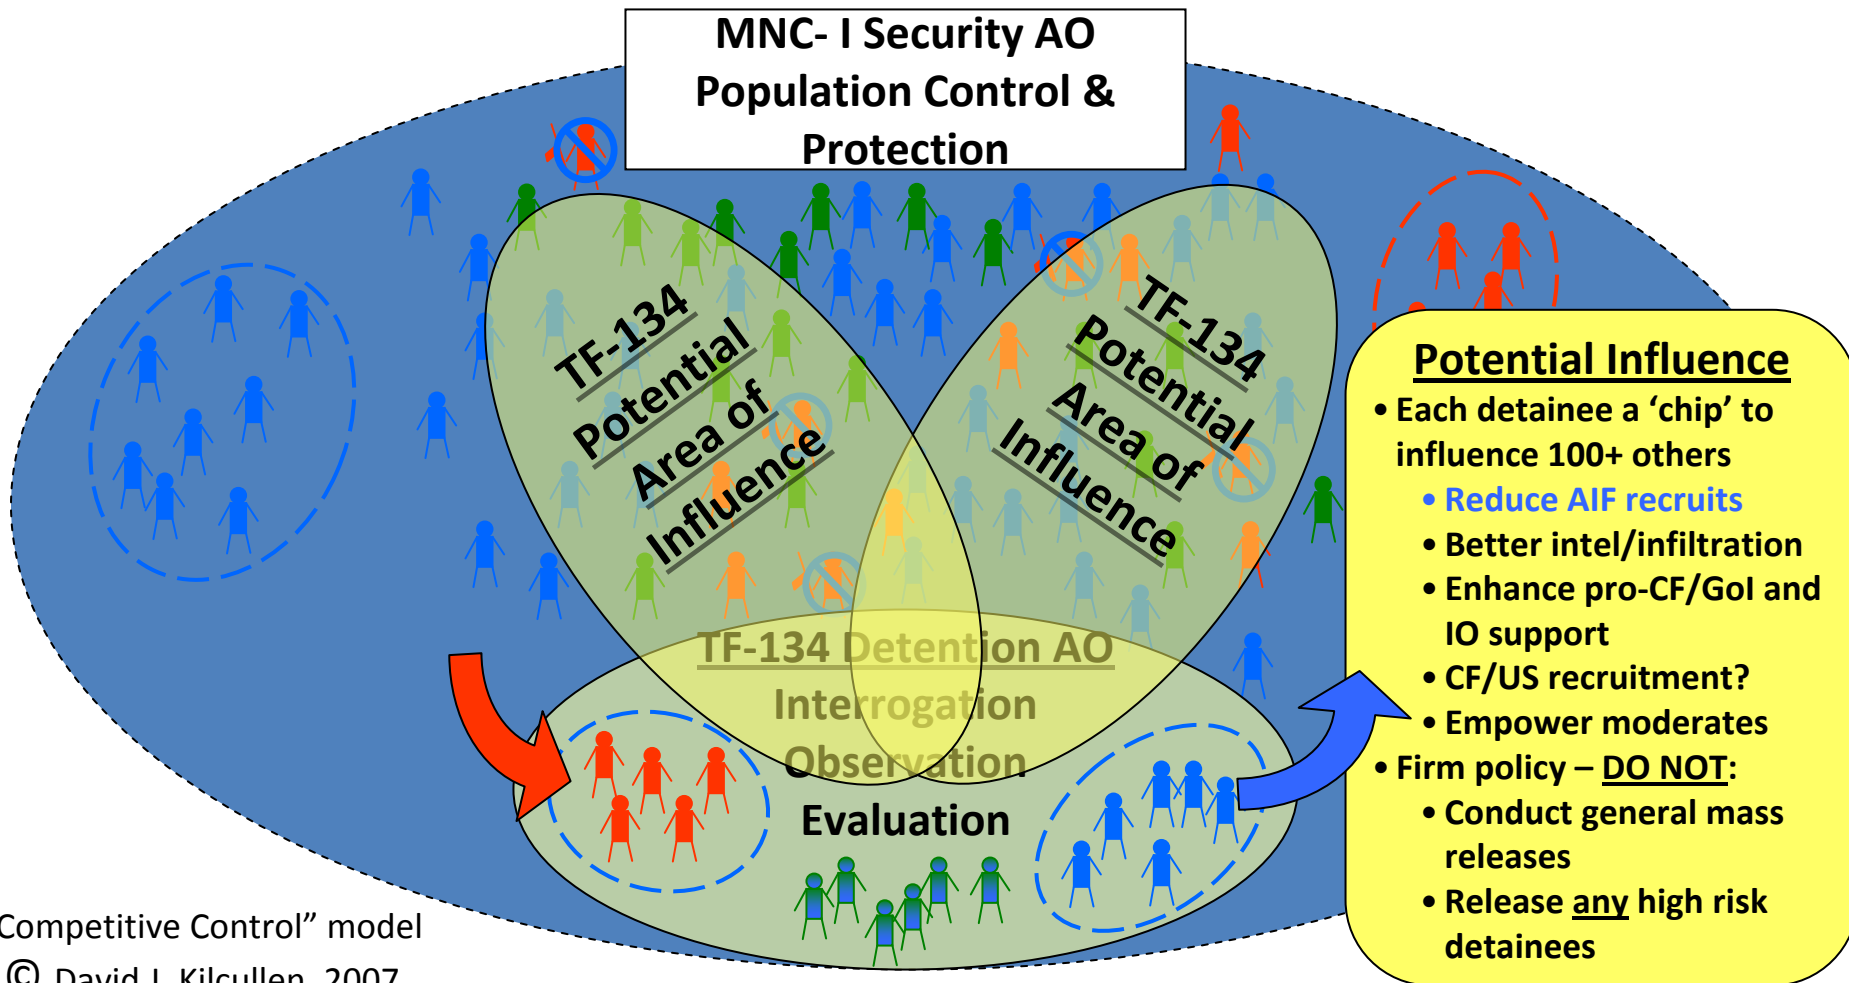

“A system...which would encourage soldiers to kill or capture the largest number of enemies...may well be disastrous in [COIN].”

‘Victory’ in COIN: “...not [just] the destruction...of the insurgent’s forces...that, plus the permanent isolation of the insurgent from the population, isolation not enforced upon the population but maintained by and with the population.”

Avoid actions that might

TF-134 promoting detainee policies that exploit Iraqi cultural peculiarities to turn moderates away from insurgency

Strong indications that enhanced detention ops with selective releases can positively impact the greater COIN fight – reduce insurgent #s and capability, bolster support for CF/Gol –

