MULTIYEAR TRAINING AND EXERCISE PLAN

2009-2011

For Official Use Only

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Preface

The State of Louisiana has made great strides in increasing the safety of its citizens, key infrastructure, and economy from foreign and domestic terrorism. As past events have shown, there is a need to focus efforts on an all-hazards approach for emergency preparedness and response. Louisiana's critical infrastructure; geographic location; and national, social, and economic assets continue to make it a vulnerable target. The State of Louisiana—in its efforts to prevent, protect, respond to, and recover from incidents affecting homeland security, whether technical or natural—has realized the need to embrace a capabilities-based approach to training and exercising. In pursuing this approach, the State has identified a need to coordinate planning, training, and exercising to strengthen the State's overall defenses. Training and exercises play a crucial role in this strategy and provide the State with a means of attaining, practicing, validating, and improving new capabilities.

The State's training and exercise programs are administered by the Louisiana Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP), with valued cooperation and contributions from nonprofit organizations; private industry; and Federal, State, and local government agencies. To achieve the State's vision of a safe, secure, and sustainable Louisiana, stakeholders convened to develop this Multiyear Training and Exercise Plan (TEP). Accomplishment of the broad goals and specific objectives outlined herein, as well as the continued commitment of all parties to the preparedness process, will better equip Louisiana to protect its citizens from all hazards. The training and exercise agenda laid out in this plan provides guidance and expectations for all State-level response agencies as well as for any municipal response agencies that receive State homeland security funds. The agenda helps prepare the State to optimally address the natural and technical hazards it faces.

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Purpose

The purpose of the Multiyear Training and Exercise Plan (TEP) is to provide a companion document to the State of Louisiana Homeland Security Strategy. The *Louisiana Multiyear TEP* is a living document that will be updated and refined annually. This plan provides a roadmap for Louisiana to follow in accomplishing the priorities described in the State of Louisiana Homeland Security Strategy. Each priority is linked to the associated target capabilities that will facilitate its accomplishment and to the training and exercises that will help obtain or validate those capabilities and address that priority.

The *Louisiana Multiyear TEP* includes the training and exercise schedule, which provides graphic illustration of proposed activities for the years 2009–2011. It represents the natural progression of training and exercises that should take place in accordance with the building-block approach.

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Program Priorities

As part of the continuous preparedness process, the Louisiana Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP) drafted the Louisiana Homeland Security Strategy to clearly define efforts and areas of focus. Based on the U.S. Department of Homeland Security (DHS) National Preparedness Goal, the strategy commits Louisiana to the national priorities defined by the DHS and supplements these priorities with initiatives specific to Louisiana's threats and capabilities.

Louisiana has identified 12 priorities on which to focus its planning, equipment acquisition, training, and exercises:

- Priority 1: Communications
- Priority 2: National Incident Management System (NIMS) and National Response Framework (NRF)
- Priority 3: Intelligence and Information Sharing
- Priority 4: Critical Infrastructures/Key Resources (CI/KR)
- Priority 5: Maritime Safety and Security
- Priority 6: Regional Collaboration
- Priority 7: Urban Search and Rescue (USAR)
- Priority 8: Agriculture Safety and Security
- Priority 9: Cyber Safety and Security
- Priority 10: Citizen Preparedness
- Priority 11: Public Health Safety and Response
- Priority 12: Evacuation (parish-level priority only)

Louisiana has identified items on the Target Capabilities List (TCL) for direct association with the accomplishment of priorities and goals. Training and exercises scheduled for the next 3 years have been planned to allow Louisiana to attain the selected priorities and fill in capability gaps.

Priority 1: Communications

Develop and enhance communications with Federal, State, and local agencies to ensure that interoperable communications will be maintained during all-hazards incidents.

Associated Capabilities

- Communications
- Critical Infrastructure Protection
- Economic and Community Recovery
- Emergency Operations Center (EOC) Management
- Emergency Public Information and Warning
- Information Gathering and Recognition of Indicators and Warnings
- Intelligence and Information Sharing and Dissemination
- Onsite Incident Management
- Planning
- Restoration of Lifelines

Training That Supports This State Priority and Associated Capabilities

- Allen Parish Communications: 2010
- Federal Reserve Bank Wireless Priority Service (WPS)/Government Emergency Telecommunications Service (GETS)/Satellite Telephone/Ham Radio: 2010
- GOHSEP Crime Scene Management: 2009
- GOHSEP Emergency Management: 2009, 2010
- GOHSEP Independent Study (IS)-240: 2009
- GOHSEP IS-241: 2010
- GOHSEP IS-242: 2010
- GOHSEP G290: 2009
- Jefferson Parish Office of Emergency Preparedness (OEP) Radio Operator: 2011
- New Orleans Urban Area Security Initiative (UASI) Region Communications Unit Leader: 2011
- Orleans Parish Fire Computer-Aided Management of Emergency Operations (CAMEO): 2009, 2010
- Plaquemines Parish OEP Radio Operator: 2010
- Region 1 Emergency Medical Spanish: 2010
- Region 1 IS-241: 2010
- Region 1 Street Spanish: 2009
- Region 1 Performance-Based Course (PER) 229: 2009
- Region 2 PER 229: 2010
- Region 3 IS-240: 2010
- Region 3 G290: 2010
- Region 4 G549: 2010
- Region 4 PER 229: 2009
- Region 4 PER 229: 2010
- Region 5 Management-Based Course (MGT) 318: 2010
- Region 7 G549: 2010
- Region 9 Hostage Negotiations: 2010
- Region 9 Street Spanish: 2010
- State Fire Marshal's Office (SFMO) Communications: 2010
- SFMO Liaisons: 2010
- SFMO Asset Tracking: 2010
- Tangipahoa Parish OEP Street Spanish for Officer Survival Interview and Interrogations: 2010
- Tangipahoa Parish OEP Hostage Negotiation: 2010
- Union Parish Interrogation: 2010

Exercises That Support This State Priority and Associated Capabilities

- Calcasieu Parish WebEOC Seminar: 2009, 2010
- Calcasieu Parish WebEOC Drill: 2010
- Calcasieu Parish WebEOC Functional Exercise (FE): 2009
- Calcasieu Parish WebEOC Game: 2009, 2010
- Louisiana Department of Transportation and Development (DOTD) Communications Drill: 2009, 2011
- Federal Reserve Bank Crisis Management Tabletop Exercise (TTX): 2009
- Federal Reserve Bank WPS/GETS/Satellite Telephone/Ham Radio Drill: 2009
- GOHSEP Hurricane Preparedness Exercise (HPE): 2009, 2010
- GOHSEP Regional Communications Exercise: 2009

