DO NOT DISCUSS CLASSIFIED INFORMATION ON NONSECURE TELEPHONES. OFFICIAL DOD TELEPHONES ARE SUBJECT TO MONITORING FOR COMMUNICATION SECURITY PURPOSES AT ALL TIMES. DOD telephones are provided for the transmission of official government information and are subject to communications security monitoring at all times. Use of official DOD telephones constitutes consent to communications security telephone monitoring in accordance with DOD Directive 4640.6.

DIRECTORY UPDATES

To assist your Telephone Officer with updating changes to your Organization/Command listings, it is imperative that you provide changes as they occur in the format required and as specified on page A7 of this directory. This will help eliminate the untimely backlogs that occur just prior to the quarterly deadline date. Subscribers failing to submit their requirements in the time frame allotted, will not get their listing in the directory. Don't let this happen to your Command. Submit your listings as they occur and avoid the last minute rush.

If there are any questions regarding the information above, contact the Directory Clerk, extension 725-4542, for additional information or guidance.

GENERAL INFORMATION

PURPOSE

This directory is provided to primarily assist in finding base telephone numbers. Its use is expressly for official business purposes only and is the property of the United States Government. This directory must not be defaced or removed from offices while it remains the current directory. The lending, giving, selling or copying of information from this directory for soliciting, mailing lists, or other advertising purposes is prohibited. Directory changes should be forwarded to the Directory Clerk (extension 725-4542). The listings are arranged alphabetically within each major command, and the index is arranged alphabetically to allow users to find numbers without knowing which command a particular section belongs. Additional assistance is provided in the Defense Switched Network Numbers listing.

INSTALLATION AND MAINTENANCE

Only personnel designated by the AC/S, COMM & INFORMATION SYSTEM DEPARTMENT, MCB are permitted to install, relocate, disconnect, remove or repair telephone equipment or cables. Service will be immediately disconnected and removed if it is found that unauthorized personnel have, in any manner, tampered with the installation of telephone services. Requests for service are made through the Customer Service Request (CSR) and Telephone Service Request (TSR) (MCBP-2305/4) via the user's chain of command to the AC/S, Communication & Information Systems Department.

SECURITY

Except for secure voice telephones, all instruments are subject to potential compromising of classified information. Communication systems are provided for the transmission of official government information only, and are subject to communications security monitoring and communications management monitoring at all times. The use of the Base Communications System shall constitute consent to communications security and management monitoring in accordance with BO P2000.1 and DOD Directive 4640.1.

TELEPHONE USE

Base telephones are for conducting official business only. Public pay telephones are located throughout the Base for the convenience of the public, and are owned, operated, and maintained by Pacific Bell Telephone Company. Misuse of these pay telephones will result in their removal. Toll calls will be authorized by each section and recorded in a monthly Toll Call Record. Billing information can be obtained by calling extension 725-4509 between 0730-1600. Bills are due by the 22nd of each month, and nonpayment of bills may result in the disconnecting of telephone service. 48 hours advance notification of service termination is required by the Billing Clerk (extension 725-4509).

OPERATOR SERVICE

Base telephone operators are instructed to be courteous and respectful. Do not reprimand or enter into conversation with the operator, make complaints to the Chief Operator, extension 725-4359.

CAPABILITIES

All telephone extensions have a class of service assigned to them that defines a specific telephone capability. Questions as to what class of service is assigned to an extension should be directed to Telephone Systems Office extension 725-3101. Additionally, each extension is assigned a military precedence. The general classes of service are listed below:

a. **(Official with Defense Switched Network Access)** – This service provides official government business access to the Defense Switched Network, Inter-Base circuits, and to the commercial telephone system. Local commercial calls are chargeable to each unit and are paid for with appropriated funds.

b. **A (Official)** – This service provides official government business access to Inter Circuits, Leased Lines, and to the commercial telephone system. Local community calls are chargeable to each unit and are paid from appropriated funds.

c. **C (Official Restricted)** – This service provides official government access to the Base only.

d. **B (Unofficial)** – This service provides unofficial access to the local commercial telephone system. Telephone charges are paid for with non-appropriated funds or by individual users.

1) **B-1** – This service provides access to the commercial telephone system, and is paid by the designated occupant in government owned or leased quarters.

2) **B-2** – This service may be restricted to Base or have access to the commercial telephone system, the service is primarily used by the American Red Cross and other morale, welfare and recreation activities as provided by NAVCOMPAN, Vol, III.

3) **B-3** – This service provides access to the commercial telephone system for commercial concerns authorized to conduct business from a fixed location on the Base. This authority must be granted by a contract or permit issued by the Commanding General, Marine Corps Base.

LONG DISTANCE CALLS

Official commercial long distance calls cannot be made by direct dialing. All commercial long distance calls will be made through the Camp Pendleton Operator, extension 725-4110 and only from extensions with Class DSN, A service. Unofficial telephone calls will be completed from Class B service or pay telephones. Dialing information will be provided by the Base Operator.