“Competitive Control” model

Defining Strategic Success

VICTORY

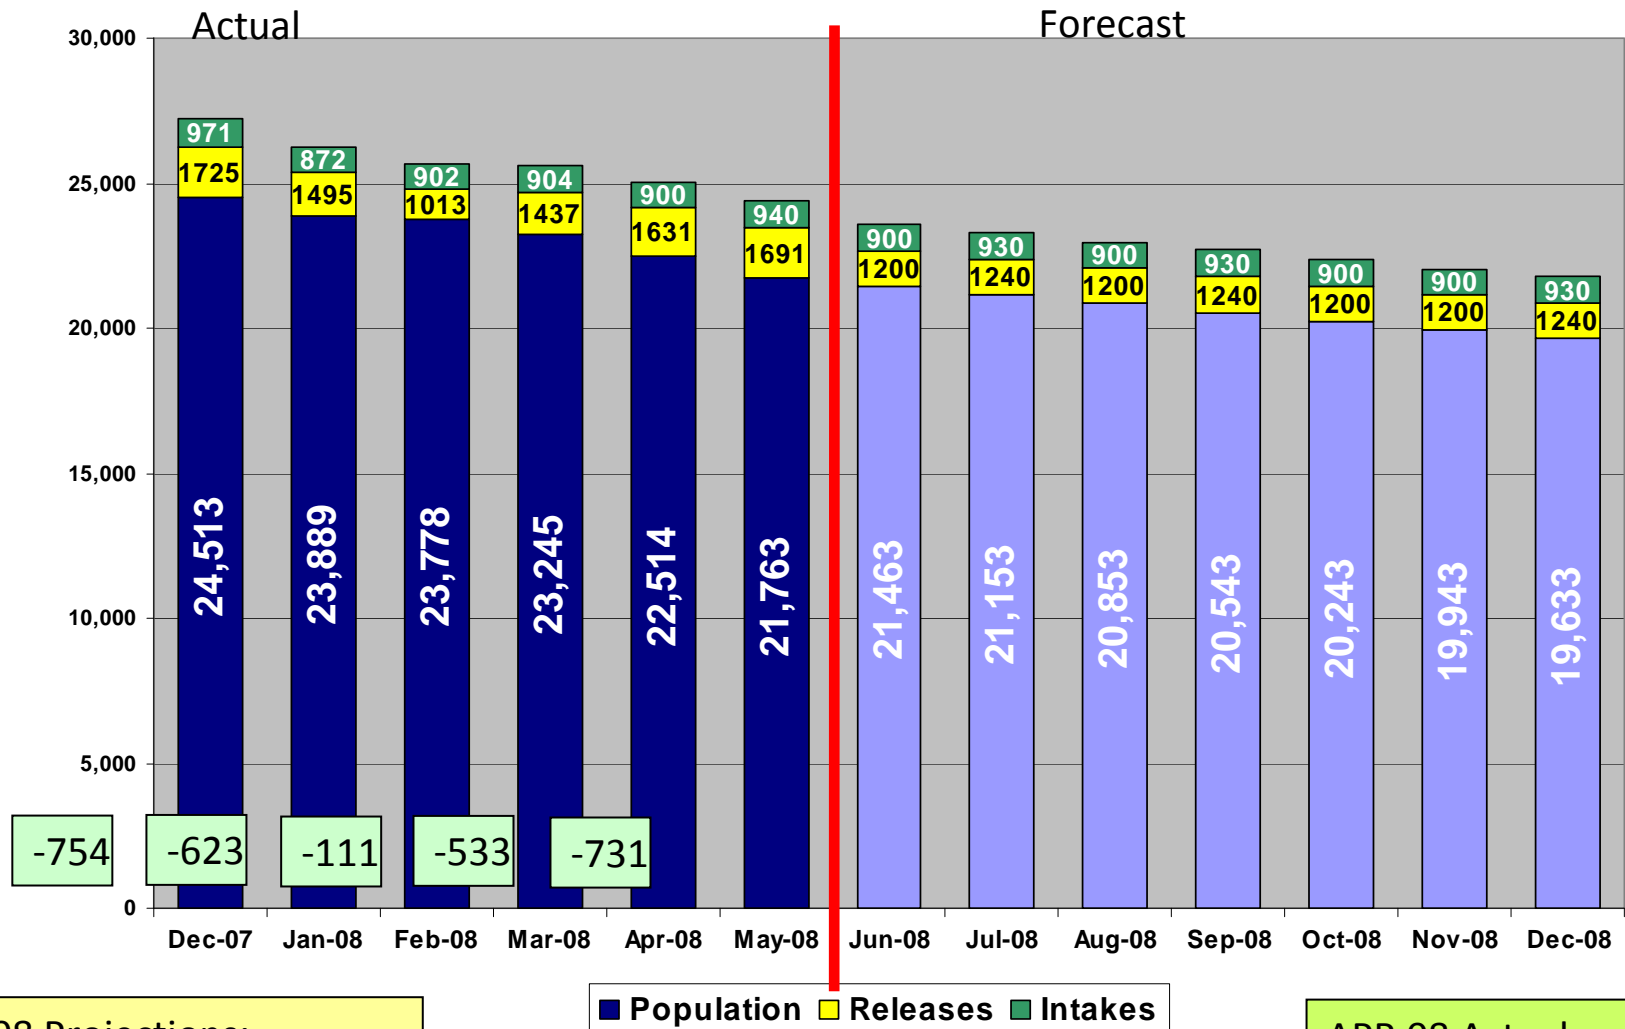

- Establish an alliance with moderate Iraqis
- Empower them to effectively marginalize violent extremists
- Provide momentum to the process of reconciliation with Iraqi society

Detention impacts on #s of insurgents and reconciliation major decision criteria, but detention capacity, resources used for TIFs, and eventual turnover of detainees to ISF also decision criterion
Population and Capacity Projections

Study compares / balances factors related to reducing # detainees and # of insurgents