- GOHSEP Regional TTX: 2010
- GOHSEP Unified Command Exercise: 2009, 2010
- Louisiana National Guard (LANG) Disaster Response Full-Scale Exercise (FSE): 2009
- Louisiana Department of Health and Hospitals (DHH)/Office of Public Health (OPH) Receiving, Staging, and Storage (RSS) Drill: 2009, 2010
- Louisiana DOTD Communications FSE: 2009
- Ouachita Parish Communications TTX: 2009
- Southeast Louisiana (SELA) Communications Emergency Test FSE: 2010
- Terrebonne Parish Communications Workshop: 2009, 2010
- Terrebonne Parish Communications TTX: 2010
- Ouachita Parish Communications FSE: 2010

Priority 2: National Incident Management System (NIMS) and National Response Framework (NRF)

Employ NIMS and the NRF in a tactical and operational all-hazards environment.

Associated Capabilities

- Critical Infrastructure Protection
- Community Preparedness and Participation
- Economic and Community Recovery
- EOC Management
- Intelligence and Information Sharing and Dissemination
- Onsite Incident Management
- Planning
- Restoration of Lifelines

Training That Supports This State Priority and Associated Capabilities

- Allen Parish NIMS: 2009, 2010
- DHH/OPH Incident Command System (ICS): 2009, 2010
- DOTD ICS 100–400: 2009, 2010
- Federal Reserve NIMS: 2009
- Franklin Parish OEP Emergency Response 101–Disaster Recovery: 2010
- Franklin Parish OEP ICS 300 and 400: 2009
- GOHSEP Advanced Professional Development Series (PDS): 2009
- GOHSEP Disaster Recovery and Response Operations: 2009
- GOHSEP EOC Management: 2009
- GOHSEP Homeland Security Exercise and Evaluation Program (HSEEP): 2010
- GOHSEP ICS 300: 2009
- GOHSEP ICS 400: 2009
- GOHSEP Incident Management/Unified Command Weapons of Mass Destruction (WMD)/Terrorism Incidents: 2009
- GOHSEP IS-139: 2010
- GOHSEP IS-235: 2009
- GOHSEP IS-230: 2009
- GOHSEP NIMS/ICS: 2009, 2010
- GOHSEP NIMS Positions: 2009
- GOHSEP WMD Incident Command: 2009
- GOHSEP WebEOC: 2009

- Jackson Parish OEP ICS 100 and 200: 2009
- LANG ICS 100–400: 2009
- Morehouse Parish OEP ICS 100 and 200: 2009
- Morehouse Parish OEP ICS 300 and 400: 2009
- Morehouse Parish OEP ICS 700 and 800: 2010
- New Orleans UASI Region ICS 205: 2010
- New Orleans UASI Region Mutual Aid Concepts and Execution: 2010
- New Orleans UASI Region Resource Ordering Ins and Outs: 2010
- Orleans Parish OEP Dispatchers Can Better Serve as Incident Command Dispatchers: 2010
- Orleans Parish OEP Dispatcher’s Role in ICS: 2009
- Orleans Parish OEP Mutual Aid Activation for Dispatchers
- Ouachita Parish OEP ICS 300 and 400: 2009
- Ouachita Parish OEP IS-235: 2009
- Ouachita Parish MGT 314
- Region 1 G775: 2010
- Region 1 MGT 312: 2010
- Region 1 MGT 360: 2010
- Region 1 PER 220: 2010
- Region 2 G110: 2010
- Region 3 G775: 2010

- West Carroll Parish OEP ICS 300 and 400: 2009

Exercises That Support This State Priority and Associated Capabilities

- Calcasieu Parish ICS 300, 400 Seminar: 2009, 2010
- DOTD Hurricane FSE: 2010, 2011
- Federal Reserve Bank NIMS/ICS TTX: 2010
- Grand Gulf Nuclear Station FEMA Evaluated Exercise: 2009
- GOHSEP Hurricane Preparedness Exercise: 2009, 2010
- GOHSEP Parish Director's Workshop: 2010, 2011
- GOHSEP Regional Communications Exercise: 2009
- GOHSEP Regional TTX: 2010
- GOHSEP Unified Command Exercise: 2009, 2010
- GOHSEP Unified Command WMD Seminar: 2009
- GOHSEP Unified Command Group Mobile Exercise Training (MET) Hurricane-Flu TTX: 2010
- LANG Disaster Response FSE: 2009
- Louisiana Emergency Preparedness Association (LEPA) Conference: 2010, 2011
- Ouachita Parish NIMS/ICS TTX: 2010
- Ouachita Parish NIMS Seminar: 2009, 2010
- Region 6 Winter Weather FE: 2011

- Region 7 Natural Disaster TTX: 2009
- Region 7 Winter Weather FE: 2011
- Region 8 Winter Weather FE: 2010
- Statewide Training and Exercise Planning Workshop (TEPW): 2009, 2010, 2011

Priority 3: Intelligence and Information Sharing

Maintain and increase the State, regional, and local terrorism early warning, intelligence, and information sharing program by employing the new State Fusion Center and analyzing the existing homeland security information and intelligence nodes.

Associated Capabilities: None.

Training That Supports This State Priority and Associated Capabilities

- GOHSEP Counterterrorism for Law Enforcement Investigators: 2009
- GOHSEP Emergency Management: 2009, 2010
- GOHSEP Hostage Negotiations—Phase I: 2009
- GOHSEP Hostage Negotiations—Phase II: 2009
- GOHSEP Interview and Interrogation—Phase I: 2009
- GOHSEP Interview and Interrogation—Phase II: 2009
- GOHSEP Preventing/Deterring Terrorist Acts: 2009
- GOHSEP Preventing/Deterring Terrorism—Standard Awareness: 2009
- GOHSEP WMD Hazardous Materials (HazMat) Evidence Collection: 2009
- GOHSEP WMD Homeland Security: 2009, 2010
- Orleans Parish Fire Advanced WMD Materials and Detection: 2010
- Orleans Parish Fire WMD Detection Technologies: 2010
- Region 1 Awareness-Based Course (AWR)-122: 2010
- Region 1 Bombs, Booby Traps, and Improvised Explosive Devices (IEDs): 2010
- Region 2 AWR 122: 2010
- Region 5 Counterterrorism for Law Enforcement Investigators: 2010
- Region 5 Kinesic Interview and Interrogation: 2010
- Region 6 Bombs, Booby Traps, and IEDs: 2010
- Region 6 Threat: 2010
- Region 7 Kinesic Interview and Interrogation: 2010
- Region 7 MGT 310: 2010
- Region 9 Kinesic Interview and Interrogation: 2010
- Region 9 Threat: 2010

