Hi Deanna:

I am pleased to report that even with the tight timelines, We are on schedule!

- \*Issued letter of Interest on 11/20/13
- \*4 of the 5 Potential Vendors stated an interest to respond to RFP
- \*GTSI Corp (now UNICOM Government) Declined
- \*RFP Issued 11/25/13
- \*Proposals due to City 12/10/13
- \*Vendor Interviews 12/12/13
- \*Vendor Selection by 12/16/13

Pending:

- \*Council report and Reso preparation  
(Meeting with Ahsan 12/9/13 to discuss when he will submit report for January meeting)

Let me know if you need any additional information.

Thank you!!

Dear Ms. Lye:

Thank you for making clear your participation and position. We respect your position and understand that we would be working with you for input purposes only not for ACLU approval of the DAC or the Privacy policy. I also appreciated the information and links you provided Oakland to review.

We are currently utilizing the Fair Information Practice Principles as a minimum baseline for the foundation of the Oakland Privacy Policy.

We will also complete the Privacy Threshold Analysis document and submit to the Department of Homeland Security.

We would like to meet with you the morning of December 11<sup>th</sup>.

Please let us know the most convenient time for your schedule and that of Mr. Higgins for the morning of December 11<sup>th</sup>, 2013, and where you would like to meet with us.

Respectfully submitted,

Renee Domingo

**Subject:** RE: Invitation to attend City of Oakland Working Group meeting on Friday 11/15/13 at 1 pm-Building Bridges Room

Dear Ms. Domingo,

Apologies for the delayed response. I want to be clear that if the ACLU participates in any meetings, we would not be "co-creating" the privacy policy. We had strenuous objections to the approval of the DAC and grave concerns that the kind of warrantless mass surveillance enabled by the DAC is highly problematic. Thus, any input we provide should not be described by the City as reflecting any kind of ACLU approval of the DAC or any proposed privacy policy.

Before proceeding any further, the City should conduct a privacy impact assessment on the DAC. While we do not endorse per se the approach of the Department of Homeland Security, I recommend you review materials they have prepared on privacy impact assessments. <https://www.dhs.gov/privacy-compliance>

To the extent you have not done so already, you should consider the Fair Information Practice Principles and incorporate those principles into any Oakland DAC policy. [http://www.dhs.gov/xlibrary/assets/privacy/privacy\\_policyguide\\_2008-01.pdf](http://www.dhs.gov/xlibrary/assets/privacy/privacy_policyguide_2008-01.pdf)

I would have time to meet the morning of December 10 or 11, subject to the caveat I noted in the first paragraph of this email.

Regards, Linda

Hi Ms. Lye and Mr. Parker:

I am following up with you on my email of November 18th requesting some dates and times that you are available the week of December 9th.

Please let me know at your earliest convenience some dates and time for the week and where would be most convenient for us to meet with you to begin to co-create the Oakland Privacy Policy.

I hope to hear from you soon.

Thank you in advance for your time and expertise.

Best regards,

**Subject:** Re: Invitation to attend City of Oakland Working Group meeting on Friday 11/15/13 at 1 pm-Building Bridges Room

Hi Linda:

Welcome Back! We would like schedule a meeting the week of December 9th with you and Parker Higgins.

Please provide a few dates and times for that week for us to meet and also if you wouldn't mind coming to the City of Oakland for our first planning meeting.

As we previously stated, we would like to work with you and Mr Higgins on developing the Oakland Privacy Policy for the DAC Video and Data Retention and we also envision a 30-60 day public review process to include community, residents and any other stakeholders that would like to weigh in on the draft policy before we go to City Council in late March 2014. So, that said we have an aggressive timeline to come up with a draft policy and have it reviewed and commented on by the Public.

On behalf of the City of Oakland, we look forward to working with you, the ACLU and Parker Higgins on behalf of the Electronic Frontier Foundation.

I will await some dates and times for the week of December 9, 2013.

Best Regards,

Renee Domingo

**Subject:** Invitation to attend City of Oakland Working Group meeting on Friday 11/15/13 at 1 pm-Building Bridges Room

**Importance:** High

Dear Ms. Lye:

The City of Oakland has formed a internal working group to develop the Oakland DAC Privacy Policy for Data and Video Retention.

We would like to invite you to our upcoming Friday, 11/15/13, Working group meeting that will be from 1 to 2 pm in City Hall at the Building Bridges Conference room.

We would very much appreciate your time and expertise as we move forward in developing the Oakland DAC Privacy Policy to ensure we meet the needs and requirements of privacy of all of our community members related to the Oakland DAC and the cameras installed in public places that have been installed by numerous organizations in the City of Oakland, CA that will be sharing their feeds with the DAC.

If this time is not convenient for your schedule, please also propose a few dates and times, so that we can arrange a meeting with you and any other Privacy experts that you recommend should be at the table to discuss this matter and develop a Privacy Policy that serves as a best practice for DACs.