TIF Detainee Population Actual & Forecast

APR 08 Projections:
 30 Intakes per day
 40 releases per day

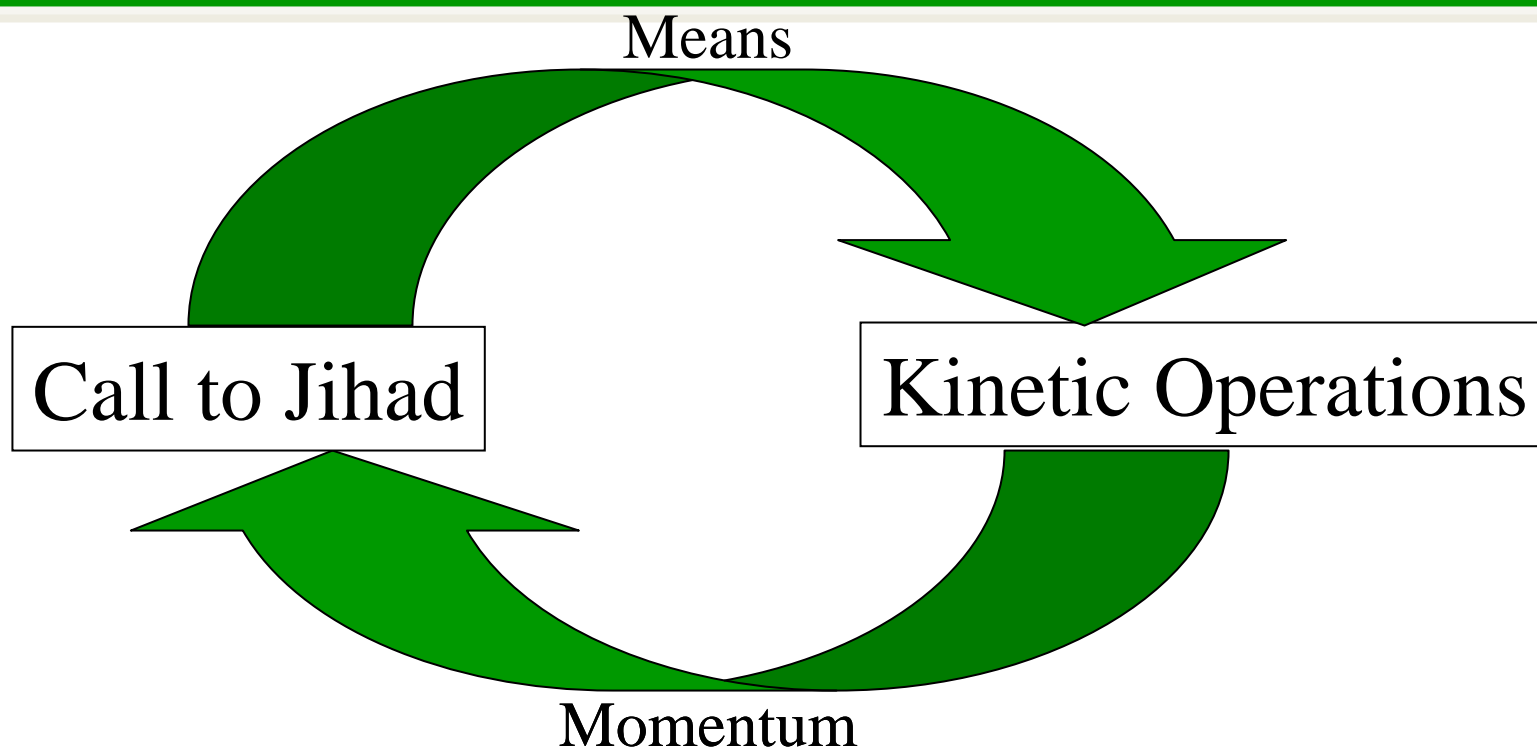

APR 08 Actual:
 28 Intakes per day
 21 Releases per day

Line of Operations:

1. Unite the Ummah

“The sword and the word will complement one another.”

--Zarqawi to Bin Laden, June 2004, (U//FOUO)

“... Islamic governments... are established as they [always] have been: by pen and gun, by word and bullet, by tongue and teeth.”

- *Al Qaeda Manual*, (U)

NOT the Enemy

Attention: Viewed as a Problem

Historic failures in custody and care serve as recruiting tools for foreign fighters.

Detention had also served as a place for insurgents to conduct recruiting, training, and disciplining of future combatants.