Exercises That Support This State Priority and Associated Capabilities

- GOHSEP Regional TTX: 2010
- GOHSEP WMD for Unified Command Seminar: 2009
- Ouachita Parish Intelligence and Information Sharing Seminar: 2010
- St. Tammany Parish OEP SARTA Courses: 2009
- Tangipahoa Parish OEP Bio-Terrorism Working Group: 2009

Priority 4: Critical Infrastructures/Key Resources (CI/KR)

Document, assess, and secure all CI/KR consistent with the National Infrastructure Protection Plan (NIPP), and categorize those facilities within guidelines established by Federal, State, and local authorities.

Associated Capabilities

- Critical Infrastructure Protection
- Communications
- Critical Resource Logistics and Distribution
- Economic and Community Recovery
- EOC Management
- Planning
- Restoration of Lifelines

Training That Supports This State Priority and Associated Capabilities

Exercises That Support This State Priority and Associated Capabilities

- Calcasieu Parish Maritime Security TTX: 2009
- Calcasieu Parish Maritime Security Workshop: 2009
- GOHSEP Hurricane Preparedness Exercise: 2009, 2010
- GOHSEP Regional TTX: 2010
- GOHSEP WMD for Unified Command Seminar: 2009
- Ouachita Parish Response to Radiological Emergencies Seminar: 2009

Priority 6: Regional Collaboration

Assist the State's homeland security regions in the development of a regional strategy for implementation of homeland security grant programs in a way that would maximize all available resources in the region and develop a coherent strategy for allocation of additional resources.

Associated Capabilities

- Critical Infrastructure Protection
- Citizen Evacuation and Shelter-in-Place
- Communications
- Economic and Community Recovery
- Emergency Public Information and Warning
- EOC Management
- Intelligence and Information Sharing and Dissemination
- Mass Care
- Restoration of Lifelines

Training That Supports This State Priority and Associated Capabilities

- Allen Parish Regional Collaboration: 2010
- GOHSEP Continuity of Operations (COOP): 2009
- GOHSEP Debris Management: 2009
- GOHSEP Disaster Response and Recovery Operations (DRRO): 2009
- GOHSEP Emergency Management: 2009, 2010
- GOHSEP Enhanced WMD Threat/Risk Assessment: 2009
- GOHSEP Public Works Planning/Response to Terrorism/WMD: 2009
- GOHSEP WMD Radiological/Nuclear Response Operations: 2009
- GOHSEP WMD Regional Task Force: 2009
- GOHSEP WMD Tactical Commanders: 2009
- GOHSEP WMD Tactical Operations: 2009

Exercises That Support This State Priority and Associated Capabilities

- DHH/OPH Cities Readiness Initiative (CRI) Cities TTX: 2009
- DHH/OPH CRI Cities TTX: 2009
- DHH/OPH Non-CRI Cities TTX: 2009, 2010
- DHH/OPH State EOC Hurricane FE: 2009, 2010
- DHH/OPH WebEOC Drill: 2009
- GOHSEP Hurricane Preparedness Exercise: 2009, 2010
- GOHSEP Regional Communications Exercise: 2009
- GOHSEP Regional TTX: 2010
- GOHSEP Unified Command Exercise: 2009, 2010
- Ouachita Parish Regional Collaboration Seminar: 2009

- Ouachita Parish Regional Collaboration TTX: 2010

Priority 7: Urban Search and Rescue (USAR)

Establish, train, and equip USAR team(s) to assist in responding to all-hazards incidents.

Associated Capabilities

- Communications
- Fatality Management
- Onsite Incident Management
- Planning
- Responder Safety and Health
- SAR (Land-Based)
- Volunteer Management and Donations

Training That Supports This State Priority and Associated Capabilities

- Allen Parish SAR: 2009
- GOHSEP Emergency Management: 2009, 2010
- GOHSEP NIMS/ICS: 2009, 2010
- GOHSEP WMD/Homeland Security: 2009, 2010
- Region 4 Structural Collapse: 2009
- Region 6 Trench Rescue: 2009
- SFMO USAR: 2010
- St. Martin's Parish Volunteer Management (G244): 2009

Exercises That Support This State Priority and Associated Capabilities

- Calcasieu Parish SAR Seminar: 2009, 2010
- GOHSEP Hurricane Preparedness Exercise: 2009, 2010
- LANG Disaster Response FSE: 2010
- New Orleans Fire Department Rope Rescue Drill: 2009
- Orleans Parish USAR Operational Readiness Exercise: 2009
- Ouachita Parish SAR Seminar: 2009
- Region 7 Manmade FSE: 2009

Priority 8: Agriculture Safety and Security

Conduct a statewide agriculture assessment, and develop a dedicated agricultural response team.

Associated Capabilities

- Animal Disease Emergency Support
- Economic and Community Recovery
- Emergency Public Information and Warning
- Food and Agriculture Safety and Defense
- Planning
- Risk Management

Training That Supports This State Priority and Associated Capabilities

- GOHSEP Preparation for Agroterrorism: 2009
- GOHSEP WMD/Homeland Security: 2009, 2010
- Region 4 Bioterrorism/Agricultural: 2010

- Region 6 MGT 322: 2010

Exercises That Support This State Priority and Associated Capabilities

- Ouachita Parish Agriculture Safety and Security Seminar: 2009

Priority 9: Cyber Safety and Security

Enhance the capability of the State to detect, prevent, and secure its cyberspace and to better respond to any type of cyber attack.

Associated Capabilities

- Critical Infrastructure Protection
- Economic and Community Recovery
- Intelligence and Information Sharing and Dissemination
- Information Gathering and Recognition of Indicators and Warnings
- Planning
- Risk Management

Training That Supports This State Priority and Associated Capabilities

- GOHSEP WMD/Homeland Security: 2009, 2010

Exercises That Support This State Priority and Associated Capabilities

- Ouachita Parish Cyber Safety and Security Seminar: 2009

Priority 10: Citizen Preparedness

Establish a citizen preparedness and citizen corps program to facilitate and assist in a coordinated response and recovery of an all-hazards incident.