We look forward to meeting with you soon.

Sincerely,

Renee A. Domingo  
Director, Emergency Services and Homeland Security

Ahsan/Chris:

I hope you both are doing well.

Attached please find our current list of questions.

Note that we may have additional questions before 4pm today but per Chris' request we wanted to get you what we had ASAP.

You'll see in my letter that I am requesting answers be distributed as soon as they are answered as opposed to the exact City deadline on Friday. We'd answers in a stream so we can continue to work as expeditiously as possible.

Thank you,

Steve

**Subject:** RE: DAC Storage Capacity (& other) Public Records Request

Annie,

There are a lot of questions in there, but let me make the assumption that my area is restricted to the technical ones. I'm under the assumption that all of our technical data should be considered PCII or SSI which is "For Official Use Only" (FOUO) in DHS terms. Please see the attached DHS directive 110421:

“(g)

DHS information technology (IT) internal systems data revealing infrastructure used for servers, desktops, and networks; applications name, version and release; switching, router, and gateway information; interconnections and access methods; mission or business use/need. Examples of information are systems inventories and enterprise architecture models. Information pertaining to national security systems and eligible for classification under Executive Order 12958, as amended, will be classified as appropriate.”

RE: Public Records Act Request

Attention Public Records Officer(s),

Pursuant to my rights under the California Public Records Act (Government Code Section 6250 et seq.), I ask to (inspect/obtain copies of) the following, which I understand to be held by your agency/department:

I am requesting **any and all files/documents** (digital and/or paper hard copy) from the City of Oakland, Port of Oakland and/or Oakland Police/Fire Departments that pertain to the storage capacity of the Joint Domain Awareness Center, and that fulfill all other listed questions/requests:

-----  
To date (via invoices found here: <http://publicintelligence.net/oakland-dac-invoices/>) over 300 Terabytes of total hard drive storage space has been determined/identified.

01. What is the intended justification/purpose of such a high-storage capacity? How were the storage capacity needs determined? (current or planned)

02. What is the compression method of stored video? (current or planned)

03. What is the intended and/or exact physical location of this storage? (current or planned)

-----

04. By any United States Federal Agency/Department/Organization (or State of California Agency/Department/Organization) request and/or under the auspices of "National Security" and/or "criminal nexus" information sharing: What percentage of video data/storage is available from the City/Port of Oakland to these Agencies/Departments/Organizations directly (or by proxy via any other entity/personnel/procedure/accessibility)?

05. To what specific degree is any information (video or any other interoperable data) available to the Northern California Regional Intelligence Center (NRIC)? What is official procedure for such a request? What oversight governs such a request? What are the penalties for improper requests and/or access?

06. Is any information/data that is available and/or acquired by the Northern California Regional Intelligence Center (NRIC) also available to the U.S. DHS network of Fusion Centers (such as from the list found here: <https://www.dhs.gov/fusion-center-locations-and-contact-information>)?

07. Is the City/Port of Oakland Joint Domain Awareness Center considered to be, or has their been any discussion of it being labeled/identified/qualified as a "Fusion Center" for any purposes? (example: further Federal grant funding qualification)

08. Please supply a complete map (and/or complete and specific comprehensive information) from which the DAC will receive and/or feed any and all data in regard to public and/or private fiber networks plus 4G LTE wireless networks (existing or planned.)

09. Does the term "video analytics" include Facial Recognition and/or other biometric modalities?

10. Currently or in any future possibility/planning does the DAC intend or plan to incorporate Facial Recognition capability? Has this been discussed by any staff/personnel/employees of the City of Oakland and/or Oakland Police/Fire Department. If so what is the repository of Facial Recognition data (or other biometric data) from which this data will be compared to and/or utilized for identification purposes?

11. Has Renee Domingo engaged in any meeting or communications with any member (or staff) of the U.S. National Security Council in Washington DC regarding the DAC, capabilities of the DAC and/or BayRICS, FirstNet or BayWEB? Please provide me with any information and/or reports from any meetings Renee Domingo has conducted in Washington DC within the last three years.

12. Is the DAC a "high visibility" project with any legislators in Washington DC? If so please list name and agencies.

13. In regard to the HUD Grant to the Oakland Housing Authority for "security cameras, lighting, network video records and related items" (<http://www.gsnmagazine.com/node/28778>): is this system now connected to planned/intended to be connected to the DAC?

14. Specifically what defense mechanisms are in place to monitor or deter "tapping" of fiber optics (current or planned) that play any role in the operations of the DAC.

15. Please provide all emails to/from Bay Area USAI and the City/Port of Oakland (including Oakland Fire/Police Department) in regard to the DAC (most importantly to and from Renee Domingo).

16. Does SysAid (headquartered in Airpot City, Israel) have the ability to remotely connect and operate workstations within the DAC and/or servers within the DAC?