TF-134 Goals

- Ensure standards of care and custody
- Determine if detainee is Imperative Security Risk
 - if so, reduce the risk, replace the destructive ideology
 - when no longer a threat, release
- Identify detainees who are Enduring Security Risks
- Collect information from detainees and provide intelligence
- Defeat any insurgency within the TIF

مخطط المحافظات لإعادة إستقبال

- High Under-employed Rate
- Many Refugees Outside Iraq
- Many Internally Displaced

• معدل عال لغير العاملين

• الكثير من اللاجئين خارج العراق

• الكثير من المهجرين داخليا

- Lower the Under-employed Rate
- Larger numbers Refugees Return
- Many happily return to their communities

• معدل خفيف لغير العاملين

• عودة الكثير من اللاجئين

• عودة الكثير إلى مناطقهم فرحين

A Path to Radicalization

- The West, led by the United States, is engaged in a war against Islam
- Muslims are obligated to defend their religion and there are theological justifications for doing so
- Violence is the necessary means to defend the religion

The Plan

- Phase I: Apply COIN principles to TIF, separate extremists from population, and protect populations both inside and outside the TIF
- Phase II: Defeat the insurgency within the TIF, succeed in the battlefield of the mind, and identify ideas which are contagious
- Phase III: Engaging populations with detainees, families, and releasees and establish a “social epidemic” which advances the objective of empowering the moderate ummah to marginalize the violent extremists within Iraq

What Works and What Doesn't in a COIN Environment

from FM 3-24 (Table 1-1)

Unsuccessful Practices

- “Overemphasize killing and capturing the enemy, rather than securing and engaging the populace.”
- Ignore peacetime governmental processes, including legal procedures
- Place a low priority on assigning quality advisors to HN forces

“Old Way of Doing Business”

