Risk mitigation steps

- 1 High-risk payments review w \$1mln threshold
 - 2 Assignments w NPV to be aggregated through Credit
 - 3 Obtain payment on collateral dispute
 - 4 Review CPs to bank loan draws (AIG/AGF)
 - 5 Move SecLending to MRA agreement
 - 6 Consolidate entities to share thresholds
 - 7 Confirming changes to thresholds should ratings change
 - 8 Free delivery settlement risk
 - 9 Preparation to turn off e-platforms
- | | |
|---|---|
| Done | Rolled-out |
| \$600mln for value today | Being reviewed by Credit/Legal. \$170mln (92.5mln AIG/\$77.5mln AGF). \$145mln Sumitomo (\$92.5/52/5) |
| Under research (for example, if could combine AIG Intl/GSCO to AIG Intl/GSCM would reduce CCE by 36mln) | Currently trading flat. CE across all entities - \$74.3 (GSCO) |
| Ensuring coordination on revised margin calls | Working with operations |
| Ready to move as needed | |

All valuations are mid-market valuations, unless otherwise indicated

Disclaimer

The attached information regarding the valuation of positions or collateral and margin requirements is being provided for your consideration and internal use only and not for the purpose of soliciting or recommending any action by you. You should carefully review the explanations that are included with the attached information and ensure that you understand the information that is being provided. Any questions regarding the nature of this information should be raised promptly with your Goldman Sachs contact person.

If the attached information relates to valuation of positions, and a valuation listed in the attached information is designated as an "unwind" price, then it represents the price at which Goldman Sachs or one of its affiliates ("Goldman Sachs") is prepared to unwind the position. If a valuation is designated as a "mid-market" valuation, then it represents either (1) Goldman Sachs' good faith estimate of the mid-market value of the position, based on estimated or actual bids and offers for the positions, or (2) a "mid-market" price generated by proprietary valuation models utilized by Goldman Sachs. If designated as an "approximate mid-current rate", then a valuation represents Goldman Sachs' good faith estimate of the mid-market fixed rate of a new transaction with the same terms and conditions and the same remaining term to maturity. If a valuation is not designated as an "unwind" or "mid-market" price or an "approximate mid-current rate", then it has been derived through the use of another methodology selected by Goldman Sachs at its discretion. Any valuation that is not designated as an "unwind" does not reflect actual trading prices at any time and should not be relied upon as the value at which a position may be unwound or terminated. In determining the valuation of positions through the use of any of the foregoing methodologies, Goldman Sachs might or might not take into account certain factors, including, without limitation, the creditworthiness of the parties, funding implications (including estimated funding costs and/or benefits associated with any credit support or margin arrangement), portfolio level adjustments and liquidity adjustments based on size. These factors, taken together with the size of the position and any leverage embedded in the position, may affect the valuation. For example, if a valuation is designated as "without delta", the bid/offer spread on the relevant position is likely to be wider than would be the case if the valuation was provided "with delta".

If the attached information relates to collateral or margin requirements, then any material regarding the valuation of

positions is being provided solely for your information in connection with such collateral or margin requirements only. The information regarding collateral or margin requirements reflects the amount of collateral or margin that we believe is required in connection with the relevant positions, taking into account our internal credit assessments, our determination of the relevant market risks and such other factors and considerations that we deem appropriate. Any product descriptions used in the attached information regarding collateral or margin requirements are for the purposes of collateral or margin calculation only and are not intended to classify any transactions in any manner and may differ from those used within individual trade confirmations. In the event of any inconsistency between the product descriptions included in the attached information and those in the applicable trade confirmations, the descriptions in the trade confirmations will prevail.

Any valuations of positions for purposes of collateral or margin requirements do not necessarily reflect the prices at which Goldman Sachs is prepared to terminate or unwind the relevant position. Any failure to exercise or any delay in exercising any rights or remedies Goldman Sachs may have (including upon a failure to meet any collateral or margin call) shall not constitute a waiver or forbearance of any rights or remedies available to Goldman Sachs. The acceptance of collateral or margin in an amount less than the amount of collateral or margin demanded be delivered or returned shall not constitute an acknowledgement that the amount accepted satisfies the collateral or margin demand or equals the collateral or margin owing. Any valuations presented in the attached information represent Goldman Sachs' assessment of the value of the particular position only as of the relevant close of business on the date indicated, unless otherwise specified, and any such valuation is not applicable at any other time. If other times are specified, they are approximate only.

If a valuation listed in the attached information is expressed in terms of a position of a specified size, then the valuation is applicable only with respect to that size. The valuation does not indicate a price at which Goldman Sachs would be willing to enter into a transaction with respect to any other size, or the collateral or margin requirements applicable to positions of a different size, nor does it reflect a valuation that relates to a position or transaction of any other size. If no size is specified with respect to an unwind valuation for a position, then the valuation indicated refers to the full amount of the position. The valuations listed in the attached information do not necessarily reflect your entire portfolio.

