China -- PRC Military Commentators' Blogs

This report surveys 10 prominent PRC commentators on military affairs who appear to write blogs hosted on PRC and PRC-owned Hong Kong websites. All of these commentators appear to maintain an online presence using these blogs to promote their viewpoints. Commentators cover such topics as PRC military strategy, air defense, navy issues, army aviation, information technology, defense spending, foreign military developments, military-to-military relations, political education, military history, training, and exercises. These blogs appear on China's authoritative government websites, popular PRC commercial portal sites, and independent Hong Kong news websites.

Source Note

The military commentators discussed in this report have been selected based on one or more of the following factors: observed frequency of television appearances, number of articles written, position in top military academies, fields of study, and areas of expertise. Commentators are listed alphabetically. Blog order is based on view count. OSC is generally unable to verify the identity or location of posters or readers of these online blogs. Furthermore, OSC is unable to verify the extent of censorship or manipulation of online discussion. Statistical information has been provided, when available, directly from the respective blogs and may be false or incorrect. All data is current as of 10 June 2010.

Dai Xu 戴旭

*Military Strategist Dai Xu
(Xinhua)*

Dai Xu is a PLA Air Force colonel and columnist for *Huanqiu Shibao* -- a newspaper sponsored by party daily *Renmin Ribao* -- that focuses on international issues and foreign reaction to developments in the PRC. He appears to maintain blogs at People.com.cn, Caogen.com, Sina.com, China.com.cn, and Huanqiu.com.

Dai writes on a broad range of topics in popular and specialized military media and has been cited as an "Air Force strategist" in *Huanqiu Shibao* (20 August 2009).¹ He has advocated building the PRC into a maritime power to protect its overseas interests and has called for increasing the PRC's ability to develop "strategic industries"² related to national defense. Dai appears to be a critic of US efforts to achieve "space hegemony"³ and of what he portrays as Japanese militarism (29 March 2007, 27 February 2007).

Dai recently generated a minor controversy among Chinese military enthusiasts and others when he warned in *Guoji Zhanwang* -- a now defunct semimonthly journal published by the Shanghai Institute of International Studies -- that the debut of the US fighter F-22A gave the United States an even stronger asymmetrical advantage in conventional warfighting (15 October 2006).^{4 5}

养肥再杀：美国用经济迷魂药GDP暗算中国
2010-3-16 8:51:46

美国不仅仅是对中国构筑一个静态的“C”字型战略包围圈就完事。在冷战年代，美国对中国是硬围堵，对苏联是软绞杀；冷战结束后，美国对中、俄的大战略，正好反过来：美国对俄罗斯是硬围堵，对中国采取软绞杀。一是经济掏空，28个产业，控制了21个。这是最根本最省事的釜底抽薪。多少年来，当中国沉迷于GDP数字和外贸进出口额的时候，美国却一直在隐秘地……

3月1日的《参考消息》头版头条十分醒目：《美将中国列为潜在核打击对象》，是日本《每日新闻》从美国战略司令部搞到的最新情报。

我跟美国战略研究已经20年。自改革开放以来，中国对美国战略已作出重大调整。中国不与世界任何国家为敌，一心一意搞建设。但是，我发现，美国对战略只做了战术调整，在1979年到1989年期间，由于苏联是双方共同敌人的缘由，美国和中国的关系才表现得像一点正常国家关系。之后，就变得很不正常。只有在美国需要中国的时候，美国才给中国一点好脸色。联想到美国对中国敲竹杠的刁难、怀恨、折磨，可以看出，美国始终是以改造、控制、威胁直至肢解的战略，不管中国人如何表达自己的善意，只要中国不是美国政治附庸和经济

主要观点：

- 一、中国需要正确的战略定位。历史上，中国没有成为世界大国的意识，失去地理大发现的机会后，已没有成为世界大国的可能。现实中，周边强邻林立，注定中国只能成为地区大国。客观上，现在中国还没有真正成为地区大国的国际基础。中国人应该从不切实际的美国梦中清醒：亚洲往南发展。
- 二、国家发展需要顶层设计，要抓住技术立国、制造业强国的根本。在发展战略产品时，防止国防用军需。
- 三、崛起发展的地理产业，已成为国际强权和国内投机资本，联合打击中国人民财富的战争，必须从战略角度思考：房地产撑不了太

台湾防空识别区主权绝不能让给日本，2010年06/02日本防卫省遵照首相鸠山由纪夫指令，最近单方面篡改与那国岛的防空识别区，压缩中国台湾地区的战略空间。台湾有关当局斥为“片面决定，不能接受。”日本琉球群岛靠近台湾的与那国岛上空，东经一百廿三度有一条防空识别区界线，是二次大战后美军接管冲绳时期，设定为台湾与日本防空识别圈的交界，到冲绳被「交还」日本后数十年，还是沿用至今。台湾《联合报》近日报导，台“外交部”全在不顾及...

Zhang Zhaozhong 张召忠

Military Expert Zhang Zhaozhong
(sogou.com)

PLA Navy Rear Admiral Zhang is the director of the National Defense University Military Logistics and Equipment Department. Zhang appears to be one of China's most well-known television commentators on military topics. His reputation briefly suffered when he predicted immediate US defeat against a "People's War"-inspired Iraqi resistance (*Renmin Wang*, 18 April 2003).³⁵ When his predictions proved erroneous, CCTV dropped him as a military analyst in 2003. However, in 2006, he became the host of the CCTV-7 program "Defense Review Week." He appears to maintain blogs at People.com.cn, Ifeng.com, and Huanqiu.com.

Zhang has expressed support for the idea of China's adopting a "preemptive strike" strategy (CCTV-7, 27 August 2006).³⁶ He studied at the UK's Royal Military College of Science in 2001.