Successful Practices

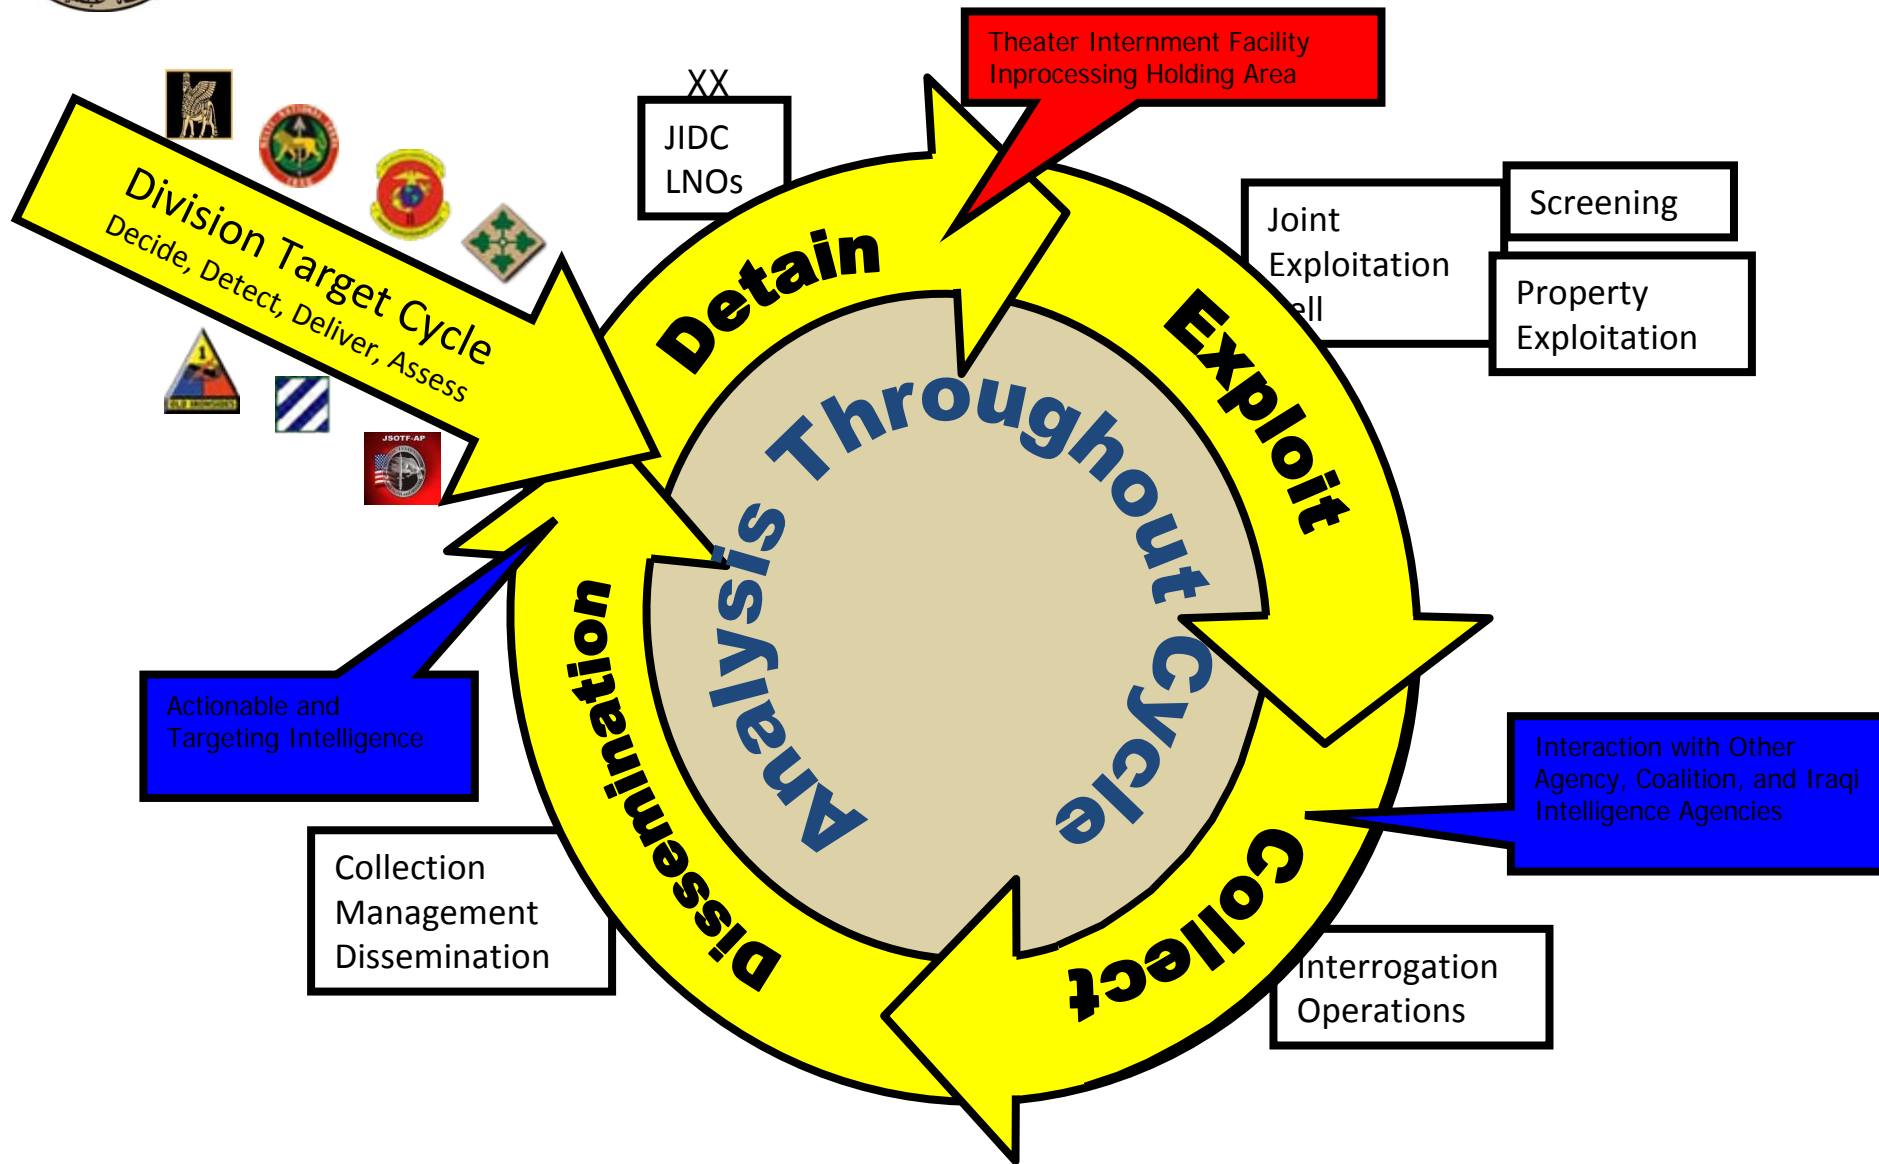

- Emphasize intelligence
- Isolate insurgents from the population
- Conduct IO
- Provide amnesty and rehabilitation
- Police lead; military support
- Expand and diversify the security force

