REGIONAL MONTHLY REPORT:  
DOMESTIC IED OSINT

Volume 2, Report 6: October 2011

*NOTE TO READERS: THIS TRIPWIRE PRODUCT PROVIDES DATA GATHERED FROM AVAILABLE OPEN SOURCE MEDIA REPORTS RELATED TO IED INCIDENTS. DUE TO THE NATURE OF OSINT COLLECTION THE NUMBER OF ARRESTS, INJURIES, AND FATALITIES MAY NOT BE ACCURATE DUE TO THE EVOLVING NATURE OF AN IED INCIDENT.*

## MONTHLY TRENDS

During the month of October, open source research by the TRIPwire team on domestic improvised explosive device (IED) usage shows the following:

- There were a total of 189 incidents in which bomb squads responded (includes IED detonations, reports of suspicious packages, hoax IEDs, incendiary devices, bomb-making materials found or stolen, and devices rendered safe). For a breakdown of the types of instances please see Figure 2 on the following page.
- There were a total of eight emplaced IEDs. Four of these were chemical pressure bombs.
- There were a total of 43 instances where an IED, explosive material, or ordnance was rendered safe. Sixteen of these were described as ordnance and seven were described as pipe bombs.
- There were 53 individuals arrested for activities associated with IEDs over the reported period, 15 of whom were juveniles.
- There were a total of three individuals injured by IED activity.
- California was the most active state, with 29 reported incidents. Virginia was next with 17 reported incidents, followed by Pennsylvania with 12 reported incidents. For a breakdown of incidents by region see Figure 1 on the following page.
- There were a total of 61 bomb threats. For a complete breakdown of the sectors targeted in these bomb threats please see Figure 3 on the following page.

On 9 October 2011, a chemical pressure bomb detonated at a car wash on the grounds of Tulsa International Airport. Authorities arrested two men who were observed leaving the scene of the explosion. Both men were employees of the car wash where the explosion took place. The car wash is adjacent to an airport parking garage. The explosion did not impact airport operations. No injuries or damages were reported.

### Suspicious Package information for the month of October 2011

During the month of October, 67 suspicious packages were found throughout the country. Region III had the most reported suspicious packages that prompted a bomb squad response, with a total of 19 instances.

## Incidents by Region

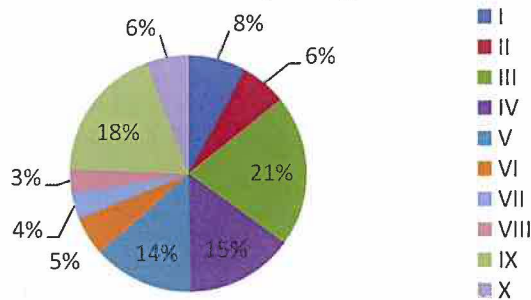

Figure 1: FEMA Region III reported the greatest number of incidents during October 2011.

## Incidents by Type

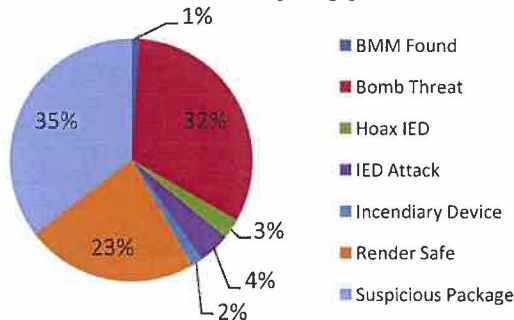

Figure 2: Suspicious packages and bomb threats accounted for 67% of the incidents in October 2011 while actual IED attacks only represented 4% of the month's activities.

## Bomb Threat by Target

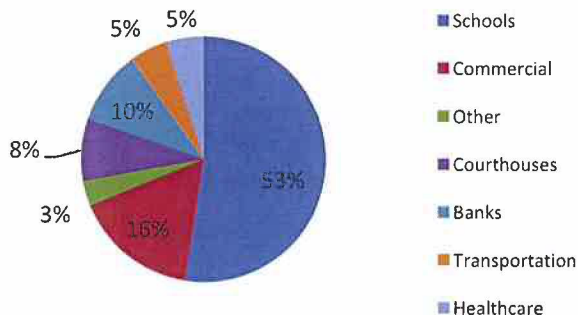

Figure 3: Bomb threats targeting schools accounted for 53% of all bomb threats in October 2011. Commercial facilities received 16% of all bomb threats this month.

On 21 October 2011, two men robbed a grocery store in Hampton Roads, VA. The men claimed to be FBI agents. During the robbery, the men attached what they described as bombs to two grocery store employees. The men left the store with an undisclosed amount of money. The Newport News Fire Department Bomb squad analyzed the devices and determined they were not explosive. No arrests have been made.