17. Please provide any and all communications (emails) in regard to the DAC that include communications to/from any members of the U.S. Intelligence Community (as listed here: <http://www.dni.gov/index.php/intelligence-community/members-of-the-ic>).

18. Is the City of Oakland cognizant that Palantir Technologies (<http://www.palantir.com>) and Socrata (<http://www.socrata.com>) are both companies that have received funding from IN-Q-TEL ("a not-for-profit venture capital firm that invests in high-tech companies for the sole purpose of keeping the Central Intelligence Agency, and other intelligence agencies, equipped with the latest in information technology in support of United States intelligence capability.")

– See here: <http://en.wikipedia.org/wiki/In-Q-Tel>

– See here: <http://www.forbes.com/sites/andygreenberg/2013/08/14/agent-of-intelligence-how-a-deviant-philosopher-built-palantir-a-cia-funded-data-mining-juggernaut/>

– See here: <http://rt.com/usa/palantir-fundraise-million-sec-546/>

– See here: <http://www.socrata.com/newsroom-article/socrata-announces-strategic-investment-from-in-q-tel/>

---

I ask for a determination on this request within 10 days, and an even prompter reply if you can make that determination without having to review the records in question.

If you determine that some but not all of the information is exempt from disclosure and that you intend to withhold it, I ask that you redact it for the time being and make the rest available as requested.

In any event, please provide a notification citing the legal authorities on which you rely if you determine that any or all of the information is exempt and will not be disclosed.

If I can provide any clarification that will help expedite your attention to my request, please contact me. I ask that you notify me of any duplication costs exceeding \$20 before you duplicate the records so that I may decide which records I want copied.

Thank you for your time and attention to this matter.

Sincerely,

Joshua Smith

**Subject:** media inquiry - Domain Awareness Center

Hi Mr. Baig –

I'm a business and technology reporter covering Silicon Valley. I'd like to interview you for a story in Al Jazeera America (possibly KQED/NPR too) about the Domain Awareness Center. Deadline: December 3rd (tho I'm also working through this week).

I was at the city council hearing last week, and it seems like critics had some misinformation and raised questions about how the data center will work. I'd like you to explain things like:

- \* What public safety/law enforcement agencies are collaborating in this effort?
- \* What data feeds will go into the center?
- \* How many staff will man the center and what's the division of labor? Mostly data analysts? Mostly from a specific company or agency?
- \* How will the DAC improve public safety? A few examples.

\* What are the privacy protections for citizens?

This interview would be in-person for about 20-30 minutes. Please let me know if we may arrange a time. I'm flexible.

Best,

Aarti

Dear Ms. Domingo,

Apologies for the delayed response. I want to be clear that if the ACLU participates in any meetings, we would not be "co-creating" the privacy policy. We had strenuous objections to the approval of the DAC and grave concerns that the kind of warrantless mass surveillance enabled by the DAC is highly problematic. Thus, any input we provide should not be described by the City as reflecting any kind of ACLU approval of the DAC or any proposed privacy policy.

Before proceeding any further, the City should conduct a privacy impact assessment on the DAC. While we do not endorse per se the approach of the Department of Homeland Security, I recommend you review materials they have prepared on privacy impact assessments. <https://www.dhs.gov/privacy-compliance>

To the extent you have not done so already, you should consider the Fair Information Practice Principles and incorporate those principles into any Oakland DAC policy. [http://www.dhs.gov/xlibrary/assets/privacy/privacy\\_policyguide\\_2008-01.pdf](http://www.dhs.gov/xlibrary/assets/privacy/privacy_policyguide_2008-01.pdf)

I would have time to meet the morning of December 10 or 11, subject to the caveat I noted in the first paragraph of this email.

Regards, Linda

Hi Ms. Lye and Mr. Parker:

I am following up with you on my email of November 18th requesting some dates and times that you are available the week of December 9th.

Please let me know at your earliest convenience some dates and time for the week and where would be most convenient for us to meet with you to begin to co-create the Oakland Privacy Policy.

I hope to hear from you soon.

Thank you in advance for your time and expertise.

Best regards,

Renee Domingo

**Subject:** Re: Invitation to attend City of Oakland Working Group meeting on Friday 11/15/13 at 1 pm-Building Bridges Room

Hi Linda:

Welcome Back! We would like schedule a meeting the week of December 9th with you and Parker Higgins.

Please provide a few dates and times for that week for us to meet and also if you wouldn't mind coming to the City of Oakland for our first planning meeting.

As we previously stated, we would like to work with you and Mr Higgins on developing the Oakland Privacy Policy for the DAC Video and Data Retention and we also envision a 30-60 day public review process to include community, residents and any other stakeholders that would like to weigh in on the draft policy before we go to City Council in late March 2014. So, that said we have an aggressive timeline to come up with a draft policy and have it reviewed and commented on by the Public.