The information presented in this document is based on assumptions, historical information and pricing data that Goldman Sachs in its discretion considers appropriate, and Goldman Sachs has no liability with respect thereto. In addition, this information does not affect the rights and obligations of you and Goldman Sachs under any applicable agreements between us and is provided subject and pursuant to any applicable provisions of any such agreements. This information and the valuation methodologies used are subject to change without notice and Goldman Sachs has no obligation to update you as to any such changes. This information may not reflect valuations you would receive from other dealers, or even from affiliates or other business units of Goldman Sachs, and does not necessarily reflect valuations you would obtain by using pricing models available from Goldman Sachs or valuations included in the books and records of Goldman Sachs. This information is intended only as a reference and should not be relied upon without further evaluation by you, in consultation with your professional advisors, for the maintenance of your books and records or for tax, accounting, financial reporting, disclosure or other purposes.

Subject: GSI/AIG Monday

Mike-

I was out this afternoon but it is my understanding that there is an agreement that we will post approximately \$617mm. First thing monday AM I will review the calculations and set up the wire. My team has reviewed it today while in contact with me so there should be no issues.

I will ask our legal team to prepare the letter also so that I can get a GSI signature on it first thing on Monday as well and release the funds.

Regards,
Tom

AIG DISCLOSES COUNTERPARTIES TO CDS, GIA AND SECURITIES LENDING TRANSACTIONS

NEW YORK, March 15, 2009 – American International Group, Inc. (AIG) recognizes the importance of upholding a high degree of transparency with respect to the use of public funds. As a result, after close consultation with the Federal Reserve, AIG is disclosing information identifying certain credit default swap counterparties, municipal counterparties and securities lending counterparties. Before disclosing this information, AIG consulted with the Federal Reserve about the potential public benefit of counterparty disclosure and the potential that such disclosure would cause competitive harm to AIG or its counterparties.

Severe valuation losses on the super senior multi-sector credit default swap portfolio of AIG Financial Products Corp. (AIGFP) triggered collateral provisions in the swap contracts, creating a liquidity crisis for AIG in September 2008. The Federal Reserve Bank of New York (FRBNY) provided an emergency \$85 billion loan to AIG to meet short-term cash needs. The aid received by AIG helped avoid severe financial disruptions by providing liquidity to important financial institutions and municipalities.

Using funds from the emergency loan, financial counterparties listed on Attachment A (all attachments are posted online at http://www.aig.com/Related-Resources_385_136430.html) received a total of \$22.4 billion in collateral relating to CDS transactions from AIGFP between September 16, 2008 and December 31, 2008. This amount represents funds provided to such counterparties after the date on which AIG began receiving government assistance. The counterparties received additional collateral from AIG prior to September 16, 2008.

On November 10, 2008, AIG and the FRBNY established Maiden Lane III, a financing entity, to purchase the securities underlying certain CDS contracts from the counterparties to such contracts, allowing the cancellation of the contracts. Attachment B lists payments made by Maiden Lane III to such counterparties.

Municipalities in the states listed on Attachment C received a total of \$12.1 billion from AIGFP between September 16, 2008 and December 31, 2008 in satisfaction of Guaranteed Investment Agreement (GIA) obligations. GIAs are structured investments with a guaranteed rate of return. Municipalities typically use GIAs to invest the proceeds from bond issuances until the funds are needed.

Public aid was also used to satisfy obligations to financial counterparties related to AIG's securities lending operations. Securities lending counterparties listed on Attachment D received \$43.7 billion from September 18, 2008 to December 31, 2008.

AIG Discloses Counterparties...

March 15, 2008

Page two

AIG has used the balance of the public aid it received during that time period for other purposes, including the funding of Maiden Lane II and III, debt repayment and capital support for some of its businesses.

AIG Chairman and Chief Executive Officer Edward M. Liddy said that the counterparty and collateral information show that billions in government assistance flowed to dozens of financial counterparties and municipalities during a time of acute stress in the economy.

Mr. Liddy emphasized that AIG's disclosure of the counterparties does not change AIG's commitment to maintaining the confidentiality of its business transactions. "Our decision to disclose these transactions was made following conversations with the counterparties and the recognition of the extraordinary nature of these transactions," Mr. Liddy said.

#

American International Group, Inc., a world leader in insurance and financial services, is the leading international insurance organization with operations in more than 130 countries and jurisdictions. AIG companies serve commercial, institutional and individual customers through the most extensive worldwide property-casualty and life insurance networks of any insurer. In addition, AIG companies are leading providers of retirement services, financial services and asset management around the world. AIG's common stock is listed on the New York Stock Exchange, as well as the stock exchanges in Ireland and Tokyo.

 Account: Goldman, Sachs & Co

Reference: COLLATERAL

All valuations are mid-market valuations, unless otherwise indicated.