Associated Capabilities

- Community Preparedness and Participation
- Mass Care (Sheltering, Feeding, and Related Services)
- Responder Safety and Health
- Volunteer Management and Donations

Training That Supports This State Priority and Associated Capabilities

- DHH/OPH Volunteer Summit: 2009, 2010
- GOHSEP Active Shooter: 2009
- GOHSEP Community Emergency Response Team (CERT): 2009
- GOHSEP Emergency Management: 2009, 2010
- GOHSEP NIMS/ICS: 2009, 2010
- GOHSEP Personal Radiological Detector: 2009
- GOHSEP Public Information Officer (PIO): 2009
- GOHSEP WMD/Homeland Security: 2009, 2010
- GOHSEP WMD Responder Protection: 2009
- Region 2 AWR 182: 2010
- Region 3 AWR 182: 2010
- Region 3 G288: 2010
- Region 4 G244: 2009
- Region 4 G288: 2009

- Region 7 G288: 2010
- Tangipahoa Parish CERT: 2009, 2010

Exercises That Support This State Priority and Associated Capabilities

- Calcasieu Parish SAR Seminar: 2009
- DHH/OPH State EOC Hurricane FE: 2009
- GOHSEP Hurricane Preparedness Exercise: 2009, 2010
- Ouachita Parish Citizen Preparedness Workshop: 2009

Priority 11: Public Health Safety and Response

Strengthen medical surge and mass prophylaxis capabilities in order to effectively respond to mass casualties during any public health emergency.

Associated Capabilities

- Community Preparedness and Participation
- Economic and Community Recovery
- Emergency Public Information and Warning
- Fatality Management
- Isolation and Quarantine
- Mass Prophylaxis
- Planning
- Restoration of Lifelines

Training That Supports This State Priority and Associated Capabilities

- Ouachita Parish Public Health and Safety Response Workshop: 2009
- St. Tammany Parish OEP Pan Flu TTX: 2009

Priority 12: Evacuation (Parish-Level Priority Only)

Enhance the capability of the State to effectively evacuate citizens, companion animals, and livestock during an emergency, utilizing the most advantageous forms of transportation.

Associated Capabilities

- Citizen Evacuation and Shelter-in-Place
- Community Preparedness and Participation
- Emergency Public Information and Warning
- Planning
- Responder Health and Safety
- Risk Management
- Volunteer Management and Donations

Training That Supports This State Priority and Associated Capabilities: None.

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Multiyear Training and Exercise Schedule

The following schedule illustrates the current timeline for Louisiana's training and exercise activities from September 2009 to December 2011. The schedule captures Louisiana's desire for a progressive increase in training and exercise complexity over the next 3 years.

Louisiana's Multiyear Training and Exercise Schedule will use a building-block approach when determining training and exercises. The building-block approach ensures successful progression in exercise design, complexity, and execution, and allows for the appropriate training and preparation to occur in the community that is conducting or participating in the exercise.

The schedule portrays both training and exercises that correspond to priorities for Louisiana. In addition to this hardcopy schedule, Louisiana has electronically scheduled its exercises through the National Exercise Schedule (NEXS) System located at www.hseep.dhs.gov.

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Appendix A: National Priorities

The following eight national priorities were established by the U.S. Department of Homeland Security (DHS) National Preparedness Goal:

1. Implement the National Incident Management System (NIMS) and the National Response Framework (NRF).
2. Expand regional collaboration.
3. Implement the National Infrastructure Protection Plan (NIPP).
4. Strengthen information sharing and collaboration capabilities.
5. Strengthen chemical, biological, radiological, nuclear, and high-yield explosives (CBRNE) weapons detection, response, and decontamination capabilities.
6. Strengthen interoperable communications capabilities.
7. Strengthen medical surge and mass prophylaxis capabilities.
8. Strengthen emergency operations planning and citizen protection capabilities.

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Appendix B: Target Capabilities List (TCL)**Common Target Capabilities**

- Planning
- Communications
- Community Preparedness and Participation
- Intelligence and Information Sharing and Dissemination
- Risk Management

Prevent Mission Area Target Capabilities

- Information Gathering and Recognition of Indicators and Warnings
- Intelligence Analysis and Production
- Chemical, Biological, Radiological, Nuclear, and High-Yield Explosives (CBRNE) Detection
- Counter-Terror Investigation and Law Enforcement

Protect Mission Area Target Capabilities

- Critical Infrastructure Protection
- Epidemiological Surveillance and Investigation
- Food and Agriculture Safety and Defense
- Laboratory Testing

Respond Mission Area Target Capabilities

- Animal Disease Emergency Support
- Citizen Evacuation and Shelter-in-Place
- Critical Resource Logistics and Distribution
- Emergency Public Information and Warning
- Emergency Public Safety and Security
- Emergency Triage and Pre-Hospital Treatment
- Environmental Health
- Emergency Operations Center (EOC) Management
- Explosive Device Response Operations
- Fatality Management
- Fire Incident Response Support
- Isolation and Quarantine
- Mass Care (Sheltering, Feeding, and Related Services)
- Mass Prophylaxis
- Medical Supplies Management and Distribution
- Medical Surge
- Onsite Incident Management
- Responder Safety and Health
- Search and Rescue (Land-Based)
- Volunteer Management and Donations
- Weapons of Mass Destruction (WMD) and Hazardous Materials (HazMat) Response and Decontamination

Recover Mission Area Target Capabilities

- Economic and Community Recovery
- Restoration of Lifelines
- Structural Damage Assessment

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Appendix C: Exercise Types

Discussion-Based Exercises

Discussion-based exercises are normally used as starting points in the building-block approach to the cycle, mix, and range of exercises. Discussion-based exercises include seminars, workshops, tabletop exercises (TTXs), and games. These types of exercises typically highlight existing plans, policies, mutual aid agreements (MAAs), and procedures. Thus, they are exceptional tools for familiarizing agencies and personnel with current or expected jurisdictional capabilities. Discussion-based exercises typically focus on strategic policy-oriented issues; operations-based exercises focus more on tactical response-related issues. Facilitators and/or presenters usually lead the discussion, keeping participants on track while meeting the objectives of the exercise.