The Way Ahead for Detention Ops

“In COIN environments, distinguishing an insurgent from a civilian is difficult and often impossible. Treating a civilian like an insurgent, however, is a sure recipe for failure” (7-40).

Detention: A New Solution through Reconciliation Efforts

Defeat the Insurgency by Empowering Moderates

- Identify individuals for separation early in the detention process
- Create a transparent legal review process to release those who are reconciled
- Criminals are turned over to ICS
- Extremists are separated. Gangs and disrupted and exploited.

Reintegration & Reconciliation Programs Modify Behavior

- Educate, inform, train and empower moderate reconcile in detention and prepare
- Provide support through programs that facilitate reintegration back into Iraqi
- Shia and Sunni together in all programs

PLEDGE PROGRAM

برنامج التعهد و الضمان

The judicial pledge is the detainee's promise to an Iraqi judge to maintain peace and good conduct. Over 7,200 detainees have made the pledge thus far.

التعهد القضائي هو وعد من المعتقل يتعهد فيه امام قاضي عراقي بحفظ السلام و حسن السلوك. أكثر من 7200 معتقل قد أدوا هذا اليمين أمام قاض عراقي

'LION'S DAWN' RELEASE CEREMONY

إحتفالية فجر الاسد للإفراج

This special program celebrates the release of a group of detainees. It's conducted as a public release ceremony for the detainees and their families. Iraqi VIPs attend the ceremony and typically invite Iraqi/Pan-Arab media to cover.

يحتفل هذا البرنامج المهم بإفراج مجموعة من المعتقلين. يحتفل بمراسيم إفراج عامة للمعتقلين و ذويهم. يحضر هذه المراسيم شخصيات عراقية بارزة، و بالطبع يتم إستدعاء الإعلام العراقي و المناصر للعرب للتغطية الاعلاميه.

The Government of Iraq (GOI) and Multi-National Forces-Iraq (MNF-I) have partnered together to expand the number of releases from Coalition Forces custody in an effort to foster throughout the year goodwill and reconciliation.

عملت الحكومة العراقية بالإشتراك مع القوة المتعددة الجنسيات على زيادة الأعداد التي يتم إطلاق سراحها من عهدة قوات التحالف لمحاولة تعزيز حسن النية و المصالحة على مدى طول العام.

As of Nov. 1, 2007:
6,300 detainees have
been released

لغاية 1 تشرين الثاني
2007 تم إطلاق
سراح 6.300 معتقل

Implications

Releases are Strategic

- Greater throughput between DO and Corps is necessary to uphold both the quality and quantity of intakes and releases
- Amnesty and mass releases are not viable options

Releases will Reshape the Battlespace

- There are over 20,000 Sunnis in detention who might be released back into their communities
- Closely monitoring recaptures and recidivists will be key indicators regarding the amount of risk

Releases are Necessary

- If a detainee is no longer viewed as an “imperative security risk”
- Implications of the UNSCR expiration at the end of 2008
- “Passing the Buck” will disadvantage follow-on forces and potentially offset many of the gains which have occurred. We need the involvement of the MNDs for successful reintegration to occur.

The Way Ahead

Post-Release Preparedness

- The impact of detainee return ceremonies
- “Guarantors” proceeding in Corps areas
- Continuing efforts to evaluate and assess

Coordinating Our Efforts

- Increased involvement from Corps in the MNFRC panel discussions
- Economic programs synced to meet the needs of battlespace owners
- Make every attempt to avoid the unmonitored detainee release
- TF 134 programs and services are prepared to assist out the DHAs with:
 - Legal Assistance
 - Judicial Investigators
 - Assessments and Motivation Research
 - Early identification of irreconcilables and extremists

Global Impact of Expanding the Model

As a historical and geographical center of Islam, what happens in Iraq will echo throughout the more than *1 billion* people of the Muslim Umma.
