

THE UNDER SECRETARY OF THE NAVY  
WASHINGTON DC 20350-1000

APR 7 2011

## MEMORANDUM FOR DISTRIBUTION

SUBJECT: Continuation of Operations in the Absence of Appropriations

Reference: (a) USN Memo 5 April 2011

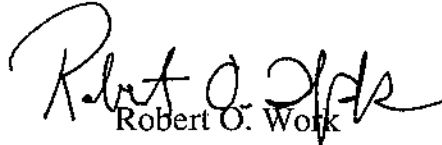

This memo provides final guidance on planning for the potential expiration of funding authority that could occur when the current Continuing Resolution expires on April 8, 2011. For purposes of implementing necessary actions, the uniform time of implementation is 12:01 a.m. Eastern Daylight Time. Please review this information and ensure that your identification of your personnel as "excepted" or "non-excepted" (previously referred to as exempt or non-exempt), are consistent with this guidance.

Key elements which have been revised since reference (a) are notification timelines to employees and travel approval.

- We expect that you will be allowed to notify your employees verbally on Friday, April 8 whether their work is considered "excepted" or "non-excepted." Non-excepted workers will be furloughed and placed in a non-pay status. Written notification to furloughed employees will be made on Monday (or over the weekend if that is their first duty day). Further guidance will be promulgated through human resource channels.
- Travel to support excepted efforts is subject to specific approval requirements. This authority is delegated to the Secretary of the Navy. Further delegations will be made by separate correspondence.
- See the attached guidance on use of government information technology.
- This section applies to efforts financed by appropriations for which current availability is affected by the expiration of applicable authority. Revolving fund activities will continue under normal operations supporting customer orders, subject to the availability of sufficient fund balances. If workload and fund balance variations result from the impact on customer resources, further guidance will be provided as warranted.

SUBJECT: Continuation of Operations in the Absence of Appropriations

I will continue to keep you apprised should further guidance or information become available. If you have questions about the shutdown, please contact Mary K. Tompa at (703) 695-1013/ [maryk.tompa@navy.mil](mailto:maryk.tompa@navy.mil) or other members of the contingency planning team identified in reference (a).

**SUBJECT: Guidance for Continuation of Operations in the Absence of Available Appropriations**

The current Continuing Resolution providing FY 2011 appropriations for the Department of Defense (DoD) expires at midnight on April 8, 2011. The Secretary and I still hope that we receive continued appropriations beyond this date. However, we must plan for possible expiration of the Department's appropriations.

The attachment to this memorandum provides instructions for continuation of essential operations in the absence of appropriated funds. The Department will, of course, continue to prosecute the war in Afghanistan, including preparation of forces for deployment into that conflict. The DoD will also continue completing the military commitment in Iraq as well as Libya and Japan operations. The Department must, as well, continue many other operations necessary for the safety of human life and protection of property including operations essential for the security of our nation. These activities will be "excepted" from cessation; all other activities would need to be shut down in an orderly and deliberate fashion, including—with few exceptions—the cessation of temporary duty travel.

All military personnel will continue in a normal duty status regardless of their affiliation with excepted or non-excepted activities. Military personnel will serve without pay until such time as Congress makes appropriated funds available to compensate them for this period of service. Civilian personnel who are engaged in excepted activities will also continue in normal duty status and also will not be paid until Congress makes appropriated funds available. Civilian employees not engaged in excepted activities will be furloughed, i.e., placed in a non-work, non-pay status.

The responsibility for determining which functions would be excepted from shut down resides with the Military Department Secretaries and Heads of DoD Components, who may

**OSD 04092-11**

delegate this authority as they deem appropriate. The attached guidance should be used to assist in making this excepted determination. The guidance does not identify every excepted activity, but rather provides overarching direction and general principles for making these determinations. It should be applied prudently in the context of a Department at war, with decisions guaranteeing our continued robust support for those engaged in that war, and with assurance that the lives and property of our nation's citizens will be protected.

This memorandum contains guidance to begin detailed planning; no specific employee furlough notifications are yet authorized. Nor should any shutdown actions be taken until you receive further notice.

Within the Office of the Secretary of Defense, the Under Secretary of Defense (Comptroller) will take the lead in preparing for operations in the absence of appropriations, assisted by other offices as necessary.

To repeat, the Secretary and I hope that DoD will receive continued appropriations. This guidance is intended to support prudent planning.

**CONTINGENCY PLAN GUIDANCE  
FOR CONTINUATION OF  
ESSENTIAL OPERATIONS  
IN THE ABSENCE OF  
AVAILABLE APPROPRIATIONS  
APRIL 2011**

## GENERAL INFORMATION

This document provides guidance for identifying those missions and functions of the Department of Defense that may continue to be carried out in the absence of available appropriations. The information provided in this document is not exhaustive, but rather illustrative, and is intended primarily to assist in the identification of those activities that may be continued notwithstanding the absence of available funding authority in the applicable appropriations (excepted activities). Activities that are determined not to be excepted, and which cannot be performed by utilizing military personnel in place of furloughed civilian personnel, will be suspended when appropriated funds expire. The Secretary of Defense may, at any time, determine that additional activities shall be treated as excepted.

### Military Personnel

Military personnel are not subject to furlough. Accordingly, military personnel on active duty, including reserve component personnel on Federal active duty, will continue to report for duty and carry out assigned duties. In addition to carrying out excepted activities, military personnel on active duty may be assigned to carry out non- excepted activities, in place of furloughed civilian personnel, to the extent that the non- excepted activity is capable of performance without incurring new obligations.