Seminars

Seminars are generally used to orient participants or to provide an overview of authorities, strategies, plans, policies, procedures, protocols, response resources, or concepts and ideas. Seminars provide a good starting point for jurisdictions that are developing or making major changes to their plans and procedures. They offer the following attributes:

- Informal discussions led by a seminar leader
- Lack of time constraints caused by real-time portrayal of events
- Low-stress environment using a number of instruction techniques, such as lectures, multimedia presentations, panel discussions, case study discussions, expert testimony, and decision support tools
- Proven effectiveness with both small and large groups

Workshops

Workshops represent the second tier of exercises in the Homeland Security Exercise and Evaluation Program (HSEEP) building-block approach. Although similar to seminars, workshops differ in two important aspects: participant interaction is increased, and the focus is on achieving or building a product (such as a plan or a policy). Workshops provide an ideal forum for the following:

- Building teams
- Collecting or sharing information
- Obtaining consensus
- Obtaining new or different perspectives
- Problem solving of complex issues
- Testing new ideas, processes, or procedures
- Training groups in coordinated activities

In conjunction with exercise development, workshops are most useful in achieving specific aspects of exercise design, such as the following:

- Determining evaluation elements and standards of performance
- Determining program or exercise objectives
- Developing exercise scenario and key events listings

A workshop may be used to produce new standard operating procedures (SOPs), emergency operations plans (EOPs), MAAs, multiyear exercise plans, and improvement plans (IPs). To be effective, workshops must be highly focused on a specific issue, and the desired outcome or goal must be clearly defined.

Potential relevant topics and goals are numerous, but all workshops share the following common attributes:

- Effective with both small and large groups
- Facilitated, working breakout sessions
- Goals oriented toward an identifiable product
- Information conveyed using different instructional techniques
- Lack of time constraint from real-time portrayal of events
- Low-stress environment
- No-fault forum
- Plenary discussions led by a workshop leader

Tabletop Exercises (TTXs)

TTXs involve senior staff members, elected or appointed officials, or other key personnel in an informal setting, discussing simulated situations. This type of exercise is intended to stimulate discussion of various issues regarding a hypothetical situation. It can be used to assess plans, policies, and procedures or to assess types of systems needed to guide the prevention of, response to, and recovery from a defined incident. TTXs are typically aimed at facilitating understanding of concepts, identifying strengths and shortfalls, and/or achieving a change in attitude. Participants are encouraged to discuss issues in depth and develop decisions through slow-paced problem solving rather than the rapid, spontaneous decisionmaking that occurs under actual or simulated emergency conditions. In contrast to the scale and cost of operations-based exercises and games, TTXs can be cost-effective tools when used in conjunction with more complex exercises. The effectiveness of a TTX is derived from the energetic involvement of participants and their assessment of recommended revisions to current policies, procedures, and plans.

TTX methods are divided into two categories: basic and advanced. In a basic TTX, the scene set by the scenario materials remains constant. It describes an event or emergency incident and brings discussion participants up to the simulated present time. Players apply their knowledge and skills to a list of problems presented by the facilitator; problems are discussed as a group; and resolution is generally agreed upon and summarized by the leader. In an advanced TTX, play focuses on delivery of prescribed messages to players that alter the original scenario. The exercise facilitator usually introduces problems one at a time in the form of a written message, simulated telephone call, videotape, or other means. Participants discuss the issues raised by the problem, using appropriate plans and procedures. TTX attributes may include the following:

- Achieving limited or specific objectives
- Assessing interagency coordination
- Conducting a specific case study
- Examining personnel contingencies
- Familiarizing senior officials with a situation
- Participating in information sharing
- Practicing group problem solving
- Testing group message interpretation

Operations-Based Exercises

Operations-based exercises are used to validate the plans, policies, agreements, and procedures solidified in discussion-based exercises. Operations-based exercises include drills, functional exercises, and full-scale exercises (FSEs). They can clarify roles and responsibilities, identify gaps in resources needed to implement

plans and procedures, and improve individual and team performance. Operations-based exercises are characterized by actual response, mobilization of apparatus and resources, and commitment of personnel, usually over an extended period of time.

Drills

A drill is a coordinated, supervised activity usually used to test a single specific operation or function in a single agency. Drills are commonly used to provide training on new equipment, develop or test new policies or procedures, or practice and maintain current skills. Typical attributes include the following:

- A narrow focus, measured against established standards
- Instant feedback
- Performance in isolation
- Realistic environment

Functional Exercises (FEs)

An FE, also known as a Command Post Exercise (CPX), is designed to test and evaluate individual capabilities, multiple functions or activities within a function, or interdependent groups of functions. FEs generally focus on exercising the plans, policies, procedures, and staffs of the direction and control nodes of the Incident Command System (ICS) and Unified Command. Generally, incidents are projected through an exercise scenario with event updates that drive activity at the management level. Movement of personnel and equipment is simulated.

The objective of the FE is to execute specific plans and procedures and apply established policies, plans, and procedures under crisis conditions, within or by particular function teams. An FE simulates the reality of operations in a functional area by presenting complex and realistic problems that require rapid and effective responses by trained personnel in a highly stressful environment. Attributes of an FE include the following:

- Evaluating EOC, headquarters, and staff
- Evaluating functions
- Examining interjurisdictional relationships
- Measuring resource adequacy
- Reinforcing established policies and procedures

Full-Scale Exercises (FSEs)

FSEs are multiagency, multijurisdictional exercises that test many facets of emergency response and recovery. They include many first responders operating under the ICS or Unified Command to effectively and efficiently respond to, and recover from, an incident. An FSE focuses on implementing and analyzing the plans, policies, and procedures developed in discussion-based exercises and honed in previous, smaller operations-based exercises. The events are projected through a scripted exercise scenario with built-in flexibility to allow updates to drive activity. It is conducted in a real-time, stressful environment that closely mirrors a real incident. First responders and resources are mobilized and deployed to the scene where they conduct their actions as if a real incident had occurred (with minor exceptions). The FSE simulates the reality of operations in multiple functional areas by presenting complex and realistic problems that require critical thinking, rapid problem solving, and effective responses by trained personnel in a highly stressful environment. Other entities that are not involved in the exercise, but that would be involved in an actual incident, should be instructed not to respond.

An FSE provides an opportunity to execute plans, procedures, and MAAs in response to a simulated live incident in a highly stressful environment. Typical FSE attributes include the following:

- Activating personnel and equipment
- Allocating resources and personnel
- Analyzing memorandums of understanding (MOUs), SOPs, plans, policies, and procedures
- Assessing equipment capabilities
- Assessing interjurisdictional cooperation
- Assessing organizational and individual performance
- Demonstrating interagency cooperation
- Exercising public information systems
- Testing communication systems and procedures

The level of support needed to conduct an FSE is greater than needed for other types of exercises. The exercise site is usually extensive, with complex site logistics. Food and water must be supplied to participants and volunteers. Safety issues, including those surrounding the use of props and special effects, must be monitored.