On behalf of the City of Oakland, we look forward to working with you, the ACLU and Parker Higgins on behalf of the Electronic Frontier Foundation.

I will await some dates and times for the week of December 9, 2013.

Best Regards,

Renee Domingo

**Subject:** Invitation to attend City of Oakland Working Group meeting on Friday 11/15/13 at 1 pm-Building Bridges Room

**Importance:** High

Dear Ms. Lye:

The City of Oakland has formed a internal working group to develop the Oakland DAC Privacy Policy for Data and Video Retention.

We would like to invite you to our upcoming Friday, 11/15/13, Working group meeting that will be from 1 to 2 pm in City Hall at the Building Bridges Conference room.

We would very much appreciate your time and expertise as we move forward in developing the Oakland DAC Privacy Policy to ensure we meet the needs and requirements of privacy of all of our community members related to the Oakland DAC and the cameras installed in public places that have been installed by numerous organizations in the City of Oakland, CA that will be sharing their feeds with the DAC.

If this time is not convenient for your schedule, please also propose a few dates and times, so that we can arrange a meeting with you and any other Privacy experts that you recommend should be at the table to discuss this matter and develop a Privacy Policy that serves as a best practice for DACs.

We look forward to meeting with you soon.

Sincerely,

Renee A. Domingo

Director, Emergency Services and Homeland Security

Renee and Ahsan,  
KALW is a public radio station. In the past they have been fair in their coverage. I think it would be good to give them a tour and demo as we've discussed, in addition to a sit-down interview with you and Ahsan. Should we reach out to the Port to participate, too?  
What is your availability next week?

Karen

**From:** Kristina Loring [<mailto:kristinaloring@gmail.com>]  
**Sent:** Monday, November 25, 2013 1:02 PM  
**To:** Boyd, Karen  
**Subject:** KALW feature on the DAC

Hi Karen,

I just left you a voicemail. I'm a reporter and producer for KALW, one of San Francisco's NPR stations and I'm doing a story on the Domain Awareness Center for our award-winning nightly news and culture show, Crosscurrents.

I'd love to interview Renee Domingo and anyone else involved in the planning for this to understand why it is being built, how it could possibly help first responders, survey the city, etc.

I'd also love to get 'tour' or access to the building to understand how it functions - this would be most compelling for the style of features that we do.

Could we set something up for early December?

I look forward to hearing from you,

Kristina

Hi all,

Matt has asked the following questions. Who is the best point person to speak to the compliance process issues? City Attorney's Office?

I was hoping I could talk to someone for more clarity about the city's nuclear free zone ordinance. Since the Express is dumping info showing that Motorola has nuclear contracts, I'm wondering if the city will have to approve some sort of exemption for existing Motorola contracts.

I'm trying to get a sense about the contracting requirements and I'm also hoping to find out how many contracts the city has with Motorola that could be affected.

**Subject:** Re: Darwin Bondgrahan, East Bay Express - 504-322-3409

I will call Mr. Bondgraham when I get back into EMSD offices today.

Please as I instructed you re: Art Matz when he called a week or so ago, when the Media calls in the future, let them know that the City's Official Spokesperson is the City PIO which is Karen Boyd.

Please provide them with her name, phone number and email. At this time, I have not been given the authority to talk with them directly on this matter. It is a case by case.

Also, let me know when they call so I can inform Karen too.

Thanks.

Here is the revised version, for one final review.  
We need to get it out today, and I have asked Deb to sign the letter.

These are the five emails I have; Eric needs to confirm it:

Motorola - Gordon Poole - [gordon.poole@motorolasolutions.com](mailto:gordon.poole@motorolasolutions.com)  
GTSI - Stan Barnes - [Stan.Barnes@gtsi.com](mailto:Stan.Barnes@gtsi.com)  
G4S - Vince Vorster - [vince.vorster@usa.g4s.com](mailto:vince.vorster@usa.g4s.com)  
Schneider Electric - Steve Reinharz - [Steve.Reinharz@schneider-electric.com](mailto:Steve.Reinharz@schneider-electric.com)  
SAIC – Scott Handley – [scott.handley@saic.com](mailto:scott.handley@saic.com).

We may need to call them individually, to make sure that they have received the letters. We can get on a conf. call, if needed.

Thanks,  
-ahsan

**Sent:** Mon Nov 18 15:13:37 2013  
**Subject:** DAC PM Call 11-18-2013 5pm

Renee, Ahsan,  
Proposed agenda items for today's call, plus any items you need to add:

1. SOW status – Eric N and myself are processing via the notes from Friday's meeting
2. Any schedule updates since last week?
3. VidSys – I spoke with Kyle, next step is to reach out with our plans so that he can communicate with vendors.
4. EOC Computer Quote – Renee, if you have time, I'd like to go over the discussions I had with DIT and Cathey
5. DAC Phase 1 Deliverables versus actual delivered– Renee, you asked me to take another look at this. Now that the SOW is almost out of the way, I have the resources to circle back on this. Let me know if we still need this, and in what format you need it (full report, informal notes).