Disclaimer:

The attached information regarding the valuation of positions or collateral and margin requirements is being provided for your consideration and internal use only and not for the purpose of soliciting or recommending any action by you. You should carefully review the explanations that are included with the attached information and ensure that you understand the information that is being provided. Any questions regarding the nature of this information should be raised promptly with your Goldman Sachs contact person.

If the attached information relates to valuation of positions, and a valuation listed in the attached information is designated as an "unwind" price, then it represents the price at which Goldman Sachs or one of its affiliates ("Goldman Sachs") is prepared to unwind the position. If a valuation is designated as a "mid-market" valuation, then it represents either (1) Goldman Sachs' good faith estimate of the mid-market value of the position, based on estimated or actual bids and offers for the positions, or (2) a "mid-market" price generated by proprietary valuation models utilized by Goldman Sachs. If designated as an "approximate mid-current rate", then a valuation represents Goldman Sachs' good faith estimate of the mid-market fixed rate of a new transaction with the same terms and conditions and the same remaining term to maturity. If a valuation is not designated as an "unwind" or "mid-market" price or an "approximate mid-current rate", then it has been derived through the use of another methodology selected by Goldman Sachs at its discretion. Any valuation that is not designated as an "unwind" does not reflect actual trading prices at any time and should not be relied upon as the value at which a position may be unwound or terminated. In determining the valuation of positions through the use of any of the foregoing methodologies, Goldman Sachs might or might not take into account certain factors, including, without limitation, the creditworthiness of the parties, funding implications (including estimated funding costs and/or benefits associated with any credit support or margin arrangement), portfolio level adjustments, and liquidity adjustments based on size. These factors, taken together with the size of the position and any leverage embedded in the position, may affect the valuation. For example, if a valuation is designated as "without delta", the bid/offer spread on the relevant position is likely to be wider than would be the case if the valuation was provided "with delta".

If the attached information relates to collateral or margin requirements, then any material regarding the valuation of

Confidential Treatment
Requested by Goldman Sachs

positions is being provided solely for your information in connection with such collateral or margin requirements only. The information regarding collateral or margin requirements reflects the amount of collateral or margin that we believe is required in connection with the relevant positions, taking into account our internal credit assessments, our determination of the relevant market risks and such other factors and considerations that we deem appropriate. Any product descriptions used in the attached information regarding collateral or margin requirements are for the purposes of collateral or margin calculation only and are not intended to classify any transactions in any manner and may differ from those used within individual trade confirmations. In the event of any inconsistency between the product descriptions included in the attached information and those in the applicable trade confirmations, the descriptions in the trade confirmations will prevail.

Any valuations of positions for purposes of collateral or margin requirements do not necessarily reflect the prices at which Goldman Sachs is prepared to terminate or unwind the relevant position. Any failure to exercise or any delay in exercising any rights or remedies Goldman Sachs may have (including upon a failure to meet any collateral or margin call) shall not constitute a waiver or forbearance of any rights or remedies available to Goldman Sachs. The acceptance of collateral or margin in an amount less than the amount of collateral or margin demanded be delivered or returned shall not constitute an acknowledgement that the amount accepted satisfies the collateral or margin demand or equals the collateral or margin owing. Any valuations presented in the attached information represent Goldman Sachs' assessment of the value of the particular position only as of the relevant close of business on the date indicated, unless otherwise specified, and any such valuation is not applicable at any other time. If other times are specified, they are approximate only.

If a valuation listed in the attached information is expressed in terms of a position of a specified size, then the valuation is applicable only with respect to that size. The valuation does not indicate a price at which Goldman Sachs would be willing to enter into a transaction with respect to any other size, or the collateral or margin requirements applicable to positions of a different size, nor does it reflect a valuation that relates to a position or transaction of any other size. If no size is specified with respect to an unwind valuation for a position, then the valuation indicated refers to the full amount of the position. The valuations listed in the attached information do not necessarily reflect your entire portfolio.

The information presented in this document is based on assumptions, historical information and pricing data that Goldman Sachs in its discretion considers appropriate, and Goldman Sachs has no liability with respect thereto. In addition, this information does not affect the rights and obligations of you and Goldman Sachs under any applicable agreements between us and is provided subject and pursuant to any applicable provisions of any such agreements. This information and the valuation methodologies used are subject to change without notice and Goldman Sachs has no obligation to update you as to any such changes. This information may not reflect valuations you would receive from other dealers, or even from affiliates or other business units of Goldman Sachs, and does not necessarily reflect valuations you would obtain by using pricing models available from Goldman Sachs or valuations included in the books and records of Goldman Sachs. This information is intended only as a reference and should not be relied upon without further evaluation by you, in consultation with your professional advisors, for the maintenance of your books and records or for tax, accounting, financial reporting, disclosure or other purposes.