FSE controllers ensure that participants' behavior remains within predefined boundaries. Simulation Cell (SimCell) controllers continuously inject scenario elements to simulate real events. Evaluators observe behaviors and compare them against established plans, policies, procedures, and standard practices (if applicable). Safety controllers ensure that all activity is executed within a safe environment.

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Appendix D: Training Course Descriptions

Active Shooter: Schools, Businesses, and Public Places. Public Agency Training Council (PATC). This 2-day academic class is designed to equip all stakeholders with knowledge and expertise to deter, prevent, and respond to a shooter in public places, including schools, businesses, malls, and numerous other public gathering places.

Advanced Law Enforcement Rapid Response Training (ALERRT). State conducted. This hands-on program is designed to equip patrol officers with necessary response skills to active shooter situations committed by homicidal/suicidal subjects, including domestic and foreign terrorists.

AWR 103: Weapons of Mass Destruction (WMD) Crime Scene Management (CSM) for Emergency Responders. Center for Domestic Preparedness (CDP) Awareness. This course provides response personnel with the knowledge of how to implement proper procedures and guidelines for CSM when responding to a chemical, biological, radiological, nuclear, or high-yield explosives (CBRNE) hazard incident.

AWR 122: Law Enforcement Prevention and Deterrence of Terrorist Acts. Louisiana State University (LSU). This course provides law enforcement officers with the knowledge, skills, and abilities to assist in prevention and deterrence of terrorist incidents by using Occupational Safety and Health Administration (OSHA) awareness-level knowledge.

AWR 140: WMD Radiological/Nuclear Awareness. Nevada Test Site (NTS). This course presents a WMD radiological/nuclear overview designed for first responders and other personnel who are likely to be the first to arrive on the scene of a radiological/nuclear incident. It focuses on the basics of radiation, possible health effects, hazard identification, and proper notification procedures.

AWR 144: Port and Vessel Security for Public Safety and Maritime Personnel. University of Findlay. This course provides responders with basic competencies associated with port and vessel security as well as a working knowledge of maritime security appropriate to public safety responders in rural jurisdictions.

AWR 147: Rail Car Incident Response. University of Findlay. This course educates rural emergency responders on freight rail car incidents involving hazardous materials (HazMat). Through this course, participants will gain an understanding of potential hazards at a train derailment; properties of specific chemicals; and various incident control, confinement, and containment mitigation techniques.

AWR 160: Standardized Awareness Training (SAT). CDP/State/Parish. Developed by the National Domestic Preparedness Consortium (NDPC), the WMD SAT course is a 6-hour training course that provides instruction on prevention and deterrence, chemical and biological agents, radiological materials, explosives, and the *Emergency Response Guidebook*.

AWR 182: Creating Vigilant, Prepared, and Resilient Communities for Homeland Security. Western Oregon University. This course is designed to train and equip participants with the strategies and skills necessary to create vigilant, prepared, and resilient communities for homeland security.

Bombs, Booby Traps, and IEDs. PATC. Learn how to conduct efficient explosive investigations, preserve crime scenes, document physical evidence and determine search methods, identify booby trap activation systems used in conjunction with IEDs, handle suspicious packages, and develop a bomb threat plan.

Counter-Terrorism for Law Enforcement Investigators. PATC. This introductory course is designed to equip the investigative law enforcement officer with rudimentary skills required to detect and investigate potential terrorist activity and interview and interrogate the potential terrorist or group.

Emergency Medical Services (EMS) Spanish Language Course. PATC. This course assists EMS providers with communication language skills to obtain critical information from Spanish-speaking citizens in need of medical services.

G202: Debris Management and Planning for State, Tribal, and Local Officials. State conducted. This course assists participants with ability to fully plan for, respond to, and recover from major debris-generating events. Understand Federal Emergency Management Agency (FEMA) eligibility issues and reasonable costs criteria pertinent to presidentially declared events.

G242: Effective Communication. State conducted. This course addresses basic communication skills, how to communicate in an emergency, how to identify community-specific communication issues, how to use technology as a communication tool, effective oral communication, and how to prepare an oral presentation.

G288: Donations Management Workshop. State conducted. This course addresses the planning considerations and operational requirements for an effective donations management system at the State and/or local level. A special emphasis is put on State/local government and voluntary agencies as the key to success in donations management.

G270.4: Recovery from Disaster: The Local Government Role. State conducted. This course explains the recovery process, roles, and responsibilities at the local government level and thus facilitates the development of a disaster recovery plan.

G290. Basic Public Information Officers (PIOs). State conducted. This 2.5-day course is intended for the new or less experienced PIO. Its emphasis is on the basic skills and knowledge needed for emergency management public information activities. Topics include the role of the PIO in emergency management, conducting awareness campaigns, news release writing, and television interviews.

G393. Mitigation for Emergency Managers. State conducted. This course imparts practical information and trains participants to perform operational tasks and functions. This course addresses the important roles of the emergency program manager, or other local government representative, in mitigation as motivator, coordinator, and monitor in local implementation of the national mitigation strategy.

G775/G275. Emergency Operations Center (EOC) Operations Course. State conducted. This 3-day course provides participants with the knowledge and skills to effectively manage and operate an EOC during crises. The course covers locating and designing an EOC; how to staff, train, and brief EOC personnel; and how to operate an EOC during various situations.

Homeland Security Exercise and Evaluation Program (HSEEP) Training Course. L-3 Communications or State conducted. This course is an intermediate-level training course incorporating exercise guidance and best practices from the HSEEP volumes. Throughout the course, participants will learn about topics including exercise program management, design and development, conduct, evaluation, and improvement planning.

Hostage Negotiations—Phases I and II. PATC. This course is 5 days and provides an understanding of the dynamics and psychology of negotiations, team composition, tactics used in negotiations, communicating during negotiations, and hostage survival factors.

Incident Command System (ICS) 300: Intermediate ICS. State conducted. Training covers organization and staffing for incidents and events, resource management, reporting and information flow, working relationships, and air operations.

ICS 400: Advanced ICS. State conducted. This course expands upon the material covered in ICS 100 through ICS 300. ICS 400 focuses on large single-agency and complex multiagency/multijurisdictional incident response. The course addresses area command and staff issues, as well as the planning, logistical, and fiscal considerations associated with complex incident management and interagency coordination.