Reserve component personnel performing Active Guard Reserve (AGR) duty will continue to report for duty to carry out AGR authorized duties. Reserve component personnel will not perform inactive duty training resulting in the obligation of funds, except where such training directly supports an excepted activity, and may not be ordered to active duty, except in support of those military operations and activities necessary for national security listed in Attachment 2, including fulfilling associated pre-deployment requirements. Orders for members of the National Guard currently performing duties under 32 U.S.C. 502(f) will be terminated unless such duties are in support of excepted activities approved by the Secretary of Defense.

Movement of military personnel will be limited as follows:

- 1) Moves TO an excepted activity will continue.
- 2) Moves FROM an excepted activity will continue only to the extent the commander of the excepted activity determines it essential to mission (e.g., overburden of local infrastructure), or required to enhance support of excepted activities.
- 3) Accession and training moves associated with recruitment and initial entry training will continue, along with subsequent movement to first station when required by "1" above.
- 4) Movement to comply with separation instructions will continue.

### **Civilian Personnel**

Civilian personnel, including military technicians, who are not necessary to carry out or support excepted activities are to be furloughed. Only the minimum number of civilian employees necessary to carry out excepted activities will be exempt from furlough. Positions that provide direct support to excepted positions may also be deemed except if they are critical to performing the excepted activity. Determinations regarding the status of civilian positions will be made on a position by position basis, using the guidance in this document. Determinations shall be made for all positions, including those in the Senior Executive Service or equivalent, as well as those located overseas.

Following the expiration of appropriations, a minimum number of civilian employees may be retained as needed to execute an orderly suspension of non- excepted activities within a reasonable timeframe.

Senate-confirmed officials appointed by the President are not subject to furlough. Their immediate office personnel necessary to support excepted activities may be exempt from furlough at the discretion of the appointee.

Foreign national employees paid with host country funds are exempt from furlough. Additionally, foreign national employees governed by country-to-country agreements that prohibit furloughs are exempt from furlough.

Civilian personnel whose salaries are paid with expired appropriations and later reimbursed from a non-DoD source (e.g., the Foreign Military Sales Trust Fund) are not exempt from furlough solely on that basis. Personnel whose salaries are paid from a DoD appropriation or fund that has sufficient funding authority (e.g., multiyear appropriations with available balances from prior years) will not be subject to furlough. Heads of activities may, on their authority, require the return to work of civilian personnel in the event of developments (natural disasters, accidents, etc.) that pose an imminent danger to life or property.

### **Temporary Duty (TDY) Travel**

In the absence of appropriations, TDY travel scheduled to begin after the shutdown occurs should be cancelled, except as noted below. Any TDY travel that began prior to the shutdown should, except as noted below, be terminated as quickly as possible, but in an orderly fashion.

All TDY travel in direct support of the war in Afghanistan, the transition in Iraq, and operations in Libya and Japan, and other travel directly related to safety of life and protection of property, as well as foreign relations (e.g., negotiating international agreements), may be undertaken or continued only if approved, in writing, by the appropriate approval authority listed below and only in the most limited circumstances. The approval authority (which may be delegated to appropriate senior officials) for any such TDY travel is the:

- Secretary of a Military Department for personnel assigned to that Military Department
- Head of the agency for personnel assigned to that defense agency

- Chairman of the Joint Chiefs of Staff for personnel assigned to the Joint Staff
- Combatant Commander for personnel assigned to that combatant command
- Principal Staff Assistant (PSA) for personnel assigned to that office

Notwithstanding the approval authority stated above, all TDY travel by Presidential Appointed – Senate Confirmed (PAS) personnel must be approved by the Deputy Secretary of Defense.

Approving officials will implement a mechanism within their organizations for approving such travel.

### **Contracts**

Contractors performing under a contract that was fully obligated upon contract execution (or renewal) prior to the expiration of appropriations may continue to provide contract services, whether in support of excepted activities or not. However, new contracts (including contract renewals or extensions, issuance of task orders, exercise of options) may not be executed unless the contractor is supporting an excepted activity. No funds will be available to pay such new contractors until Congress appropriates additional funds.

The expiration of an appropriation does not require the termination of contracts (or issuance of stop work orders) funded by that appropriation unless a new obligation of funds is required under the contract and the contract is not required to support an excepted activity. In cases where new obligation is required and the contract is not required to support an excepted activity, the issuance of a stop work order or the termination of the contract will be required.

The Department may continue to enter into new contracts, or place task orders under existing contracts, to obtain supplies and services necessary to carry out or support excepted activities even though there are no available appropriations. It is emphasized that this authority is to be exercised only when determined to be necessary - where delay in contracting would endanger national security or create a risk to human life or property.

Additionally, when authorized by the Secretary of Defense, contracts for covered items may be entered into under the authority of the Feed and Forage Act.

**PROTECTION OF LIFE AND PROPERTY  
NATIONAL SECURITY**

## **Guidance on the Use of Government Information Technology During Government Shutdown**

### **Communication Devices.**

Components are to inform furloughed employees that they are not to perform official business using government issued mobile or non-mobile communication devices (e.g. cell phones, laptops, computers, blackberries).

### **Websites.**

Components should designate, and continue to operate, those websites essential to supporting excepted activities during the Government shutdown. All other websites should be left alive and include a banner stating "Due to the Government shutdown, this web site is not being updated."

### **Information Systems.**

Components should designate, and continue to operate, information systems essential to supporting excepted activities during the Government shutdown.