Regards,

**Chris Millar**

**Subject:** RE: DAC Coordination Meeting  
**Importance:** High

Hi Mike:

Can you provide a call in number for the meeting this Friday? I will call in as I have a meeting in the morning from 8 am to 9 pm so I will be a few minutes late calling in.

Thanks

-----Original Appointment-----

**From:** Michael O'Brien [<mailto:mobrien@portoakland.com>]  
**Sent:** Wednesday, October 02, 2013 10:44 AM  
**To:** Michael O'Brien; Domingo, Renee; Eide, Cathey; Baig, Ahsan; Breshears, Eric; Eric Napralla; White, Darin; Chris Millar  
**Subject:** DAC Coordination Meeting  
**When:** Friday, November 22, 2013 9:00 AM-10:30 AM (GMT-08:00) Pacific Time (US & Canada).  
**Where:** Port Bldg, 530 Water Street, 6th Floor Conf Rm

All, please respond to this request to get it on your calendar. We have lots of issues to work through over the next year to bring the DAC online.

Hi Renee,

I am open for any Demo and/or presentation, but it needs to be well structured and developed. We will have staff available for any technical assistance you need.

I think we have the August Demo, but I will confirm it with Chris tomorrow.

Thanks,  
-ahsan

Hi Ahsan:

Jake Nicol and I had a lengthy discussion following the PSC tonight. I just wrapped up our discussion.

He stated he wanted to write a story on the DAC to help "balance" and correct some of the misconceptions of the project.

He said he had spoken to you recently about the project.

As we had discussed previously regarding putting a the demo together for City Council/Port Board members, can your staff do this working with VidSys OR do they have access to the August demo we did where we showed 6-8 scenarios that were canned presentations from VidSys??

I believe would be good to do this demo for Media, as well as the Public so they can visualize the totality of the system and how the focus is Port critical infrastructure and all hazards emergency response. We could do it at City Hall in one of the Hearing rooms.

This would hopefully diffuse some of the opposition due to misconceptions of the system's current capabilities.

Let me know if this is feasible and any other thoughts.

Also, an input from the cc's would be greatly appreciated.

Thanks much!!

**Importance:** High

Hi Rebecca:

Thank you for the information in your email.

As we previously discussed, I recommend from this point forward we let requestors know that there is a 10 cents per copy charge. If it is a future DAC request for Phase I or Phase 1 and 2, we can let them know there is in excess of 4500 pages or copies, so they will have an idea of the cost. As previously stated, it is in the master fee schedule and customary for City Departments/Agencies to charge this fee related to PRRs. This was the guidance provided by Arletta Flores-Medina, the City's PRR Coordinator.

**Cc:** Deloach Reed, Teresa; Perkins, Cynthia; Wiseman, Dara  
**Subject:** RE: Public Records Requests / PRR 840 - Susan Mernit - DAC - charging for copies

I posted a note yesterday that there was a large volume of documents available for pick up. Today, I directed Ms. Mernit to seek Port documents directly from the Port, and closed the request. So she got the notice yesterday that we had documents ready. They are still sitting here. There was just enough room in the box for Annie's folder.

Annie To said that we shouldn't charge requestors unless we notify them upfront. We have not been doing that. I am uncertain about the procedure (I need to create a template) -- I had no idea there would be this many documents.

At a meeting of coordinators, we discussed the strategy that when there is a large request (and you /other staff would best know just how large the records are anticipated to be), we should contact requestors to discuss if there is any way they can "narrow" their request. The other strategy is to inform them upfront that we are charging them, and give them an estimate; sometimes this makes them re-adjust or limit their request.

We were able to dodge an Urban Shield request completely because the requestor actually didn't want anything from the Fire Dept. even though we got the request (it was forwarded from the city clerk with no previous discussion). We didn't know that until Chief Hoffmann called her. In future, let's strategize a bit more upfront. I will check with other coordinators to see what their "bills" look like. And we can pick a start date for billing requestors.

Cc: To, Annie; Perkins, Cynthia  
Subject: Public Records Requests  
Importance: High

Hi Rebecca:

For future reference, the City PRR Coordinator, recommended that when you have a PRR request and have a portion of the documents such as the emails in this case, you should have notified the requestor yesterday that the majority of the records were available for pick up on the due date.

Then, you can let them know that there are a few more documents coming.

Also, we should be charging the 10 cents per page as this is what is in the master fee schedule.

I think we need to charge the latest requestor or then we set a precedence of not charging when DIT and other City departments are charging for large volumes of requests.