FEATURES PACKAGE INSTRUCTIONS

Feature	Action	Instructions
HOLD	Activate	HS + *71, then hang up. A successful call hold will result in 2 short tones. There will be no sound in the receiving handset.
	Deactivate	Pick up the handset.
LAST NUMBER REDIAL	Activate	*82 will redial the last number dialed on that extension.
	Deactivate	Replace handset in cradle. This feature will continue to redial the last number used until a new number is dialed.
RING AGAIN	Activate	Upon reaching a busy number, HS + *70 and hang up. When both lines are free, both the number that you dialed and your extension will automatically ring again.
RING BACK		
THREE-WAY CALLING	Activate	HS + number that you want to conference with your conversation. When the third party answers, HS once and all three parties are on the same call.
	Deactivate	HS twice if the line is busy, or the desired party is not available. This will return you to your original call.
OPTIONAL FEATURES		
CALL FORWARD INTERGROUP	Activate	*79 + number that you want all calls destined for the present extension to be forwarded.
	Deactivate	*80 will release this feature.
CALL PICKUP	Activate	*78 allows a user to answer incoming calls to another within a designated pickup group.
GROUP INTERCOM	Activate	+ 2 digit station number.
	Deactivate	Hang up the handset.
SPEED CALL SHORT	Activate Program	+ desired speed key number + *76 + desired speed key number (only 0 through 9 may be used) + desired number + #. Only Class DSN or A extensions may be used to program up to 10 numbers.

SPEED CALL LONG	Activate	+ speed call key number + #. This feature works only on those extensions that the programmed key numbers are assigned.
	Program	*77 + desired speed key number + desired number + #. This labels, specific speed key numbers to a specific extension. Up to 70 numbers may be programmed.
VOICE MAIL BASIC USER	Access	Dial 725-7000, enter mailbox number, enter password +Follow menu for all other options.
VOICE MAIL EXTENDED BASIC USER	Access	Dial 725-7000, Press #1 to log into mail. You may listen to your messages and use all of the other voice messaging commands. Press #3 to turn off remote; notification until the next time you log in.

DEFENSE SWITCHED NETWORK INSTRUCTIONS (DSN)

AUTHORIZED USERS

Use of Defense Switched Network (DSN) is limited to official calls of users with DSN service assigned to their extension. Users of Classes A, B, and C telephone services are not equipped or authorized to make outgoing DSN calls.

SECURITY

Defense Switched Network (DSN) is a nonsecure network. Users are reminded that care must be exercised to protect classified information by not discussing such information over the DSN or alluding to such information.

TIME LIMITATION

Users placing DSN calls should limit their calls to that necessary to accomplish business, enabling all users access to DSN lines.

PRECEDENCE SYSTEM

Military precedence is assigned to each DSN capable extension. A different precedence may be requested from the Marine Corps Base DSN operator. Calls might be preempted by an DSN call of higher precedence. The military precedences to be utilized within DSN are:

a. **FLASH** - Flash precedence is reserved for alerts, warnings, or other emergency actions having immediate bearing on national command or area authority.

b. **IMMEDIATE** - Immediate precedence is reserved for vital communications:

- 1) That have an immediate operational effect on tactical operations.
- 2) Which directly concern safety or rescue operations.
- 3) Which affect the intelligence community's operational role.

c. **PRIORITY** - Priority precedence is reserved for calls which require prompt completion for national defense and security, the successful conduct of war or to safeguard life or property, which do not require higher precedence.

d. **ROUTINE** . Routine precedence is reserved for all other official communications.

DIRECTORY ASSISTANCE

Defense Switched Network (DSN) numbers are changing daily. If the user reaches a recording indicating that the number is not in service, etc. call Camp Pendleton Directory Assistance, extension 725-4111 for the correct number. If the DSN number is not known, also dial 725-4111 for the desired telephone number.

MINIMIZE CONDITIONS

A MINIMIZE condition may be imposed by the Joint Chiefs of Staff as a communications management measure because of emergency which requires that only critical communications be made to that area. Calls to such an area will be limited to those calls assisting in emergency.

DIALING PROCEDURE

The following procedures apply for calls made from a class DSN extension:

a. To place DSN calls using the precedence assigned to your extension, users with DSN services on their extension will dial 8 + 8 and receive a second dial tone. When the second dial tone is received, dial the desired 7 digit DSN number.

b. To place DSN calls using a precedence different than that assigned to your extension, dial 8 + 0, and place your call through the operator.

c. To place DSN calls to an overseas number (Pacific Area), dial 8 + 8, wait for the second dial tone, dial 315, then dial the desired 7 digit DSN number. To place DSN calls to the European Area, dial 8 + 8 + 225-7366, and pass the information to the Command Center Operator.

OFF-NET TELEPHONE CALLS

Off-Net Defense Switched Network (DSN) telephone calls are for use with only official telephone calls. This service enable users to call an Off-Net switchboard which interfaces with the commercial telephone system and completes an official call to a subscriber without DSN telephone service.
