C-IED Training Process

JTE C-IED training enables Battle Staffs with a process for attacking enemy IED networks:
-Analyze networks in-depth; collect, exploit, and template to ID enemy vulnerabilities (EAD)
-Plan and conduct multiple, near-simultaneous lethal and non-lethal attacks (F3)

TRAINING PROGRAM
Overview
AtN in the COIN Environment
AtN Concepts & Methods
CIED Enabler Integration
Indicators – Observations & Signatures
Network Templating – A Method
CIED/Counter-Threat Working Group
Targeting
Practical Exercise