This latest request we ran over 4500 sheets of paper or pages for this one request. At 10 cents per page this is \$450.00 which helps us recoperate the costs of paper and copier use.

Please let me know if you plan to charge her for this request.

Team,

Per Renee request, we could simultaneously FedEx the letters, email and call the vendors, and have them fax back intent documents which should take two business days. After intent is confirmed, we would pre-schedule interviews for after proposal deadline. I've adjust the dates below:

### Development of Supplemental Proposal Package ( (1) Letters of Intent, (2) DAC Phase 1 Implementation Information, (3) DAC Phase 2 Scope of Work, and (4) Supplemental Proposal Instructions/Guidelines)

- 1) Draft Supplemental Proposal Package Issued (Project Team and City Departments): Wed, 11/13
- 2) Project Team and City Departments Review: Fri, 11/15
- 3) Final Supplemental Proposal Package (Items 2-4) Ready for Release: Mon, 11/25

### Supplemental Proposal Schedule

- 1) Letters of Intent Issued by City: Wed, 11/20
- 2) Respondents respond to Letters of Intent: Fri, 11/22
- 3) Respondents obtain Supplemental Proposal Package (Items 2-4): Mon, 11/25
- 4) Supplemental Proposals Due: Tue, 12/10
- 5) Supplemental Proposal Interviews: Wed, 12/11
- 6) City/Port Selection: Thu, 12/19
- 7) Execution of Agreement: January 2013
- 8) DAC Phase 2 Work Begins: February 1, 2013

**Subject:** Re: Motorola re DAC

Thanks all. Let's shorten the letter of intent time line. Let's do it via email.

Also, Ahsan let's get our time line to Celso asap under separate email with cc to the City Administrator and let him know we need a final approved Contract by the end of January so we can start work in February 2014.

We will most likely have to go back to Council on January 7th for their approval of the selected vendor with our due diligence completed.

Please include Cathey Eide in the RFP meetings and panel for EMSD. I plan to be away on vacation in December beginning 12/16-12/26.

Thanks

All,

Some of you are aware that at the next Public Safety Committee meeting on 11/12/13, the committee will hear a draft resolution relating to DAC Phase 2. That resolution focuses on council approval to rebid for the contractor who will perform the work for Phase 2 and does not mention the data and retention policy for DAC.

However, I wanted to alert you that Council may ask about the status of the policy and someone should be prepared to report on the status.

Thanks and have a good week end,

Amadis--

Hi Joe:

Our decision related to data and video storage from a grant perspective is strictly our call.

I also have a conference call with the Port staff we are working with on Wednesday to let them know where we are with our policy and they are fine if we decide not to store data and video unless there is a DAC generated incident.

The Port is working on their policy and should have a draft within 30 days.

See you next Friday!

Have a great Veteran's day weekend.

**Cc:** Sanchez, Arturo M; Domingo, Renee; Breshears, Eric  
**Sent:** Fri Nov 08 11:01:35 2013  
**Subject:** RE: DAC Privacy Policy...

Ahsan,

Your timing is impeccable; I was beginning to draft an email to you, Renee, and DC Breshears regarding the privacy policy this morning but decided to go get a breakfast burrito first. Now that I ate, here is an update you can provide and some important questions we need answered in order to move a policy forward:

The Working Group has reviewed the ACLU concerns regarding the DAC and wants to develop a policy that addresses the 8 points they delineated in their letter to the City Council in July. We have studied recommendations made by the Department of Justice regarding surveillance as well as recommendations made by the Constitutional Law Project for Fusion Centers which are similar in scope to the DAC although not identical. We have also been in the process of gathering information on our partnering agencies' privacy and data storage policies.

### Key Points:

The cost of retaining and storing ANY data is prohibitive and the cost of fulfilling an information request seeking video footage from the DAC could be crippling to staff. One information request about Occupy Oakland alone has taken close to a year to process and therefore records management staff in the City Clerk's Office, City Attorney's Offices, and OPD are extremely reluctant to store anything for fear of the impact on their day to day work. This staff concern has a real and incalculable cost associated with it that is the biggest concern for staff.

**Therefore, the Working Group's first recommendation is that no surveillance footage be stored unless there is an incident identified by DAC monitors or that any storage of footage is for a very limited period of time such as one week.** This avoids the cost of massive amounts of storage and public information requests that will be impossible to fill. The downside is if a major crime takes place and OPD feels that surveillance footage from a particular camera may help solve the crime; that footage will disappear quickly. This would mean that CID would need to develop an internal policy around retrieving data in a timely manner. **I need DC Breshears to weigh in on this policy recommendation from an investigative standpoint.**

**I also need Renee to verify that this won't violate the terms of the grant.** If the City claimed in the grant application that it would retain data for longer periods or that the data would be retained for investigative purposes (when there is no identified incident) then we may need to modify this policy recommendation.