Independent Study (IS)-100a: Introduction to Incident Command System ICS-100. State conducted. Introduces the ICS and provides the foundation for higher-level ICS training. This course describes the history, features and principles, and organizational structure of the ICS. It also explains the relationship between the ICS and National Incident Management System (NIMS).

IS-139: Exercise Design. State conducted. This course covers the purpose, characteristics, and requirements of three main types of exercises: tabletop exercises (TTXs), functional exercises (FEs), and full-scale exercises (FSEs). In addition, this course will cover exercise evaluation, exercise enhancements, and designing an FE.

IS-200.a: ICS for Single Resources and Initial Action Incidents. State conducted. This course is designed to enable personnel to operate efficiently during an incident or event within the ICS. ICS-200 provides training on and resources for personnel who are likely to assume a supervisory position within the ICS.

IS-230: Principles of Emergency Management. State conducted. This course introduces the fundamentals of emergency management as an integrated system, surveying how the resources and capabilities of all functions at all levels can be networked together in each phase for all hazards.

IS-235: Emergency Planning. State conducted. This course is designed for emergency management personnel who are involved in developing an effective emergency planning system. This course offers training in the fundamentals of the emergency planning process, including the rationale behind planning. It will develop the capability for effective participation in the all-hazard emergency operations planning process to save lives and protect property threatened by disaster.

IS-240: Leadership and Influence. State conducted. This course is designed to address leadership and influence skills. It addresses leadership from within and how to facilitate change, build and rebuild trust, use personal influence and political savvy, and foster an environment for leadership development.

IS-241: Decisionmaking and Problem Solving. State conducted. This course is designed to improve decisionmaking skills. It addresses the decisionmaking process, decisionmaking styles, attributes of an effective decisionmaker, and ethical decisionmaking and problem solving.

IS-242: Effective Communication. State conducted. This course addresses basic communication skills, how to communicate in an emergency, how to identify community-specific communication issues, how to use technology as a communication tool, effective oral communication, and how to prepare an oral presentation.

IS-244: Developing and Managing Volunteers. State conducted. This course is for emergency managers and related professionals working with all types of volunteers and coordinating with voluntary agencies. The course provides procedures and tools for building and working with voluntary organizations.

IS-700.a: NIMS: An Introduction. State conducted. This course introduces and overviews NIMS. NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents.

Kinesic Interview and Interrogation—Phases I and II. PATC. This course teaches multiphase behavioral analysis and tactical interrogation methods using advanced kinesic interview and interrogation theories. The course is designed to help interviewers maximize their ability to gain valuable information as quickly and efficiently as possible.

Modular Emergency Radiological Response Training (MERRTT). State and U.S. Department of Energy (DOE) conducted. Students develop a comprehensive understanding of radioactive material, common radiological survey instruments, decontamination techniques for handling radiologically contaminated victims, appropriate response actions and techniques for radiological events, and resources available during a response. Another important element of the training is detailed information on the types of packages used to transport radioactive material.

Management-Based Course (MGT) 301: Command and WMD Response (CMD&R). CDP. This course encompasses WMD-related topics and hands-on training on preincident planning and response development; domestic and international terrorism; chemical, biological, radiological, and explosive agents; and materials associated with WMD.

MGT 310: Threat and Risk Assessment. TEEEX. This course targets managers and supervisors of key response personnel within a local jurisdiction who are required to prevent, mitigate, manage, and/or resolve a WMD/terrorism incident. Upon course completion, responders are equipped to conduct comprehensive jurisdictional threat and risk assessments, develop likely scenarios, forecast outcomes based on planning factors, determine current and desired capabilities, and document needs to improve preparedness in the areas of planning, organization, equipment, training, and exercises.

MGT 311. Mayoral Seminar. TEEEX. This is a forum for the Nation's mayors to discuss disaster response challenges unique to mayors, county executive officers, and county commissioners. This facilitated discussion is designed for eight to 12 mayors, preferably a group of mayors sharing regional response interests.

MGT 312: Senior Officials Workshop. TEEEX. Forum for local elected and appointed senior officials to discuss strategic- and executive-level issues related to disaster preparedness, share proven strategies and best practices, and enhance coordination among officials responsible for emergency response to a disaster.

MGT 313: Incident Management/Unified Command (ICS-300 equivalent and compliant). TEEEX. Trains emergency responders, supervisors, and managers in the skills necessary to effectively plan for and manage a WMD/terrorism incident by adapting the existing ICS to the unique challenges posed by the integration of Federal, State, and local agencies and departments into a unified command structure.

MGT 315: Threat and Risk Assessment. TEEEX. This course augments the DHS course Threat and Risk Assessment. It provides managers of emergency responders with enhanced skills to conduct a comprehensive assessment of a jurisdiction's critical vulnerabilities and develop an action plan to prevent, reduce, and/or mitigate the potential damage from a CBRNE/terrorism incident.

MGT 316: Development of a State/Regional CBRNE Task Force. TEEEX. This course is designed to provide the sponsoring jurisdiction with the knowledge to develop, train, sustain, and deploy a task force capable of conducting offensive operations at incidents involving chemicals, biological agents, radiation, nuclear material, or explosives.

MGT 317: Public Works: Planning/Responding to Terrorism/WMD Incident. TEEEX. This course trains public works managers and supervisors in critical infrastructure and public services responsibilities and roles relating to community preparation and response to a WMD/terrorism incident. Participants will be able to successfully conduct vulnerability assessments of the jurisdiction's critical infrastructure and

facilities and effectively contribute to the management of a WMD/terrorism incident as a member of the jurisdiction's Unified Command structure.

MGT 318: Public Information in a WMD/Terrorism Incident. TEEX. This course provides an overview for individuals who are likely to interface with the media. The media represents one of the most critical target audiences with whom the PIO must communicate during a WMD/terrorism incident. The communication needs of the media, and the various options available for effectively communicating with the media, are the focus of this course.

MGT 322: Preparedness and Response to Agricultural Terrorism. LSU. This course equips participants with the skills they need to prepare for and respond to an agricultural terrorist attack on their area's food supply.

MGT 360. Incident Command: Capabilities, Planning and Response Actions (WMD/All Hazards). CDP. This course is delivered at a site determined by a hosting jurisdiction. In-depth training on the entire spectrum of command of a WMD terrorist event is provided, including instruction on WMD, the ICS coupled with the Federal response, and examination of the complexities of operational considerations and actions of command at a WMD event.

