

SITUATION REPORT (SITREP) Funeral for LaVoy Finicum

Release: 03 February 2016

(U//FOUO) NOTE: *SIAC SITREPs provide situational awareness on a rapidly developing event to law enforcement personnel, first responders, and other Homeland Security stakeholders. This information is derived primarily from unclassified or law enforcement sources but is screened against available classified channels for accuracy; however, initial reporting is often incorrect or misleading and is subject to change.*

(U) Incident Synopsis

(U//FOUO) Recent events surrounding the occupation of the Malheur Wildlife Refuge in Harney County Oregon, have culminated in the fatal confrontation of Northern Arizona rancher, LaVoy Finicum. His funeral services will be held on 05 FEB 2016, in Kanab, UT. Finicum will be buried on 06 FEB 2016, close to his Arizona ranch in Cane Beds, AZ.

(U//FOUO) While no credible threats to law enforcement are present at this time, armed extremists are expected to travel through UT; some of which may see this event as a tipping point, and potentially shift toward more violent action.

(U//FOUO) A number of individuals, several of whom were present at the Burns, OR occupation, are planning caravans from UT and NV to travel to the funeral in show of support.

Handling Notice: Recipients are reminded that Utah Statewide Information and Analysis Center intelligence products may contain sensitive information meant for use primarily within the law enforcement and homeland security communities. Such products shall not be released in either written or oral form to the media, the general public, or other personnel who do not have a valid need-to-know without prior approval from an authorized Statewide Information and Analysis Center official. Unlawful dissemination of this information may adversely impact ongoing investigations, and thereby compromise law enforcement officers' safety and the safety and welfare of the public.

(U) Threat Analysis

(U//FOUO) Currently, the SIAC assesses no credible threat to law enforcement or to public safety.

(U//FOUO) The Finicum family has requested a quiet, private service, however, extremists may utilize such a high profile funeral for media attention or to further ideological beliefs. In conjunction with the funeral, several social events have been planned in Kanab, UT over the weekend which could provide an environment for extremist activity.

(U//FOUO) With the amount of support on social media which some domestic extremists involved in the funeral have received, law enforcement should remain cognizant of the likelihood of the presence of domestic extremists travelling within their AOR. This may include both militia extremists and sovereign citizen extremists.

(U//FOUO) Caravans of individuals traveling to the funeral services may be comprised of one or more armed extremists. Law enforcement should remain vigilant and aware that confrontation with these potentially volatile persons, may include more than one individual. These individuals may adhere to a sovereign citizen ideology, and may not recognize law enforcement as a legitimate authority.

(U//FOUO) Below are some visual indicators of these potential extremist and disaffected individuals: though some or parts of these symbols are representative of patriotic and American revolutionary themes; they are often associated with extremism:

(U) Gadsden flag, commonly displayed by sovereign citizen extremists

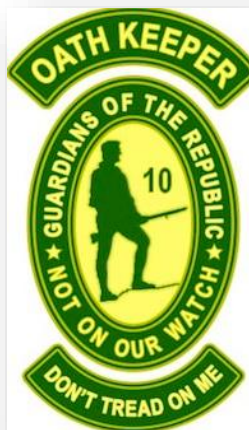

(U) III% symbol, synonymous with militia members present at the Malheur Wildlife Refuge occupation

(U) Idaho III%, active participants at the Malheur Wildlife Refuge Occupation

(U) III% Badge being displayed via social media, honoring Finicum

(U) Oathkeeper Militia symbol, commonly associated with extremists

(U) Images commonly associated with ME and SCE

(U) Common sovereign citizen imagery

(U) False vehicle identification card often associated with sovereign citizen extremists

(U) Self-produced license plates often used by sovereign citizen extremists

(U) Current Actions

(U//FOUO) The Utah SIAC is currently monitoring activities surrounding these events to assess any potential threat toward LE or to the public safety of those in attendance. The SIAC is also in contact with fusion centers in surrounding states to facilitate information sharing regarding the upcoming events.