If OPD feel strongly that a longer data storage window be created then we would still want to limit it to a month and will need to really evaluate the potential cost of having to fulfill a records request. Regardless, I would like to include an estimated cost associated with an "average" request if such a thing exists and have asked the records people to try to come up with some rough numbers.

**The City should not attempt to modify the data policies of any partnering agencies, nor should we retain those agencies' data for the sake of uniformity.** It does not seem wise to suggest altering what the Port's policies are or BART's, Caltrans, etc. as they have their own policies and we would recommend that they keep their own data. In other words, the DAC should not "own" any data collected by other agencies unless there has been an identified incident that has been captured on video.

**The DAC should only be monitored by City (public) Employees:** Renee informed me that the port wanted to use a private contractor to monitor the system but I think this will lead to huge opposition as private contractors are not held to the same standards as public employees. Politically this would be an insurmountable obstacle in my opinion.

**We need some data on the costs associated with data storage:** Ahsan, I need you to provide some technical information so we can draft a thorough policy recommendation. This would include cost estimates for the storage.

Last, I had an informal conversation with a friend that happens to be very involved with the ACLU and indeed the data storage aspect of all of this is their biggest concern. I feel strongly that if we don't store useless data we can implement this system without overwhelming opposition.

We meet again next Friday and I really need to have everyone there to move forward. The last two meetings have been poorly attended which has slowed our work considerably.

I hope this update is helpful.

**Subject:** DAC Phase 2 Action Plans

Renee,

Currently we still have these items in the Phase 2 SOW to go out to vendors. It the plan still to contract separately, should I pull this section out?

### 1.1 PSIM SITUATION, ACTION PLAN, AND PSIM WORKFLOW DEVELOPMENT

- 1) Port of Oakland PSIM Situation and Action Plan Development: The Concept of Operations (CONOPS) Document contains 14 existing situations and action plans relevant to the Port of Oakland. In consultation with City/Port Staff, develop 11 additional situations and actions plans that are to be incorporated into the CONOPS.
- 2) Port of Oakland PSIM Workflow Development: In PSIM, develop and implement end user (security operator) workflows based on the 25 situations and action plans in the revised CONOPS.

Regards,

Hi Debbie:

I will certainly attend as many meetings as my meeting schedule and workload permits.

I noticed we have a meeting for Friday afternoon and I am at an all day conference re: the Rockefeller 100 Resilient Cities Challenge initiative that Oakland is a part of and I am representing Oakland, so I will not likely be at that meeting.

I could call in if there are conference calling capabilities.

I am good for the meeting on Tuesday.

Thanks much for the follow up so we are all on the same page.

**Subject:** Final Demand-Contract between SAIC and City of Oakland for DAC-Phase I- Punch List of Items Paid for and Still Not Delivered to date  
**Importance:** High

Dear Ron:

Thank you for your phone call of Friday afternoon, 10/18/13, regarding the City of Oakland DAC project Phase II.

As I stated we are awaiting the official determination concerning SAIC's status related to the compliance of the City of Oakland Nuclear Free Zone (NFZ) which is a requirement for contracting with the City of Oakland, CA.

Our Contract Compliance Manager and City Attorney are preparing an official response related to the matter that should be issued this week and sent to you shortly thereafter.

As we also discussed, I stated I would be sending you the Punch list of items that we have still not received and that SAIC had agreed to provide to the City on a conference call that we had with you, Mark, Scott and Taso on September 23, 2013, at 8 am PST. You specifically agreed to provide all systems documentation and Licensing information that the City of Oakland has paid for to date for Phase I.

Attached is a detailed one page list of the items that are still required as a minimum, of SAIC for you to fully fulfill your contract obligation to the City of Oakland, CA. These items are tied to Licenses and equipment that the City paid SAIC for as part of the Phase I contract.

I respectfully request that SAIC submit the remaining items on the list attached in totality to the City of Oakland, CA via Ahsan Baig with copies to me, no later than 10 days from the date of this email, which would be October 31, 2013.

I thank you in advance for your immediate attention in this matter and I trust that you as a representative of SAIC, will act accordingly to provide the City of Oakland, CA with the documentation and licensing information required for the equipment and licenses purchased by the City of Oakland for Phase I of the DAC.

Respectfully submitted,

Renee A. Domingo

Hi Osborn:

Wanted to let you know we received the PSGP ARRA Grant Reimbursement from the Port of Oakland this afternoon.

We have a check that will be hand carried over to Fire Admin tomorrow for deposit in the amount of \$2,726,769.

Thank you, your staff, DIT staff, Fire Admin staff and the EMSD staff that made this happen under a difficult timeline and circumstances.

Excellent team work!

Thanks all ☺

**Importance:** High

Hi Osborne:

See email below as an FYI.

As we discussed a few minutes ago, I followed up this week with the Port of Oakland on the Port Security Grant- ARRA DAC Project Reimbursement request we submitted in late September 2013.