Performance-Based Course (PER) 212: WMD/Terrorism Awareness for Emergency Responders. TEEX. This course focuses on the unique personal protection challenges responders face during a WMD or terrorist incident. Graduates will be able to respond defensively to a WMD/terrorism incident and preclude the spread of a CBRNE hazard to the public and the environment.

PER 219: A Prepared Jurisdiction: Integrated Response to WMD Incidents. LSU. This is a problem-based course for small- to medium-sized jurisdictions, providing opportunity for jurisdictions to develop and/or refine strategies for responding to incidents where suspected WMD devices may be in transit via rail, truck, barge, or intermodal cargo container. This training course functions as a self-assessment process to enhance decisionmaking capabilities and prepare a WMD/terrorist response.

PER 220: Emergency Response to Domestic Biological Incidents. LSU. This course trains responders to identify and respond to biological threat incidents and assists jurisdictions in composing incident response plans for bioterrorist attacks.

PER 222: Public Safety WMD Response—Sampling Techniques and Guidelines. LSU. This course prepares HazMat teams within State and local emergency response agencies to safely and effectively conduct public safety operations at known or suspected WMD incidents.

PER 225: Operational WMD Response for Law Enforcement. LSU. This course addresses specific fundamentals and skills associated with an emergency response to a WMD incident. This course provides detailed technical information and includes hands-on practice of actions required of emergency responders in WMD incident situations.

PER 229: Introduction to Computer-Aided Management of Emergency Operations (CAMEO) Suite. LSU. This course provides hands-on training of fundamental elements of the CAMEO computer-based programs and allows users to enhance planning and response activities associated with community risks relating to emergencies.

PER 230/231: Incident Response to Terrorist Bombing (IRTB)/Prevention Response to Suicide Bombing Incident (PRSBI) combination. New Mexico Institute of Mining and Technology. The 4-hour performance-level IRTB course and the 4-hour performance-level PRSBI course each provide basic information on explosive and incendiary devices that could be used as terrorist weapons.

PER 240: WMD Radiological/Nuclear Responder Operations. NTS. This course offers hands-on experience with radiation fields while learning the basic operation of radiation detectors and dosimeters. Attendees are taught to conduct radiological surveys of personnel, vehicles, facilities, and outdoor areas.

Street Spanish Language for Officer Survival. PATC. This course is designed to provide officers with the understanding and practical application of the Spanish culture and language when faced with an investigation, confrontation, or arrest involving Spanish or Latino subjects.

WMD Threat, Hazard Recognition and Emergency Actions Training (THREAT). CDP. This training provides instruction and information about the items most likely to be used by terrorists, ways terrorists conduct surveillance, and ways to combat terrorism.

Trench Rescue. LSU. This course focuses on team entry operations, multiple patient removal/packaging techniques, interagency management, and coordination. This will assist the participant to identify the required resources necessary for successful scene mitigation and the best ways to integrate resources into the technical rescue team operations. Participants will acquire skills and techniques required to lift debris off victims.

MULTIYEAR TRAINING AND EXERCISE PLAN

State of Louisiana

Appendix E: Acronyms

Acronym	Definition
ALERRT	Advanced Law Enforcement Rapid Response Training
AWR	Awareness-Based Course
CAMEO	Computer-Aided Management of Emergency Operations
CBRNE	chemical, biological, radiological, nuclear, and high-yield explosives
CDP	Center for Domestic Preparedness
CERT	Community Emergency Response Team
CI/KR	critical infrastructures/key resources
CMD&R	command and WMD response
COOP	continuity of operations
CPX	Command Post exercise
CRI	Cities Readiness Initiative
CSM	crime scene management
DHH	Louisiana Department of Health and Hospitals
DHS	U.S. Department of Homeland Security
DOE	U.S. Department of Energy
DOTD	Louisiana Department of Transportation and Development
DRRO	Disaster Response and Recovery Operations
EMS	emergency medical services
EOC	Emergency Operations Center
EOP	emergency operations plan
FE	functional exercise
FEMA	Federal Emergency Management Agency
FSE	full-scale exercise
FTIR	Fourier transform infrared
GETS	Government Emergency Telecommunications Service
GOHSEP	Governor's Office of Homeland Security and Emergency Preparedness
HazMat	hazardous materials
HPE	hurricane preparedness exercise
HSEEP	Homeland Security Exercise and Evaluation Program
ICS	Incident Command System
IED	improvised explosive device
IP	improvement plan
IRTB	Incident Response to Terrorist Bombing
IS	Independent Study
LANG	Louisiana National Guard

Acronym	Definition
LEPA	Louisiana Emergency Preparedness Association
LDWF	Louisiana Department of Wildlife and Fisheries
LSU	Louisiana State University
MAA	mutual aid agreement
MERRTT	Modular Emergency Radiological Response Training
MET	Mobile Exercise Training
MGT	Management-Based Course
MOU	memorandum of understanding
NDPC	National Domestic Preparedness Consortium
NEXS	National Exercise Schedule
NIMS	National Incident Management System
NIPP	National Infrastructure Protection Plan
NORPC	New Orleans Regional Planning Commission
NRF	National Response Framework
NTS	Nevada Test Site
OEP	Office of Emergency Preparedness
OPH	Office of Public Health
OSHA	Occupational Safety and Health Administration
PATC	Public Agency Training Council
PDS	Professional Development Series
PER	Performance-Based Course
PID	photoionization detector
PIO	Public Information Officer
POD	point of distribution
PPE	personal protective equipment
PRSB	Prevention Response to a Suicide Bomber Incident
RSS	receiving, staging, and storage
SAA	State Administrative Agency
SAR	search and rescue
SARTA	Southern Antiterrorism Regional Training Academy
SAT	Standardized Awareness Training
SELA	southeast Louisiana
SFMO	State Fire Marshal's Office
SimCell	Simulation Cell
SNS	Strategic National Stockpile
SOP	standard operating procedure
TCL	Target Capabilities List
TEEX	Texas Engineering Extension Service
TEP	Training and Exercise Plan
TEPW	Training and Exercise Planning Workshop

Acronym	Definition
THREAT	Threat, Hazard Recognition and Emergency Actions Training
TTT	Train-the-Trainer
TTX	tabletop exercise
USACE	U.S. Army Corps of Engineers
UASI	Urban Area Security Initiative
USAR	urban search and rescue
WMD	weapons of mass destruction
WPS	Wireless Priority Service