We should be receiving a check from the Port of Oakland for the \$2,726,769.00 early next week.

We will then await the disposition on the \$51,094.06 payment still due to the City that we should hopefully receive no later than the end of November 2013.

Eileen and/or Denise will be sending you copies of the reimbursement requests as PDF files for the PSGP today. The files are large so I hope they don't shut down your email.

Thanks.

**Sent:** Wed Oct 16 16:46:08 2013  
**Subject:** DAC ARRA Reimbursement

Hi Renee –

As you know, FEMA/DHS gave the Port a hard deadline of 9/26/13 to submit any/all reimbursement requests that were to be funded via the ARRA grant. On 9/26/13, the Port was not certain whether or not the City would submit a final reimbursement request prior to this deadline; specifically, the amount in question was the \$51,094.06 payment to SAIC. Therefore, the Port submitted a request early in the day on 9/26/13 in the amount of \$4,004,089.80; \$2,726,769.00 of which was for DAC related costs. Later in the day when the Port received the reimbursement request from the City in the amount of \$51,094.06, the Port submitted an additional reimbursement request to FEMA/DHS for such amount.

To date, the Port has received the \$4,004,089.80. However, we still have not received the \$51,094.06. Due to the federal government shutdown, we cannot troubleshoot this from our end as Kevin Groves, our grant manager, is on furlough.

Ideally, we wanted to reimburse the City for the entire amount with a single check. Since I am out of the office for the next week, I submitted a check request today and imagine you'll see a check for the \$2,726,769.00 early next week. The Port will be following up with Kevin Groves once he is back in the office and off furlough.

Please let us know if you have any questions. For your reference, I've also attached a spreadsheet that gives a breakdown of the invoices/amounts/etc. per Port ARRA Reimbursement Request.

**Subject:** RE: DAC Privacy and Data Retention Policy Working Group Meeting [IWOV-imanager.FID136731]

Joe,

As I mentioned on my message to you yesterday, I have found no model policies for a DAC like Oakland's; that is a fusion center type operation where the focus is a hybrid of port security and crime detection. My understanding is that these operations are usually strictly focused towards port security or crime detection but not a hybrid.

None the less, there are some helpful policy materials floating about. See below for a link to a report on recommendations for "Recommendations for Fusion Centers" that was issued by the Constitution Project. Starting on page 24 there are specific recommendations for issues that the DAC policy can incorporate.

<http://constitutionproject.org/pdf/fusioncenterreport.pdf>

Also, attached is a document from the Northern California Regional Intelligence Center (NCRIC) that assesses the Automated License Plate Reader Technology Program and on page 5, has basic policy language on that program.

Finally, check out the following link from DHS for a report that provides helpful best practices for closed circuit TV monitoring:

[http://www.dhs.gov/xlibrary/assets/privacy/privacy\\_rpt\\_cctv\\_2007.pdf](http://www.dhs.gov/xlibrary/assets/privacy/privacy_rpt_cctv_2007.pdf)

I will have suggestions for how to start the policy writing at our meeting.

Thanks,

Amadis

**Subject:** DAC Privacy and Data Retention Policy Working Group Meeting

Hi Folks, sorry for the multiple meeting changes, there were key people who could not attend before 1pm on Friday which is why I moved it again. In an effort to make us more efficient, I would like to have any materials people have gathered sent to me to distribute to the group by tomorrow so we can review it before we meet. That includes any data storage policies from the Port, OPD, the City Clerk, and any information Amadis have been able to gather around privacy policies elsewhere.

On Friday we need to begin drafting a framework of a policy that will satisfy the City Council and avoid a lawsuit from the ACLU, my two personal goals for this group.

Thanks and I look forward to receiving whatever you have!

**Joe DeVries**

Renee, Team,  
Just checking back to see if the letter went out yet?

I would like to start engaging VidSys as soon as possible.

Thank you!

Regards,

**Chris Millar**

Hi Chris:

Letter to SAIC has not gone out yet.

Awaiting City Attorney review and comments.

Hopefully today or tomorrow.

Renee, Ahsan,

Just checking in, do we know if the SAIC letter has gone out, and if so, what our schedule is for sending the vendor letters?

Regards,

**Subject:** DAC Consultants

Renee,  
For two of the items in the DAC Phase 2 SOW, we are looking to outside consultants to provide the services. You mentioned that you have two possible names for these roles, could you please send me their contact info?

### 1.1 ACTION PLANS/WORK FLOWS

Consultant to develop with OFD and OPD staff to develop action plans and work flows applicable to the staff duties.  
Consultant to work with DAC developer to integrate these work flows into the DAC software.

### 1.2 DAC PR MATERIALS/PUBLIC INFO KIT

PR Consultant to create public relations packages and public information kits for EOC/DAC customized to the relative audience.

Regards,

**Chris Millar**
